

These winter nights, against my window pane
Nature with busy pencil draws designs
Of ferns and blossoms and fine spray
of pines,
Oak leaf and acorn and fantastic vines
Which she will make when summer comes again.

—Aldrich.

Big things are coming to pass in the life of Cameron. On Friday, February 1 the 22,000 pound capacity plant of the American Milk Products Company will be opened for business. An interesting eight page section is printed in this issue of The Herald telling of the wonders of this plant and the potential outline of benefits to accrue to the farmers in the sale of milk. The plant has the backing of business men whose experience will make it a success. But beyond that, the greatest thing is the prosperity prospects it holds out to the farmers. The dairy cow if properly handled will make this section rich as it has done many other sections of the United States.

Farmers are not expected to leave off the planting of cotton or other major agricultural crops. The dairy cow should be kept in connection with the farm, her care taking only the spare hours from the field. The daily sale of milk to the plant here at 53c per pound for butter fat, will bring an income sufficient to balance the farm income and lead us to agricultural prosperity.

Cameron homes are interested in the sale of pasteurized milk. In a day or two following the opening date of the plant the housewives should visit this plant and see for themselves the absolute sanitation employed in caring for the milk for the homes. The opening of this plant is the greatest forward movement in the history of the county.

"A man about 46 years of age, giving his name as Joshua Coppersmith, has been arrested for attempting to extort money from ignorant people by exhibiting a device which he says will convey the human voice over metallic wires so that it will be heard at the other end by those who listen. He calls the instrument a "telephone" which is obviously intended to imitate the word "telegraph" and win the confidence of those who know of the success of the Morse system. It is impossible to transmit the human voice over wires and if it could be done it would have no practical value. The authorities who apprehended the criminal are to be congratulated." This item appeared in a New York newspaper 62 years ago. The way of achievement, even in those days was not free of criticism and discouragement.

One of the happy experiences of life is to find an individual who is pure gold, and one of the most disappointing things that can come to us is to discover that the heart that we thought was all fine gold is filled with creaper dross.

Roger Babson, business statistician, lists seventy opportunities to become a millionaire. Among others he mentions watches run by radio, self finding golf balls, precast tunnels, volcanic power stations, automobiles that can run sideways for parking and a method of changing birch into mahogany. Some day someone will seize every one of these opportunities.

Wonders of science are following each other so rapidly these days that we can even speculate on the possibility of instantaneous transportation of physical substances from one place to another. Think of what it would mean to be able to step into a transmitting apparatus in New York and be able immediately to walk out of the receiving mechanism in London without having to resort to ships or airplanes. Of course there isn't a single scrap of evidence to indicate the possibility of any such marvelous development, but the impossible has been accomplished many times.

The biggest crabbbers about the town are the fellows who never give on the Chamber of Commerce budget and who have never given a day of their time in community service. The reason some towns do not grow is because there are too many trying to ride who ought to be pushing.

DAN COLLINS SUCCEEDS
MOULTON COBB WITH
CAMERON ENTERPRISE

Dan Collins who has been advertising manager for the Cameron Herald for more than a year, has accepted a position with the Cameron Enterprise to succeed Moulton Cobb who is to return to Bryan where he will engage in the insurance business. Mr. Collins has the well wishes of his friends of The Herald staff who regret his leaving the service of the pioneer paper. Mr. Cobb returns to Cameron about once a year to take over the editorship of the Enterprise for several weeks in succession, but has found it impossible to remain for any period of time.

Coca Cola Bottling Plant Builds New Home Here

Farmers Showing Enthusiasm For Opening of Milk Plant Here on February 1st

C. W. LAWRENCE

One of the leaders in industry here Mr. Lawrence is head of the American Milk Products Company and believes the plant will be one of the most successful industries in this section of Texas.

REVIVAL FOR BAPTIST CHURCH MARCH 3 TO 17

DR. MILLARD A. JENKINS AND
S. J. T. WILLIAMS WILL LEAD
IN CAMPAIGN HERE

Dr. Millard A. Jenkins and Rev. S. J. T. Williams have been secured to lead in a revival meeting March 3rd to March 17th. The meeting is to be held for the First Baptist church of Cameron. Dr. Jenkins is pastor of the First Baptist church at Abilene and Rev. S. J. T. Williams was for the past four years business manager of the Will Hogg Evangelist party. The Hogg party was to hold a meeting in Cameron the latter part of November last year. It is believed by the pastor of the Baptist church and others interested that this is to be one of the most far reaching meetings that has ever come to Cameron. People of all churches and those of no church will be invited to take part in the meetings. Dr. Jenkins is a n outstanding preacher and teacher of the Bible. Mr. L. C. Gayle will have charge of the music, old fashioned singing will be featured at each service. Mr. Williams said, "I will be sadly disappointed if there are not literally hundreds of men and women brought to Christ in this effort." Plans are being worked out for young people's meetings each evening, in addition there will be children's meetings held for all the children in Cameron. Churches thru-out the county are planning to attend the meeting.

Felix Matula Starting Cash Grocery; To Open Within a Few Days

Cameron is to have another cash grocery operated on the principle of the greater grocery systems.

Felix Matula and Company this week are making extensive improvements in their store this week preparatory to opening of the cash grocery within a few days.

Mr. Matula has definite and well laid plans for the store and when the arrangements are completed the grocery will be one of the most attractive in the city.

The cash and carry grocery business first inaugurated in Cameron by Jeff Hefley some two and a half years ago has to a large extent revolutionized the business here. Cameron now has five cash groceries.

Mr. Matula will make special announcement of the opening some time next week.

It was not so long ago that Edison's phonograph presented to the French Academy of Sciences, was denounced as "impossible, a rascal's trick of ventriloquism." And in 1843 an official of the United States patent office resigned because "it is impossible to discover anything new and it is only a matter of months until this office will be forced to close through lack of business.

AKERS BROTHERS WILL HAVE A MODERN PLANT

CONSTRUCTION BEGUN ON BOTTLING WORKS FOR COCA COLA COMPANY HERE

Construction work has begun on the new building of the Coca Cola Bottling Company, owned and operated by Akers Brothers of Cameron.

The big plant which is to be modern in every detail, is located on the property owned by the Akers Brothers across from the Jack Owings filling station. This property was purchased last year by the firm.

J. A. Walston has the contract for the construction and the materials for the job are being furnished by Jeter Lumber Company.

The Akers Brothers came to Cameron a few years ago and began their business and they have seen the business grow to large proportions. They are progressive business men and both are active members of the American Legion.

The building will be of brick construction with a portion of the plant a two story building.

WILL OF MRS. W. H. TRIGGS IS FILED FOR PROBATE

The will of Mrs. W. H. Triggs, deceased, was filed for probate this week. Mrs. Triggs bequeathed \$2000 to Southwestern University at Georgetown and the remainder was left to her children.

PURITY OF MUNICIPAL WATER SUPPLY PROBLEM WOMEN HAVE KEEN INTEREST IN, SAYS WOMAN AT SHORT COURSE

(From Bryan Eagle)

"It is really thrilling but yet I feel so conspicuously important being the only woman at this school," said Mrs. Gladys M. Watson, office supervisor of water works at Cameron, who is attending the eleventh State Water Works School now in session at A. & M. College of Texas in the civil engineering building. "There should be more women in this work for primarily this is women's interest and though I feel so alone among all these men, at the same time I feel that women are neglecting a field of vital interest and that she should have an active part in. By this statement I mean that the housewife has as one of her big interests the health of her family, and that broadens out into the health of her entire community. The water department of any city is in co-operation with the health department, the repository for the safe-keeping the city's health.

"A woman engineer, an educated woman who has attained a school of engineering and knows whereof she speaks, is the person to have the personal contact with the housewives and help them in solving so many of the questions that come before them every

AIRPORT ASSURED WHEN CLUB HERE TAKES LEASE

SHORT FARM NEAR MARLOW IS SECURED FOR LANDING SITE FOR PLANES

A landing field for airplanes has been obtained on the Short tract near the Marlow school, according to Hayden Lawrence, head of the local aero club.

This field is a step toward bringing the benefits of air transportation to Cameron.

Two planes on their way south landed at the field Sunday, one of them requiring 20 gallons of gasoline.

Preparations are being made for advertising this landing field and to direct air travel to this terminal as ships pass over this section in state and interstate flights.

The Cameron Aero Club now owns one Curtis plane. Private planes are not a distant future necessity. The Ford Motor Company now has a sales force in the field selling planes. Soon the dealers will display, sell and service them.

Cameron is going forward all because a few pioneering spirits are looking ahead. The Herald was the first newspaper to urge a landing field here and Hayden Lawrence and associates are the first to bring air transportation possibilities to Cameron. We are progressing fast say those in touch with the city's interests.

R. H. MCINTOSH

For many years a leader in commercial circles Mr. McIntosh has been a consistent booster for diversified farming and as vice president of the American Milk Products Company looks forward to farm prosperity.

CAMEO FLOWER SHOP TO OPEN HERE SATURDAY

CHAIN FLORAL ENTERPRISE IS GIVEN WELCOME TO THE FRIENDLY CITY

Cameo Flower Shop to be located in a portion of the Yoe building occupied by the Keith Electric Company will open Saturday, January 26 from 3:00 p. m. until 8:30 p. m.

The shop will be in charge of Miss Enid Reaks of Temple, who has been with the Bell Floral Company there. The announcement of the opening of the shop will be found in this issue of The Herald, an attractive statement prepared by Dick Reaks of the Bell Floral Company of Temple who is one of the progressive men of the floral trade.

When the Cameo Floral Shop opens here Saturday afternoon at 3 p. m. there will be on display a gorgeous collection of flowers in varied designs and the people of Cameron are invited to visit the shop during the hours of the opening.

Miss Enid Reaks will be here to greet you and she will be glad to have the women of Cameron and the business men to visit the shop.

A comparison is invited, says Mr. Reaks both as to prices and art worked into the designs. Speaking of the shop Mr. Reaks says: "You will be pleased to know that you will have dependable flower service. A mobile force of 12 expert designers will be available on an hour's notice. A adept designer will be on hand at all times. You may send flowers to any part of the world through our telegraph service. We are represented in every city in the United States.

"The Cameo Shop is one of a chain, buying in quantities. Waste is eliminated and overhead is reduced. Quick turnover guaranteed. The chain store gives you this advantage over private enterprise. We invite the people of Cameron to visit the shop on opening day and to open their accounts. We want to get acquainted and to be a part of your fine city."

Those in touch with the establishment of the shop here said Thursday that indications are the hours from 3 p. m. until 8:30 will see hundreds of people calling at the shop to view the flowers and to learn more about the service of this nation wide floral chain store.

Kent Disposes Of Refinery Share

Corsicana, Jan. 22—C. A. Middleton and associates Tuesday own all of the interest in the Kent-Middleton Refinery Company, formerly held by G. C. Kent. Sale of the Kent interests was announced here Monday night. Consideration is understood to have been \$500,000.

The company owns a 4000-barrel refinery here and several filling stations, 140 shallow producers, 100 miles of pipe line and a 2400-barrel refinery in Milam county.

PROSPERITY OFFERED IN DAIRYING HERE

MILK PLANT OPENING HERE
FEBRUARY 1 WILL BRING IN
NEW ERA FOR CITY

Reports coming to the desk of the editor this morning indicate that a widespread enthusiasm is being felt in all sections of the county and trade territory for the opening here on Friday, February 1 of the plant of the American Milk Products Company.

Zone meetings held over the territory by Willard Reese, manager of the plant, have brought the farmers in close contact with the big possibilities of the industry.

But for the shortage of cows in this territory this plant would be operating at capacity within a few days after the opening.

The publicity given to the plant here has aroused interest over a wide section of the state and the need for cows has brought forth a number of offers of cows for sale. It is known that some local herds are being offered and all those interested in buying cows and selling milk should get in touch with the Commercial Club or the managers of the milk plant.

MAYTAG SHOP OPENING ANNOUNCED FOR CITY

H. E. LEMM OF WACO MOVES TO
CITY WITH FAMILY TO MAN-
AGE SHOP HERE

The Maytag Shop is the newest business enterprise for Cameron.

In the building of the Keith Electric Company may be seen a large number of the latest models of the Maytag washing machine, the fastest selling machine for that use in America.

The new Maytags are exceptional in design and in simplicity of operation and are declared the most successful washing machine ever invented.

The Maytag Shop was opened here Monday when G. F. Schmidt, district manager, arrived here in company with H. E. Lemm who is to be the local manager. Mr. Lemm formerly resided in Waco but with his wife and three children are now residents of Cameron. Mrs. Lemm will have charge of the shop while Mr. Lemm will be salesman for the Cameron territory. The people of the "Friendly City" will be pleased to welcome them to Cameron.

The home office for Texas is in Dallas. The Maytag washing machine is manufactured in Newton, Iowa, the largest output of washing machines in the world. Last year the Maytag outsold all other makes by 52 per cent. The largest shipment of any manufactured product in America was made when eight solid train loads of these machines left the factory in Iowa. No shipment of any nature has (Continued on last page, this section)

Cruz Garcia Gets Five Years for Killing of Carlos Rodriguez

Five years in the state prison was the verdict in the case of Cruz Garcia on trial here for killing of another Mexican.

The case of State of Texas vs. Cruz Garcia charged with killing Carlos Rodriguez on September 29, 1929 on the Baskin farm near Maysfield has been on trial all this week. The defendant is represented by Mr. Simmons of San Antonio and the State by A. J. Lewis, county attorney.

The case is being tried before Judge Few Brewster of Belton who is sitting in exchange with Judge Watson who is holding court in Belton.

Judge Brewster was formerly District Attorney of Belton and was elected District Judge at the last election.

The jury was selected out of a total of 125 men. Following is a list of the jurors: E. E. Allison, Robt. Conner, Geo. Buffington, W. J. Williams, R. O. Harper, Richard Ludecke, J. M. Fuller, W. A. Conn, Homer McLane, Charlie Swift, W. B. Denson and A. D. Henderson.

SHERIFF'S SALE

The State of Texas,
County of Milam,

Whereas, on the 16th day of November A. D. 1928, in a certain cause numbered 1001 on the docket of the District Court of said county, wherein the State of Texas is plaintiff and Henry F. Lippman, Bertha Lynch and Eunice Dill are defendants, the said plaintiff recovered judgment in the amount of Two Hundred thirty-five and 88-100 dollars for taxes, and legal amount penalties, costs and interests computed thereon, together with the foreclosure of plaintiff's delinquent tax liens upon the property herein-after described as the property of the defendants, because of non-payment of the taxes due thereon;

And whereas, on the 4th day of January, A. D. 1929, by virtue of the said judgment and the mandates thereof, the Clerk of the District court of said county did cause to be issued an Order of Sale, commanding me as Sheriff of said County to seize, levy upon and sell in the manner and form as required by law the hereinafter described property as the property of the above defendants, to satisfy the said judgment.

Wherefore, by virtue of the said Order of Sale and the mandate thereof, I did on the 5th day of January A. D. 1929, seize and levy upon as the property of the above defendant, the following property, to-wit:

98 1-2 acres of land on the David Gallagher League in Milam County Texas, and beginning at the N. W. corner of the Common 50 acre tract, same being the N. E. corner of the Vernon Russell 150 acre tract for the N. E. corner, of this; thence with the

TIRED, BLUE

Took Cardui And Improved Greatly, Says Okla. Lady.

Mrs. John Shipp, 2314 Maple Street, Oklahoma City, Okla., says:

"Two years ago, I was in very bad health. I was so weak and run-down, I could scarcely keep going.

"My mother thought I ought to try Cardui, and told me to get some and take it. I could eat nothing, as I had no appetite.

"I found great relief after I began taking Cardui. I was able to eat and I could sleep. Before that, I had been so nervous that the least little thing upset me. I was low-spirited and blue. I got thinner and thinner, and I was always tired."

For sale by all druggists.

The Cameron Herald

Journalistic Club Is Organized At Yoe Hi

Students of Yoe High School have organized a Journalism Club which will sponsor the publication of a school newspaper, the first edition of which is promised for next week. The paper will appear every two weeks, and will be four pages in size. Details have not yet been worked out and the staff is not prepared to announce what the name of the paper will be or what subscription will be used.

Florence Atkinson has been named Editor-in-Chief, with Frances Sharpe and Thomas Graves her assistants. Harvey Yoe will be business manager and Dean Allen, assistant business manager. Other members of the staff both editorial and technical are as follows: Sports editor, Cyrus Miller; humor and feature editor, Sam Mewhinney, with Ben Heald, Felix Gresham and Charles Knipp assisting; club editor, Nancy Rea Slocomb; school news, Lois and Ruby Robbins; exchange editor, Mary McDermott; head reporter, Geraldine Slaughter; assistant reporters, Dora Emily More, Mary Jane Burnett, Lilian Thach and Frank Hubert; make-up editor, Bernice McLerran; copy reader, Frances Sharpe; assistant copy readers, Sue Ella Tyson, Evelyn Grubbs, Margaret McCown and Vernon Slocomb; typists, Evelyn Grubbs, Bonnelle Neinast and Marie Havlik.

Would You Attend a Business College

Realizing that a great number of young people are deprived of an opportunity of attending a business college because of the lack of money, our STUDENT LOAN FUND ASSOCIATION was created for the express purpose of furnishing the necessary help to worthy boys and girls.

We have selected the Tyler Commercial College of Tyler, Texas as the college we can most consistently recommend. This is one of the oldest business schools as well as one of the most widely known for its thorough work and its successful graduates out in the world of business.

We have made arrangements with the Tyler Commercial College by means of which we can take care of a limited number of young people thru our loan fund.

If you are in good standing in your community and can furnish the best of references, we shall be glad to help you. We have helped a number of deserving young people in the past who are now independent wage earners and enthusiastic boosters for our Association.

We are especially interested in helping young men and young women who have been forced on account of financial reasons to drop out of high school or college.

In order to receive help from this Association it is only necessary to clip the coupon attached and mail it to us or to the Tyler Commercial College. We can then work out a plan whereby you will be enabled to enter the College even though your funds are limited.

Clip out the coupon and mail it to-

JONES PRAIRIE

By MRS. R. K. FONTAINE

Miss Jewell Hickman spent Saturday night with Selma Jamison.

Miss Ollie Mae Smitherman is under treatment at the Cameron hospital this week.

Mrs. Rodney K. Fontaine gave a party Saturday night for the young people of this community. A large crowd enjoyed games and contests throughout the evening and departed for their homes at a late hour, all rejoicing over the good time they had.

Mrs. D. Messengale has been quite ill the past week with the flu.

The Arthur Burnett family have all been ill with the flu for the past two weeks.

Mr. and Mrs. Rodney K. Fontaine and son, Billie were Sunday dinner guests at the Dr. W. J. Fontaine home.

Rev. Dobson preached at Little River Sunday morning but on account of rain no preaching was held Sunday night.

Miss Etna Love spent Sunday night with Jewell Hickman.

Mr. and Mrs. Clarence Crook have moved into the house Birt Thrasher formerly occupied.

Rev. Red preached at String Prairie Sunday.

Sunday afternoon callers at the W. J. Fontaine home were Mr. Brant Smitherman and daughters, Ollie Mae and Ruby and Rev. and Mrs. Red and two daughters.

Mrs. Alma McKinney was home over the week end but was unable to attend church on account of illness.

Billie Black has been quite ill the past two weeks.

Mrs. W. T. Johnson and Barrett and Lucille were shoppers in Cameron Saturday.

Several basket ball games have been played at Jones Prairie this week.

A party was enjoyed by a large crowd of young people Friday night at the Rodney Anderson home.

Connie Mae Hickman spent the week end at home.

Mrs. W. T. Johnson and Lucille and Mrs. Rodney Fontaine and son spent Monday at the Schwarting home in Clarkson.

BAPTIST MISSIONARY SOCIETY

Members of the W. M. S. of the Baptist church met in the various homes last Monday for mission study. Circle one met with Mrs. R. G. Graebert with eleven members present; circle two met with Mrs. L. L. Blaylock with thirteen present and circle three met with Mrs. Harve Dobbins with eight members present.

The circles will meet in the homes next Monday for study in Royal Service as follows: Circle one with Mrs. Joe Denson; circle two with Mrs. Geo. Mangum and circle three with Mrs. Gus Evans.

THE SUNDAY ROAST

There is no American tradition more firmly entrenched than the Sunday roast. With most families it is as much a part of Sunday as church services. The Sunday roast is an American institution.

Roasts are particularly popular with wives and the reason is not far to seek, for they give a wife an advantage over her husband that he finds great difficulty in overcoming. In the first place, Sunday roasts are pop-

ular with housewives because they solve not only the Sunday dinner problem but the Monday and Tuesday dinner problems as well. For on Monday they appear warmed over and on Tuesday in the guise of meat pie or stew. Thus at one stroke to provide three dinners out of seven is an accomplishment not to be sniffed at.

But the significance of the Sunday roast is even more subtle than that. It appears contemporaneously with the clean Sunday table linen and accompanied with enough gravity to float a battleship. Only the most skillful hand can avoid a catastrophe. At the beginning of the meal the good wife warns against grease spots on the tablecloth and she scolds about them at the end of the meal.

So long as Sunday roasts appear upon the table husbands will have to undergo a weekly demonstration of their fallibility. It is a test of masculine prowess commensurate only with keeping the grass cut or remembering the articles to be purchased in town. Of course, a roast could be carved in the kitchen or the carving knife could be handed over to the deft fingers of the better half, but that would be an admission of defeat which only the most domineering of husbands would have the hardihood to survive.

FEDERATION TO MEET

The Cameron Federation of Missionary Societies will meet in regular quarterly session at the Christian church, Tuesday, January 29th, at 3:30 p. m. All ladies are cordially invited. The following is the program: Hymn. Devotional, Mrs. W. L. Wilson. Solo, Miss Lorene Wade. Round Table Discussion, "Federation Problems." Hymn. Business Session, Mrs. J. P. Love, presiding. Benediction.

CALDWELL, TEXAS

ARREST OF WHITEY WALKER IN BUFFALO
RECALLS SENSATIONAL JAIL BREAK AND
CAPTURE BY HERIFF IN LONG CHASE

(continued from page 1)

to get back to Texas where he has friends. "Walker is well versed in Texas law," said Mr. Blaylock, "and knowing him as I do, I cannot believe that he has involved himself by an open confession of crime. Walker always has plenty of money and has a strong host of friends and manipulators who have succeeded so far in helping him escape." Mr. Blaylock says he remembers well the exciting chase after Walker when he broke jail here and adds that if Walker were again committed to his keeping he would maintain a guard over him day and night. Here is the Buffalo story:

Buffalo, N. Y., Jan. 18—Clyde Roberts, better known as "Whitey" Walker, one of two men arrested at Buffalo police in connection with murders and robberies alleged to have been committed by the Ace Pendleton gang in the southwest, broke down today and according to Detective Chief Reville confessed to three killings.

Admits Slayings

According to police, Walker, who says his correct name is William J. Walker, admitted the slaying in Borger, Texas, of Patrick Kenyon and Elmer Perry, deputy sheriffs on April 1, 1927. With him at the time, he said was his brother, U. Walker and an Ed Bailey. Walker says he was arrested for that crime and held in bond of \$15,000 but jumped his bail.

Walker also was said by police to have admitted the killing of Coke Buchanan, a policeman at Stinnett, Texas, March 1, 1927.

The prisoner denied all knowledge of Colorado slayings of which he has been accused.

Prisoner Escaped

Walker was arrested in Ft. Worth, Texas, in September 1927, he told police for robbing the stockyards National Bank and again at Cote, Wyoming, March 19, 1928, but escaped while being transferred to Billings, Montana. The prisoner said his first arrest was in Oklahoma in 1922 when he served five years for theft of an automobile.

Detective Chief Reville said Walker admitted passing forged money orders of the American Express company, using four names for that purpose. Some express money orders which had been stolen still were in

Walker's possession when he was arrested Saturday.

Walker says he is a native of Milam county, Texas and was born in 1901.

Fred Nave, held here with Walker and also wanted in many cities and towns for crimes of various sorts, refused to make any admissions.

Wanted Some More

While the questioning of the pair was under way, a telegram came from Fred Bowels, sheriff of Pontotoc county, Oklahoma. It stated Walker was wanted as the leader of the gang that held up a bank at Allen, Okla.

"Walker has been positively identified," the telegram read. "Conviction is certain. Curtis Black, member of the gang, given life. Will pay entire reward offered by state if Walker is turned over to me."

Telegrams, letters and telephone calls continue to pour into detective headquarters from all parts of the southwest. More cities continued to be heard from and in most cases Walker and Nave seem to be wanted mainly for slaying. Buffalo police have received telegraph requests to hold the two for Austin, Pampa, Ft. Worth, Borger and Wellington, Texas. Purcell, Oklahoma City, Washington City, Okla.; Eldorado, Ark.; Colorado Springs, Colorado City and Lamar, Colorado.

The pair, police say, are implicated in eight killings, daylight robberies of banks seem to have been their forte.

MISS MARY BURNETT AND CONN MOODY
TO WED JANUARY 31; ANNOUNCEMENT
MADE AT PARTY GIVEN HERE TUESDAY

Announcement of the engagement and approaching marriage of Miss Mary Burnett and Mr. Conn Moody was made Tuesday evening when Mrs. W. D. Bigbee entertained with six tables of bridge at the home of her mother, Mrs. Burnett on East Thirtieth Street. Pastel colors with a predominance of pink were used in the appointments, the score cards being colonial ladies in dainty design. Blooming pot plants added color and cheer to the rooms.

At the end of the six games that were enjoyed, it was found that Mrs. Terry Wiley had made high score and she was rewarded with a hand em-

broided vanity set. Mrs. Hilton Culpepper, who made low score, received a lemon dish.

The hostess, assisted by Mrs. Pope Sapp, Miss Mary Burnett and Mrs. Mack Fox, served a salad plate and hot tea.

Just as the guests were ready to depart, a peal of the door bell was heard and when answered, a telegram was found for Miss Jolly Blanche Pitts. The message was as follows: Mary and Conn, January 31. Miss Burnett is an employee of the First National Bank, where Mr. Moody was assistant cashier until about a month ago when he resigned his position.

MISSIONARY SOCIETY

The Methodist Missionary Society met in circles Monday afternoon for a lesson in Voice. Circles one and five did not meet. Circle two met with Mrs. Hugo Slaughter with six members present and one visitor. Mrs. H. N. Tate led the devotional and Mrs. W. P. McCall conducted the lesson. A short business meeting was followed by an enjoyable social period. Circle three met with Mrs. S. W. Cheeves with ten members present. The lesson was conducted by Mrs. Pope Sapp. The members discussed their pledges for local work. Circle four met with Mrs. Howard Baskin. Mrs. W. A. Bonds led the devotional and she was assisted by Mrs. Leland Green, who contributed a leaflet on missionary work. A business meet-

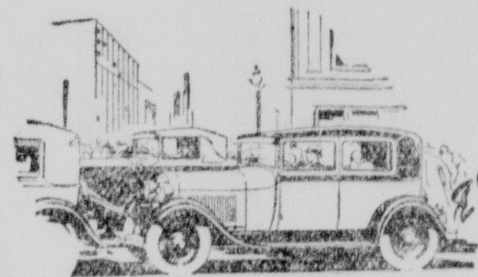

ing was presided over by Mrs. Fred Cable.

The circles will meet as follows next week: Circle two with Mrs. Jeff Kemp; circle three with Mrs. Louis Gohmert and circle four with Mrs. W. O. Triggs.

Safety, silence and simplicity are features of the new Ford six-brake system

ONE of the first things you will notice when you drive the new Ford is the quick, effective, silent action of its six-brake system.

This system gives you the highest degree of safety and reliability because the four-wheel service brakes and the separate emergency or parking brakes are all of the mechanical, internal expanding type, with braking surfaces fully enclosed for protection against mud, water, sand, etc.

The many advantages of this type of braking system have long been recognized. They are brought to you in the new Ford through a series of mechanical improvements embodying much that is new in design and manufacture. A particularly unique feature is the simple way by which a special drum has been constructed to permit the use of two sets of internal brakes on the rear wheels.

A further improvement in braking performance is effected by the self-centering feature of the four-wheel brakes—an exclusive Ford development. Through

this construction, the entire surface of the shoe is brought in steady, uniform contact with the drum the instant you press your foot on the brake pedal. This prevents screeching and howling and makes the Ford brakes unusually silent in operation.

Another feature of the Ford brakes is the ease of adjustment.

The four-wheel brakes are adjusted by turning a screw conveniently located on the outside of each brake plate. This screw is so notched that all four brakes can be set alike simply by listening to the "clicks."

The emergency or parking brakes on the new Ford require little attention. However, should they need adjustment at any time, consult your Ford dealer for prompt, courteous, and economical service. He works under close factory supervision and he has been specially trained and equipped to help you get the greatest possible use from your car over the longest period of time at a minimum of trouble and expense.

Senators From Texas

IN THE UNITED STATES
CONGRESS 1845—1930

MORGAN CALVIN HAMILTON
(1870-1877)

Morgan Calvin Hamilton was born near Huntsville, in Madison County, Alabama, on February 25, 1809. In 1837 he removed from Alabama to the Republic of Texas. From 1839 to 1845 he served as a clerk in the war department and during the greater part of the years 1843-1845 he was acting secretary of war of the State.

After the admission of Texas as a State he was still prominent in local affairs, and in 1867 received an appointment as comptroller of the treasury. He was a delegate to the constitutional convention of 1868. On the reconstruction of Texas he was elected to the United States Senate as a Republican, and was reelected, serving from March 31, 1870, until March 3, 1877. He was an active member of the Committee on Pensions and the Committee on Railroads.

When, on April 20, 1872, the Senate had under consideration a bill supplementary to "An Act to Incorporate the Texas and Pacific Railway Company, and to aid in the construction of its road, and for other purposes," Senator Hamilton stated in debate that for many years Texas had been authorizing the construction of railroads and had expended millions of dollars on numerous projects, but had no railroad.

In one or more speeches made in the Senate he severely criticised the State legislature, saying that it was then overriding the State constitution, exploiting the people, and destroying their liberties.

Senator Hamilton died at San Diego, California on November 21, 1893.

Andrew Jackson Hamilton, his brother, was born in Madison County, Alabama on January 28, 1815. He was educated at a common school and subsequently worked for a time on his father's farm. He afterwards engaged in business, and was for some years clerk of the circuit court of his native county, when he studied law. In 1846 he settled in Texas, practiced law for many years in Austin, and for a time served as attorney general of the State. In 1856 he was a president elector on the Buchanan ticket. He subsequently became a Republican and was elected to Congress, serving in 1859-1861.

In 1859 Andrew Hamilton was the Conservative candidate for governor and his friends thought him elected, but after a canvass of the votes by General Reynolds his opponent, General Davis, was declared elected.

Andrew Hamilton opposed the secession of Texas and during the early part of the war lived in the North. On November 14, 1862 he was made brigadier-general of United States Volunteers and in the same year was appointed military governor of Texas. He was sent to command troops at Matamoros. President Andrew Johnson made him provisional governor in 1865. In 1866 he became chief justice of the Supreme Court of Texas. He was a member of the second reconstruction convention and mainly instrumental in getting a very liberal electoral bill engrafted in the Constitution of 1868.

Andrew J. Hamilton died at Austin, Texas on April 10, 1875.

TEACHER TO EXECUTIVE IN TWO YEARS

A few years ago, he was a country school teacher, drawing a meager salary six or eight months out of the year and discouraged with the outlook for the future.

Two years later, he was Deputy Collector of Internal Revenue for the District of Arkansas, with an all-the-year-round income many times that which he had drawn as a teacher. "I'm just beginning my career," he says.

One decision, a little determination, and the encouragement of a far-sighted little wife made this wonderful change in the course of his life. His story may prove helpful to hundreds of others.

Raised on a farm and having attended country school until he had completed a two-year high school course, Lonzo A. Ross was twenty-one years of age before he "struck out for himself" as a country school teacher. For five years he followed this profession. Then, having taken unto himself a wife, he began to think a bit more about the future. He had made no progress as a teacher, although he liked the work. Encouraged by his wife, he decided to fit himself for a business position and enrolled at Tyler Commercial College, Tyler, Texas.

His first position upon graduation paid him a yearly salary more than three times that which he had drawn as a teacher. The following year he was appointed deputy collector of Internal Revenue—a position he could never have held but for his thorough T. C. C. training.

"At any cost, get a T. C. C. graduate," is his advice to employers. And to teachers and other ambitious young people: "Get a T. C. C. training."

Resolutions

To the Officers and Members of Cameron Lodge No. 56, I. O. O. F.: Whereas our Brother T. C. Stafford mourns the death of his good wife, Mrs. Mamie H. Stafford; and

Whereas, the Lodge desires to assure Brother Stafford of its sincere sympathy with him in his time of distress.

Now, therefore, be it resolved: That Cameron Lodge sorrows with Brother Stafford in his sadness and assures him that he has the deep sympathy and friendship of our membership in his affliction.

Be it further resolved: That a copy of this resolution be spread upon the minutes of our Lodge, and that a copy be furnished to the Cameron Herald and a copy be delivered to our Brother T. C. Stafford.

Praternally submitted,
Jeff T. Kemp
John Watson
Chas. C. Smith, Com.

GAUSE

Mrs. W. G. Fowler has returned to her home in Richmond after a pleasant visit with her son, Terry Moore and family.

Mrs. C. M. Carr was in Cameron Thursday.

Arthur Ealand of San Antonio is here tending to his father's lumber yard. We are glad Mr. Ealand is getting along nicely. He is still in the Cameron hospital.

Mr. and Mrs. Jesse Jones and children of New Baden spent Saturday and Sunday with their parents.

Mr. and Mrs. M. E. Holmes of Dallas are here attending the bedside of his mother, Mrs. S. M. Thompson, who is critically ill with the flu.

The Eastern Star ladies met Thursday afternoon at four o'clock and 7 members were present.

Mrs. Roberta Holden spent Saturday in Rogers with friends.

Rev. W. F. Weeks held services at the Methodist church Sunday morning. On account of bad weather he did not preach Sunday night.

Mrs. Tom Erwin and Mrs. Carr were Cameron visitors Monday.

Misses Muriel Hickman, Emma Howard and Elaine Thomas were in Cameron Saturday.

Mrs. Glen Critchfield was in Cameron one day last week.

Zol Hensley and daughter of Santa Anna were in Gause several days this week on business.

CHRISTIAN AID SOCIETY

With the president, Mrs. Jim Neinst, in charge of the meeting, members of the Aid Society of the Christian church met at the church Monday afternoon. Some special matters of business were disposed of, after which the meeting was adjourned until next Monday at which time officers will be elected. It is urged that all members be present at the next regular meeting.

CARD OF THANKS

We desire to extend our sincere thanks to those of our friends and neighbors who came to us during our recent bereavement. We especially thank those who gave flowers and all who assisted in any way during our hour of sorrow.

Mr. and Mrs. Frank Janicek and family.

In the big illustrated book, "Achieving Success in Business" are printed scores of stories of men and women who have reached success as a result of training. The book is free. No obligation. Won't you let us send you a copy? Just clip the coupon below (We have no branch schools. We lead; others follow.)

METHODIST CHURCH

We made some gain last Sunday. Some folks were not yet well enough to brave the harsh elements. You will be stronger by next Sunday and perhaps the good Lord will arrange better weather. Come if it does not endanger you.

The Sunday School at 9:45 should have fifty more than last Sunday.

All three of the Leagues should have an increased attendance.

The pastor will be happy if all of those who have been sick can be at preaching. He will preach at both hours and will be as helpful as possible for him.

We have many neglected matters to catch up now. We are urging every body to do their best helping the church to regain its attendance and activity.

BIRTHDAY PARTY

On Monday afternoon, January 21st twenty-one little girls and boys gathered at the home of Adele's parents, Mr. and Mrs. L. F. Slama to celebrate her eighth birthday, which was the day before, January 20th. Many games were enjoyed on the outside with Miss Miladie Slama leading in the games. The latter part of the afternoon they were called in, where they found a decorated table, with strips of pink and blue crepe paper from the electric light to the corners of the table. A white birthday cake, decorated with candy hearts, with eight lighted pink candles stood in the center with pink and blue baby ribbon from the cake center to each plate. At each plate stood a bottle of orange soda water. Pencil suckers surrounded the cake. They were each asked to pull their ribbon. Lillian Michalka pulled the button, Evelyn Lois Bird the thimble, Robert Lee Dakel the dime and Johnnie Sprott the ring. Mrs. Slama was assisted by Mrs. H. L. Dakel and Mrs. Jim Bird of Minerva in serving cakes and candy. Those present were: Mildred Michalka, Josephine Eickenhorst, Mildred Parma, Mary Ruth Sutter, Jesse Clarabell Martin, David Wade, Robert Lee Dakel, Lillian Michalka, Lois Meachum,

Mildred Slama, Dorothy Kubecka, Billy Balhorn, Jr., Virginia Lindle, Joene Lindle, Virginia Weems, Annie Michalka, Alice Strizinek, Ruby Lee Sprott, Johnnie Sprott, James Wilbur Bird and Evelyn Lois Bird of Minerva. When they left for their homes, they were given, as a souvenir, a pencil sucker with either a pink or blue ribbon tied around it. Little Adele was a recipient of many beautiful gifts.

TREBLE CLEF CLUB

The Treble Clef Club met Monday afternoon with Florence Atkinson as hostess, to decide on a program for the remainder of the season. It was agreed that meetings should be held every alternate Monday afternoon at four o'clock. A committee, with Lillian Mondrik as chairman, was appointed to arrange a course of study for the club. It was also decided by the members to federate with other junior music clubs of the State.

After the business session, a social hour was enjoyed at which time the hostess served sandwiches, pickles, cakes and hot tea.

The next meeting will be held on February 4 with Euline Slaughter hostess.

HISTORY CLUB

The fame it has gained and the principal characters exploited in Thornton Wilder's book, "The Bridge of San Luis Rey," formed the subject of discussion among members of the History Club in regular session Tuesday afternoon with Mrs. B. P. Atkinson as hostess. Mrs. Graham Gillis and Mrs. Wm. Henderson gave talks concerning the book and these were followed by a general discussion.

Mrs. Atkinson served her guests a salad plate and hot tea.

W. F. Eifler of San Antonio was the guest of Mr. and Mrs. Roy Law Saturday and Sunday. He was accompanied home Sunday by his wife and baby, Billy, who had spent the week in Cameron, the guests of Mr. and Mrs. Law.

Chas. Frank Green
Cameron, - - Texas.

2-Door Sedan, \$745
Body by Fisher

announcing The New PONTIAC BIG SIX

Introducing Big Car Standards of Luxury, Style and Performance at \$745

TODAY a new type of low cost motoring luxury is available. It embraces big car style. It provides big car riding comfort. It embodies big car quality in unseen parts. It is offered by a brand new automobile—the New Pontiac Big Six.

Frankly, the New Pontiac Big Six was designed to appeal to a certain group. This group is made up of people who are beginning to move up in the world. Many of them will soon make the first step up in the quality of their cars. The New Pontiac Big Six was designed for them.

It comes to them entirely new in appearance. Stunning new bodies by

Fisher contribute to the big car beauty and big car style presented by the car as a whole.

Progressive people are seeking greater luxury. The Pontiac Big Six offers them the luxury for which bodies by Fisher are famous the world over. It provides the smooth-riding qualities of a car 167 inches in overall length, with accurately balanced rotating mechanical parts and such advanced comfort features as adjustable drivers' seats.

It is a six with the added power of a larger L-head engine and the added smoothness imparted by a dynamically balanced, counter-weighted

crankshaft and the famous Harmonic Balancer. Its new brakes are of the dirt-and-weather-proof internal four-wheel type.

It reveals big car performance even to the point of developing big car power and big car speed.

Only a few highlights in its construction have been mentioned. Just enough to prove that the Pontiac Big Six is entirely new and capable of meeting progressive Americans' demand. But the amazing thing about it is that it gives so much big car luxury, style and performance at prices which come within practically everyone's reach!

Prices \$745 and up, f.o.b. factory, plus delivery charges. Bumpers and rear fender guards regular equipment at slight extra cost. Check Oakland-Pontiac delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

SCHILLER MOTOR COMPANY

Texas and Texans

By Will H. Mayes

Texas Railroad Extensions

The Texas railroads are planning to change the railroad map in many sections of Texas during 1929. All of the principal lines are actively making or considering extensions. Construction activities are especially noticeable in the South Plains section, in West Texas and in parts of South Texas. Expenditures in the Eastern part of the State will be in the improvement of trackage, yard and station facilities. Railroads will continue to do great things for the State.

Railroad-Bus Combinations

Many Texas people who have been watching the development of bus traffic and truck transportation are apprehensive that the railroads have well defined plans to absorb this new competition and they say this is already being evidenced in the efforts to take over bus lines thru subsidiary organizations. Should this be done to any large extent, highway building in Texas will be largely to the advantage of the railroad corporations rather than the people who build and maintain the roads. Texas needs just the kind of transportation competition that the busses and trucks are giving. It not only makes far cheaper rates but for greatly improved service.

Big Spring Growth

Postoffice receipts are usually considered pretty accurate barometers of business. Under this way of estimating stupendous progress, as the postoffice receipts for the last quarter of 1928 were about 40 per cent larger than for a corresponding period of the previous year. Oil development had much to do with this growth although Big Springs disclaims being an oil boom town.

Polo Pony Trade

West Texas is said to be the best section in the United States for raising and training polo ponies. This is due largely, horsemen say, to the bracing atmosphere in an altitude neither too low nor too high for the best lung development, to the wonderful, hard turf of the pasture lands, and to the soil chemicals absorbed thru the native grasses. A Menard ranchman who specializes in polo ponies has recently sold a car of the ponies at prices ranging from \$300 to \$1000 each and has a demand for more trained polo horses than he can supply.

University Oil Lands

The quick action of both branches of the legislature in repealing the University oil lease lands by unanimous votes shows the feeling of Texas people in regard to conserving the University revenue. Equally diligent and rapid action should be taken to provide a way for the University to invest its permanent funds in a way to realize a better revenue than can be obtained by investing in United States bonds. Under the present law the University has to be content with a ridiculously low income from the vast fortune it is accumulating thru oil development on its lands.

Galveston's Beauty Show

Galveston is often spoken of as "the old lady of the seas." Once a year the

old lady arouses herself and puts on a "pulchritude" contest that puts to shame anything done by Zeigfield's Follies, and that partakes pretty closely of the nature of the New York bath tub party that shocked the whole country a couple of years ago. People flock to the contest to view the most unclothed young women of the country like they once attended Tex Rickard's prize fights. The "Old Lady" smiles as she pockets the proceeds and wonders how much longer the public will pay to look at young women shamelessly robed. At present she is promising for next summer a show of a kind to startle the most remote sections of the world.

Texas Ice Plants

Texas has now more ice manufacturing plants than any other State in the country, the number being 225. Pennsylvania follows with 224, while California is third with 175. A bill pending in the Texas legislature would place ice manufacturing under control of the Railroad Commission with a view to equalizing the price of ice in all sections of the State. At present there is a large variance in ice prices in different parts of the State, which is said to work to the disadvantage of some sections in marketing products.

Gas Line Extensions

A ten inch gas pipe line is to be run from the Brown and Coleman county gas fields to Waco, work to begin about February 1, and the construction to cost around \$2,000,000. Charters have been obtained to supply Goldwaite, Lampasas and other towns between Brownwood and Waco. The line will carry sufficient gas to provide for the needs of many Central Texas communities and the field from which the gas comes appears to be inexhaustible, new wells being brought in every week by operators searching for oil.

Poultry Industry Grows

Calling attention to the fact that the poultry industry of Texas now amounts to more than \$100,000,000 annually, both the East and West Texas chambers of commerce will urge the present legislature to make sufficient appropriations to conduct in-

vestigations of poultry diseases and other troubles of the industry. With poultry flocks constantly increasing, the necessity for safeguarding against spread of diseases grows.

Improving Rural Conditions

A meeting of 175 farmers at Jacksonville to discuss rural improvements gives this columnist occasion for saying that the chambers of commerce and other organizations in East Texas have certainly worked faithfully the last two years for improving farm conditions and rural life in that part of Texas and the results are apparent even to the casual observer. The towns and country have co-operated in every way until East Texas today bears very little resemblance to the East Texas of a few years ago. Most of the change has been brought about thru soil conservation and upbuilding and diversified farming.

MAYSFIELD

Mrs. Wm. Freeman and Miss Nell Red were shopping in Cameron Saturday afternoon.

Mr. and Mrs. Everett Newton and brothers, Carlton and Ladell with a few young people in the neighborhood went rabbit hunting in their car one night this week and killed about 20 rabbits. They reported a good time.

Mr. and Mrs. Everett Newton left Saturday morning about one o'clock for their home in Eldorado, Arkansas. They planned to reach Tyler in time for breakfast with Mr. Newton's sister, Mrs. J. B. Carey who lives at Tyler.

Misses Mildred and Grace Thweatt spent Friday night with Miss Bertha Floyd.

Finis Thweatt of Jones Prairie visited relatives in Maysfield this week.

Mrs. Baylor, Misses Bernice and Jo Baylor and Grace Thweatt motored to Cameron Saturday afternoon.

Mrs. L. S. Woodruff of Brownwood arrived in Maysfield Wednesday to

visit her parents, Mr. and Mrs. W. M. Waits.

Miss Velma Waits called on Miss Grace Thweatt Saturday.

Mrs. T. S. Woodruff and Miss Mary Emma Thweatt were shopping in town Saturday.

The young people enjoyed a social in the home of Mr. and Mrs. T. L. Floyd Friday night. Those present were Misses Bernice and Bertha Baylor, Hortense Turner, Ada Lee Massengale, Mildred and Grace Thweatt, Vera Mayes and Bob Mayes; Messrs. LeRoy Massengale, Ben and Dock Thweatt, LeDell Newton, J. C. and T. R. Cosby, Johnnie Brashear, Ralph Massengale, Homer Turner, Gus and Glen Ditto.

Toncan Iron for Cisterns, Gutters, Cornices, Spouts, Roofing, and Stock Tanks. There is none better. Guaranteed for 25 years against rust, corrosion, etc.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of *Chas. H. Fletcher* just to protect the coming generations. Do not be deceived. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Never attempt to relieve your baby with a remedy that you would use for yourself.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

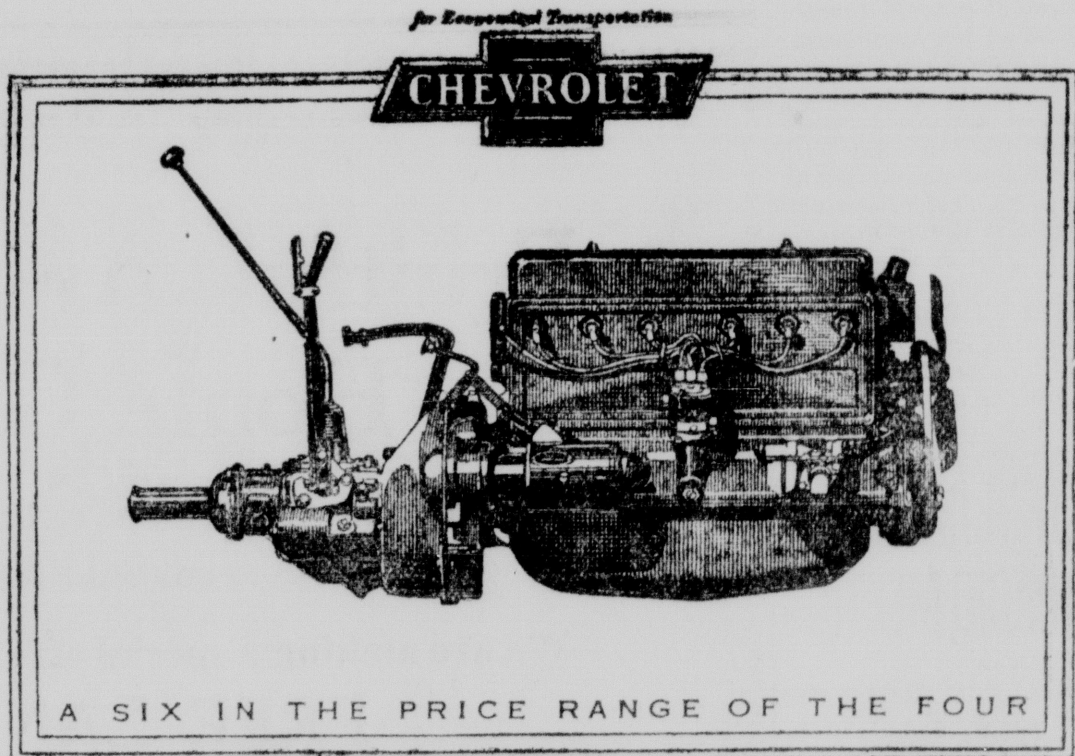

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher

In Use For Over 30 Years
The Kind You Have Always Bought

THE CENTAUR COMPANY, NEW YORK CITY.

Smoothness

Never Before Achieved in a Low-Priced Automobile

Of all the exceptional performance qualities resulting from the advanced design of the new Chevrolet Six, none is more impressive than its remarkably smooth operation.

Although the new six-cylinder motor develops 32% more power with correspondingly higher speed and faster acceleration . . . although it delivers better than twenty miles to the gallon of gasoline—

—its outstanding feature of performance is a degree of smoothness never before achieved in any low-priced automobile.

To achieve such remarkable performance in a car of such low price, Chevrolet spent years in development work. Over 100 different engines were designed, built and subjected to over a million miles of testing at the General Motors Proving Ground before the

present motor was adopted. The new power plant has many unusual features, such as the new acceleration pump, the new gasoline pump and filter, and the new automatic lubrication of the rocker arms.

The four-wheel brakes have been newly designed to assure positive, quiet action. Steering has been made easier. And the new Fisher bodies with their new lines, new colors, adjustable driver's seats and new appointments represent new heights of style, distinction, comfort and value.

We extend you a cordial invitation to see and drive the new Chevrolet Six. We believe it an experience that every motorist should have—and we want you to know how finely the new Chevrolet Six is built and how smoothly it performs!

The Roadster, \$525; The Phaeton, \$545; The Coach, \$595; The Coupe, \$595; The Sedan, \$675; The Sport Cabriolet, \$695; The Convertible Landau, \$725; Sedan Delivery, \$595; Light Delivery Chassis, \$400; 1 1/2 Ton Chassis, \$545; 1 1/2 Ton Chassis with Cab, \$650. All prices f. o. b. Flint, Mich.

PATRON SAINT OF SPORT

Benjamin Franklin, anniversary of whose birth occurs on January 17, is the patron saint of the American printing industry. He is famed as a legislator, literary man, inventor, diplomat and proponent of American independence. He excelled in all these endeavors, but his versatility did not stop with them.

This universal genius adds that of athlete to his long string of claims to fame. It is not a mere whimsy to claim Franklin as a patron saint of sport. Swimming was his favorite sport, and while history does not record that he ever swam the English channel or the Delaware river there is sufficient evidence that he was an expert.

Twenty-year-old Benjamin disported in the Thames in a fashion that should have been featured in the London gazettes of his time. In his immortal "Autobiography" he wrote:

"I stripped and leaped into the river and swam from near Chelsea to Blackfriars, performing on the way many feats of activity both upon and under the water that surprised and pleased those to whom they were novelties."

During that same visit to England, Franklin seriously considered remaining in Europe to open a swimming school or to travel from town to town giving exhibitions and lessons. That he didn't was only because of the depreciation of the Quaker merchant Denham.

The evidence seems clear enough that while Franklin's swimming was in a class with the professionals of his day his amateur standing is unclouded.

Now that Franklin's prowess as a swimmer is becoming generally known one may expect soon to see "Ben Franklin Swimming Clubs" take their place beside the multitude of book stores, printing establishments, organizations of printers, scientific and literary societies and other institutions and associations bearing the name of the illustrious colonial.

THE CHAINS OF SLAVERY

The desire of the individual to attract attention and to appear prosperous is the cause of more grief and sorrow, than perhaps any other reason. Living above one's means is a jealous taskmaster that demands days of drudgery, hours of worry, minutes of despair, gray hairs and new wrinkles and often shortens lives. Small compensation, indeed, is the momentary satisfaction that may be derived from putting on a show.

The old car was good enough and gave good service, until the neighbor bought a new model, in the new colors, with later lines. The clothes would last, without patching too for another season, but what would people say? How quickly the bank account can become depleted by numerous withdrawals.

Look around you, and you will find that those who are really prosperous, care little for the appearance of wealth that others sacrifice so much to obtain.

How easy it is, to become so deeply in debt that it becomes a constant struggle to keep the head above water. How easy it is, to put off laying the foundation for the savings account until tomorrow and how often it seems that tomorrow never arrives.

Why trade your certainty of success for a mess of pottage, when it is obvious that it is not necessary to cover the real thing with gaudy labels in order that its true worth be known? Get out of the rut! Start laying the foundation stones of that dream castle today. The first few stones are the heaviest, but, when your strength increases, you will find it easier and easier, as you find that you are nearer and nearer, to the goal you are trying to reach. Nothing is impossible to the man who says "I will."

GASOLINE MADNESS

Powerful stuff—gasoline. There is a kind of gasoline intoxication that changes the entire natures of some men. Sometimes it is found that even the mild-mannered man who loves his family, is kind to animals and is courteous to everybody, can't stand gasoline at all. As soon as he gets into an

automobile he isn't polite to anybody but a policeman.

On foot, he says "You first," or "Pardon me, sir, may I step ahead?" or "That's all right, old man, I'm in no hurry." But seated in a vehicle propelled by gasoline, he gets a megalomaniac's view of the value of time. He may not be going anywhere in particular but he wants to get there right away.

He watches for the smallest opening to jam ahead. If he is thwarted in the attempt, he glares at the fellow who gets in his way and perhaps hurls an insulting epithet. If there is an unavoidable delay of a moment, he bawls his horn and the aggregate efforts of the entire group of gasoline-intoxicated maniacs turns bedlam loose.

Filling the air with raucous mechanical howling, yawling and screeching is an attendant symptom of gasoline madness. Dashing ahead thru dense traffic and horning everybody out of the way is another. The manifestations vary with the age and temperament of the subject, but even in the mildest natures the tendency is toward crude manners, lack of all consideration and complete inhumanity.

A DOLLAR DOWN

Widespread attention has been attracted to the recent survey giving general approval to installment selling as economically sound when properly carried on. The conclusion arrived at has been referred to in the stock market as a bull argument. This may prove unfortunate because if there is anything consumer credit does not need it is incitement to splurge.

Those who made the survey do not ignore the dangers of high-pressure salesmanship, of over-persuading the consumer, or of unwise credit extension in the competitive drive for business. The fact is not dismissed that in installment selling responsibility of the buyer is given no such thorough investigation as is ordinarily exercised in producer and bank credits.

Intelligently handled the system is an important contribution to industrial progress, stabilizing output, increasing production, lowering costs and working for improved standards of living. The plan is abused, just as the cash and thirty-days credit plans were abused, but the abuses are gradually being eliminated.

The partial payment plan has demonstrated that most people are honest even to the extent of paying their bills and that here are not enough who buy beyond their incomes to make the system unprofitable for merchant and manufacturer.

However, the success of the system and the latest study of its workings should not prompt those who are financing this vast volume of credit to relax vigilance or neglect precautions which the very nature of the business demands.

AN AGE OF MAKE-BELIEVE

Where is the "land of make-believe?" On the stage, in the movies, childhood, good reading? Yes, in all of these, but not in them alone. This is the "Make-believe" age. Everything is mimicry, imitation, camouflage; all is artificial. Nothing is genuine but that it is copied.

Ancient Spanish architecture is being copied in new American homes even to the imitation of the cracked masonry and stone exposed by fallen stucco. And along fine boulevards one can see the new and modern homes of the rich with roofs of humble thatch and sagging eaves, not less picturesque though much sturdier and more permanent than their prototypes. Carpenters and masons with the guidance of architects are building the atmosphere of age in the modern home that this generation may enjoy all that is good in both antiquity and modernity.

Then there is the imitation in dress. Grandmothers are successfully adapting to themselves the wardrobes of their granddaughters and their granddaughters are affecting the modes of their brothers.

Factories here and abroad are producing "antiques" as fast as thousands of shops can sell them to curio-seekers and collectors. One now or

ders, instead of searches, for examples of early American furniture.

And who will gainsay that a good imitation and the right amount of imagination are equal to a genuine original?

A GOOD TOWN

Put a peg of prosperity into your community by staying with it. Always greet your neighbors with a grasp of confidence.

Criticize in the spirit of Godspeed. Say a good word if it hurts. Remember that those who insist on hanging themselves will do it if given enough rope.

Give your neighbor a right to an opinion as long as he keeps it to himself.

Discuss questions involving your better welfare instead of arguing with them.

Apply the Golden Rule regardless of consequences.

Back up your churches and relative affiliations. You will feel better and besides are setting a good example for the young people.

Give the young people plenty of pleasure.

Failures reflect on the entire town. See what you can do to keep your neighbor on top of the water. Don't let him drown.

Let's have more handshakes and arm in arm conferences with a good will patting. It adds to that day's events.

Let's break the shell and step out. The world is wondering what we are going to do next. Let's show 'em.

He is a rare man who knows a man he would be willing to marry if he were a woman.

Every normal woman knows which one she would snub first if she should become rich.

The cause of most illness is the fact that the stomach has no control of the brains.

If they work hard and save and mind their own business, they are probably "darned aliens."

Republics really are ungrateful. There's no statue of the cook who invented pumpkin pie.

Nothing makes a much-scooled wife as happy as to hear her superior husband make a mess of changing gears.

CONFEDERATE VETERAN DIES

A. Garrett, aged 85 years, 8 months and 26 days, died at his home near Watts Switch at 5:30 p. m. January 22, 1929.

Funeral services for the veteran were held at 2:30 the same day with interment in the Union Cemetery with Rev. Odell Jameson, pastor, conducting the services and Green Brothers of Cameron in charge of the funeral arrangements.

The veterans of the South are fast passing out, the thin lines of gallant soldiers answering the last muster but they have left for their fellows of the South a heritage of glory.

C. N. GREEN IN DALLAS FOR RADIO MEETING

MAJESTIC DEALERS HEAR OF MARVELOUS GROWTH OF NEW RADIO CORPORATION

C. N. Green last week returned from Dallas where he met with Majestic Radio dealers from over the state assembled there in Convention.

Mr. Green has made an exceptional record in the sale of Majestic Radio sets and never overlooks an opportunity to advance in the knowledge of his products.

The convention was held on Thursday, January 10th, at the Adolphus Hotel in Dallas. The morning session sent W. L. Cohn made the opening address, giving an outline of the growth of Grigsby-Grunow Co., Majestic manufacturers and also surveying the development of Majestic radio distribution in Texas by the Radio Equipment Company. He stated that Grigsby-Grunow Company would manufacture 1,503,000 Majestic sets during 1929 and that the Radio Equipment Company would distribute 30,000 of these sets in Texas during that time. H. C. Jackman, factory representative, made the second talk, his subject being "Through the Factory Eyes." He was followed by Chas. K. Cohn, our new director of sales and W. T. Blythe, recently appointed assistant sales manager. Linwood Griffin was next on the program, his topic being financing. E. E. Holland of the Southwest Contract Purchase Corporation further explained one phase of financing, the time payment plan. The last two talks of the morning were made by J. D. Sims of Chicago, representative of the General Outdoor Advertising Company and E. E. MacKeever of the Dallas Poster Advertising Co. They discussed billboard advertising.

The dealers were entertained at luncheon in Bambooland of the Adolphus Hotel.

The afternoon session opened with an address by E. G. Boughtin of Los Angeles. His subject was "The Human Side of

Business." Then came the most exciting part of the entire program, the showing of the new models. W. L. Cohn explained their new features.

In the evening the dealers were the guests of the Radio Equipment Company at a banquet in the Junior Ballroom of the Adolphus, they were entertained with fourteen acts of vaudeville.

Two new Majestic radio models were shown for the first time Thursday at the first annual Majestic Radio convention held at the Adolphus.

The exterior appearance of both the model 71 and the model 72 is radically different from that of the old models, embodying more graceful lines in radio furniture. The over-all appearance of the cabinet of the 72 is one of greater compactness, the receiver being about four inches lower than last year's model, about the same width but not as deep. The cabinet, of walnut and burl walnut, has a high polished finish. Doors are of diamond-matched, panel-type walnut, inlaid with imported marquetry.

Upon opening the doors, it is seen that the control arrangement is different from that of previous models. The speaker has been lowered from its previous position above the set, thus making its outlines harmonious with the general lines of the new cabinet and insuring quieter operation. The tuning controls, dial and speaker are mounted on a centered diamond-grained panel bordered on either side by burl walnut panels, with bird's-eye maple panel across the top.

The cabinet of the new 71 is of the low-body type. It is without doors and has a center panel of burl walnut on which are arranged the controls and speaker.

The mechanical improvements on both models are the same. A great increase of selectivity has been provided, according to the claims. Improvements on the speaker permit it to handle larger undistorted volume, with increased range of tone. The new model is said to cover a 75 percent greater range of sound frequencies.

Miss Eula Cooper, Branchville, Director of Art Appreciation.

Mrs. Fred Hodges, Yarrelton, Director of Choral Singing.

Another very fast double play is Direct-by-Mail Advertiser to Apathetic Prospect to Waste Basket.

If everything got lost as easily as a good pipe, everything would stay lost most of the time.

LEAGUE PLANS PROGRAM FOR SCHOOLS OF COUNTY

BASKETBALL TOURNAMENT AT ROCKDALE FOR BOYS ON FEBRUARY 8TH AND 9TH

A meeting of the Executive Committee of the Milam County Interscholastic League was held at the office of the County Superintendent, Saturday afternoon, January 19th, 1929 with the following members present: Supt. Lloyd Patterson, Milano, director of essay writing; Supt. C. R. Middleton, Sharp, director of arithmetic; L. V. Perkins, Cameron, director of athletics; Supt. Kathryn K. Robbins, Cameron, rural school director and superintendent; T. A. Fisher, Cameron, director general. It was decided that the County Meet should be held at Cameron Friday and Saturday, March 15th and 16th. Mrs. Fred Hodges of Yarrelton school was appointed director of choral singing. Director general was directed to confer with these newly appointed directors and assist them in choosing pictures and the songs to be used in the contest.

It was determined that the contest in choral singing would be held Friday night, March 15, in the auditorium of the Yoe High school. Full announcements concerning rules governing these contests will be mailed to all schools who are members of the league. February 8th and 9th was set as the date for the boys' basketball tournament and March 8th and 9th was set as the date for girls' basketball tournament. These tournaments will be held at Rockdale. The tennis meet will be held at Cameron, March 22nd and 23rd. Senior girls' playground ball was added to the list of athletic contests to be held at the time of the meet.

The directors are as follows:

Supt. T. A. Fisher, Cameron, Director General.

Supt. H. M. Roark, Thorndale, Director of Debate.

Supt. C. S. Miles, Rockdale, Director of Declamation.

Supt. R. C. Davis, Gause, Director of Spelling.

Supt. Lloyd Patterson, Milano, Director of Essay Writing.

L. V. Perkins, Cameron, Director of Athletics.

Miss Mary Puckett, Cameron, Director of Music Memory Contest.

Supt. Kathryn K. Robbins, Cameron, Director of Rural Schools.

Whitey Waker and Fred Nave in Irons Are Traveling West

Buffalo, N. Y., Jan. 23—Heavily guarded, William "Whitey" Walker and Fred Nave, wanted in the southwest for several murders and holdups, left Buffalo last night. Walker is being taken back to Colorado Springs, Colo., while Nave is on the way to Ada, Oklahoma.

They were shackled with leg irons and handcuffed. They were guarded by ten detectives, headed by Chief John G. Revelli of Buffalo.

Secrecy concerning the trip will be maintained until the pair are in jail.

Surrounded by plain clothesmen and securely gaged to each other, the prisoners were taken before the Justice Thomas H. Noonan in supreme court. The justice promptly approved the extradition papers.

THE STATE OF TEXAS

To the Sheriff or any Constable of Milam County, Greeting—

You are hereby commanded to summon Osie Phoenix by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Milam County, to be holden at the court house thereof in Cameron, on the 4th day of March 1929, the same being the 1st Monday in March 1929, then and there to answer a petition filed in said court on the 13th day of November 1928, in a suit, numbered on the docket of said court No. 10104, wherein Leon Phoenix is plaintiff and Osie Phoenix, is defendant said petition alleging:

Statutory ground three years abandonment.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this 17th day of January A. D. 1929.

Penn Wolf, Clerk,
40-4 Dist. Court, Milam Co., Texas

Mrs. Lillian Sneed of Georgetown and Joe Sneed of Amarillo were Monday guests of Mr. and Mrs. Dan Tyson and Mrs. Julia Tyson.

Local and Personal

Recent guests of Mrs. John A. Smith were Mrs. W. T. Jones of Hillsboro, Colonel and Mrs. B. J. Delameter of Caldwell, Major B. F. Delameter of San Antonio and Mr. and Mrs. John Fraim of Sherman.

Miss Rose Rischar, president of St. Rita's Circle of St. Monica's church, has cancelled all meetings of the organization for the present because of so much illness among the membership of the church.

Among those from Cameron attending the funeral services of Mr. W. H. Dukes at Milano Sunday were Mr. and Mrs. Ray Burke, Mr. and Mrs. Martin Kilian, Mrs. Penn Wolfe, Mrs. Bob Brown, Mrs. J. B. White, Mr. and Mrs. W. O. Newton, Misses Lorene Wade, Doris Adams and Bonnelle Neinst, Mr. M. M. Johnson, Mr. and Mrs. Wallace Moody and Mr. and Mrs. W. E. Kuehl.

Out of town relatives attending the funeral services of Mrs. Victoria Chaffin Monday were Mr. and Mrs. A. W. Waller of Mexia, Mr. and Mrs. Henderson of Belton, Mrs. Sharpe of Belton, Mrs. J. M. Wadlington of Mexia, and Mrs. R. H. McFarland of Austin.

Mrs. W. A. Denson and her daughter, Miss Margaret Denson of Chilton are expected to arrive Thursday to spend the week end with Mr. and Mrs. Joe Denson.

Miss Rosine Ledbetter was married to Mr. Chaddick in San Antonio on December 22. The marriage came as a surprise to friends and relatives. Mrs. Chaddick taught for a number of years in the Cameron schools and she has numbers of friends here. She and Mr. Chaddick are at home at 1501 Ostrom Drive, San Antonio.

Lane Denson of Temple spent last week in Cameron on business and visiting his parents, Dr. and Mrs. John Denson.

Mrs. M. G. Cox, Mrs. John A. Smith and Mrs. Smith's guest, Miss Janice Jones of Hillsboro, spent Monday in Rockdale.

Miss Cornelia Esslinger, who attends school at San Marcos, is at her home in Cameron suffering from an attack of influenza.

Miss Mary Belle Batte of Southwestern University, Georgetown, spent last week end in Cameron with her parents, Mr. and Mrs. R. L. Batte, Sr.

Mr. and Mrs. Frank Heintz celebrated their twenty-fifth anniversary at Belmena. Those present were Mr. Heintz' brother of Waco, Fred John of Burlington, A. C. Rosechetsky of Hanover and some friends from Cameron.

Mrs. M. A. White of Milano was the guest of Mrs. Jewel Barmore last week.

H. C. Jones arrived Saturday to be with his wife and baby, who have been guests of Mr. and Mrs. W. I. Clark for several weeks. They left Sunday for their home in Bellville, Mrs. Jones and the baby going by way of Rockdale, where they will visit for a week with her mother.

CORN FOR SALE—About 350 bushels on my farm near Tracy. See Mrs. Ida Jenness, Cameron, Texas, for particulars.

FOR SALE—Jersey milk cow, is young and a splendid milker. Apply at this office. 40-11

Mr. and Mrs. Watt Skinner and Mr. and Mrs. Robert McElroy of Rogers were Sunday guests of Mr. and Mrs. Joe Denson and Mr. Shade Denson.

Weldon Burnett of A. & M. College spent last week end in Cameron.

Ray Mayfield, who entered Baylor University at the beginning of the winter term, visited his parents, Mr. and Mrs. John Mayfield, last week end.

Joe Lloyd Mitchell, son of Mr. and Mrs. Lloyd Mitchell, was painfully cut about the face last Saturday, when he was the victim of an automobile accident which occurred on the Country Club road. He was taken to the Cameron Hospital, where several stitches were taken to close the cuts. Latest reports are that he is suffering no ill effects.

I have quite a lot of stock pen fertilizer for sale at 50c per ton. For particulars see the Oil Mill. R. L. BATTE.

Friends of Mr. and Mrs. B. E. McMillan will be glad to know that they have moved back to Cameron and are living temporarily at the Lankford Hotel. Mr. McMillan is ticket agent at the Southern Pacific depot.

Miss Iva Wilson has been elected to teach in the Milano school, filling the vacancy made when Miss Loring Beard resigned following an automobile accident a few weeks ago.

J. O. Hughes, teacher at Nolanville, spent last week end in Cameron with his family.

Miss Cornelia Gunn, student at Baylor College, Belton, spent last week end with her parents, Mr. and Mrs. D. B. Gunn.

Judge Jeff T. Kemp was in Austin Tuesday on business.

I have quite a lot of stock pen fertilizer for sale at 50c per ton. For particulars see the Oil Mill. R. L. BATTE.

Mr. and Mrs. W. B. Levy spent Sunday in Waco, the guests of Mr. Levy's sister, Mrs. Goldberg.

Mr. and Mrs. Watt Skinner of Rogers were dinner guests of Mr. and Mrs. W. B. Levy Monday evening.

Miss Beth Jeter has been ill at her home with an attack of influenza.

Mr. and Mrs. Ernest Howard and son have moved back to Cameron from Navasota, where they moved several months ago. They are with Mrs. Howard's mother, Mrs. Brewer, for the present. Mr. Howard was employed by Pierce and Bradbury before he moved to Navasota to accept a position with the Pierce store here.

Mrs. G. W. McClendon of Vernon arrived Monday night to be with her father, Henry Rooves, who is quite ill.

I have quite a lot of stock pen fertilizer for sale at 50c per ton. For particulars see the Oil Mill. R. L. BATTE.

R. G. Grabein went to Dallas the first of this week to get some new Fords for Hubert Hefley Motor Company.

Mrs. S. Kestenbaum spent several days in Marlin the first part of this week.

Judge Jeff Kemp has spent several days in Austin this week in connection with the work of the legislative good roads committee.

Mr. and Mrs. Conn Miller visited in Temple and Pendleton Tuesday.

Miss Louise McClendon of Ben Arnold, who is a student at Baylor College, Belton, spent last week end at her home.

Mr. and Mrs. Albert Triggs of Mincola are visiting friends and relatives in Cameron this week.

Mrs. D. B. Gunn of Ben Arnold was the guest of her son, Dan Gunn and his family.

Lyons McCall, teacher of physical education in the Sidney Lanier school, San Antonio, visited his mother, Mrs. W. M. McCall last week end.

Miss Florene Hobson, student at Baylor University, Waco, visited her parents in Cameron last week end.

Robert Edwards, who died in Waco last week and whose funeral notice appears in another part of this paper, was a cousin by marriage of Mrs. E. B. Lovick of this city. Mr. Edwards collapsed on a street in Waco and died about two hours later from paralysis of the brain.

News comes that Miss Nelta Sloan of Cameron, who teaches in Waco, has been very ill with influenza and complications.

HOYTE CLUB

The Hoyte Club girls met last Thursday January 17 at one o'clock to elect new officers for the year. The following were elected: President, Miss Minnie Macek; Vice-president, Miss Annie Bell Woodum; Secretary, Miss Evelyn Pressley; Reporter, Miss Inez Lake. Miss Bartholomew explained to the club the work for the year. We then adjourned.

CAMERON, TEXAS

In The Realm of Sports

The wrestling fans of the nation are all agog over the new champion, Gus Sonnenburg. He is a college man and won the right to be called the boss of all matmen by his victory last week over Ed "Strangler" Lewis. Lewis had his deadly headlock on Gus several times but each time he was unable to hold it and by means of a flying tackle, Sonnenburg won the match. He has been recently signed by a sports promoter but it is not known yet who his opponent will be.

Since "Tex" Rickard's death, speculation is rife over the possibility of Jack Dempsey's return to the ring. Many who claim to be on the inside say that the boxing fans will never see Dempsey in the ring again as a title contender. The Manassas Mauler was truly a colorful character in his time and it will be many a long day before the likes of him will be seen again. Even the glory that so rightfully belonged to John L. Sullivan was dimmed by this fighter.

Rickard was a believer in the prowess of Dempsey more than anyone else. He admits that he told Dempsey to hold back a little on the night that he lost his crown, in order to give the customers their money's worth. "Tex" also believed that he could persuade Dempsey back into the ring and many believe that had he lived, this would have been the case. The only hitch in the program would have been to find somebody capable of giving Dempsey a good fight, in other words could anyone give the cash customers their money's worth.

Within recent years in the big cities, local basketball leagues have sprung up until today the games played in these circuits hold as much interest as most college games. Industrial concerns, organizations and churches have teams and these teams play regular schedules. The attendance at these games is very good and no doubt much interest in the sport is created that otherwise would not be the case.

Cameron has many good court players who are anxious to play but no court is suitable at the present time. One of the best things that could happen to this town would be for someone to interest the business men in building a good gymnasium with a good court, then organize a basketball league. Teams could be formed from the various fraternal organizations as well as the churches and Sunday schools. In this manner, the project would have the support of these bodies.

In this day when petting and cocktail shaking are the favorite indoor sports, the organization of such a project would put a stop to most of this and give the young bucks an opportunity to spend their spare time in a really profitable manner. This is merely a suggestion and anyone who wants to follow it up will be sure to have the cooperation of those who should be interested.

Miller Huggins, the diminutive manager of the champion New York Yanks, believes in an early start. Some of his proteges believe the same thing. Herb Pennock, star southpaw twirler of this bunch has asked to be allowed to report at St. Petersburg, Fla., early so that he will be able to me in the right trim by the time regular training time starts. Babe Ruth is in a Gotham gymnasium keeping down to 230 pounds while Wiley Moore is keeping his arm in trim by shying corn cobs at the birds in Oklahoma. It will go hard for the other boys in the league when this aggregation of hard hitters get together. If it isn't Ruth, it's Gehrig and the opposing pitchers don't know which is the worse of the two to say nothing of the others.

Just about this time of year the Hot Stove league is in full blast and all sorts of rumors are floating around. Some say the Yanks won't have a chance while others come back and ask, "Who else can beat them?" The St. Louis Browns have done it and the Athletics did it too, but, and it is a big "but," the Yanks stayed at the top of the column most of the year and then when everybody was predicting their fall in the World Series, they up and handed the Cardinals a licking that they shall never forget.

Then again the monotony of win-

ning games may have gotten on the nerves of Huggis' gang and they may drop more games than they should. New material may be lacking in spite of what Colonel Ruppert has done and then towards the last of the season, something is going to crack. This was predicted last year and it came near to the truth and it was just by the skin of their teeth that they pulled through.

The National League is going to show some real stuff this year and some of the liveliest battles of the diamond will be seen by the fans. It is going to be anybody's fight with the Chicago Cubs having the edge on the rest of the boys at this time.

T. C. U. athletic officials have had many applications for the job of coach to fill Matty Bell's shoes, and incidentally it is going to be mighty hard to fill those shoes. Bo McMillan of Center College fame has been seriously considered but it is going to be difficult for him to break away from his present contract at Kansas A. & M. Bell left a niche that will be hard to fill because he was universally respected and his ability as a coach could not be doubted. He is a young man and most of his career is before him and great things are predicted for him.

Essex Challenger Has New Improved Style Four Wheel Brakes

Full floating, self aligning, two shoe four wheel brakes provide two-way braking efficiency on new Essex Challenger.

The brake shoes float in position and present the full surface of the lining at the instant of brake application.

With this design of floating shoe it is impossible for the brakes to drag. This improvement will increase the service life of the brake and furnish a trouble free braking system. Ordinary brakes have from 30 per cent to 50 per cent efficiency upon application when the car is reversing. The Essex Challenger full floating brake shoes provide 100 per cent efficiency either forward or back.

These shoes are lined with a pressure molded lining. This lining is impervious to water and oil, providing full brake pressure power under all weather conditions. Tests conducted showed that service wear did not detract from their efficiency because the lining is identical in texture throughout.

The whole braking system is an example of simplified design typical in the new Essex. A single adjustment easily made without tools is provided to compensate for wear. This is the only adjustment necessary to maintain the full effectiveness of the braking system.

"Whitey" Walker For Texas Courts Governor Moody Wires New York

Austin, Jan. 19.—Governor Dan Moody today requisitioned the governor of New York for delivery of "Whitey" Walker, under arrest in Buffalo, and wanted in Texas for murder. Governor Moody assured the New York governor in a telegram that

"if we can not convict Walker we'll turn him over to someone who can." Captain Frank Hammer of the Texas Rangers said today he is confident "we can send him to the chair," referring to Walker.

MAYSEIELD 4-H CLUB

The 4-H Club met at the school house, January 11, 1929 with the following members present: Opal Allen, Ada Lee Massengale, Nell and Artie Mae Red, Jo and Bernice Baylor, Ruby Nicholson, Mary Alice Phipps, Willie and Myrtle Holloway, Mary

Paterson, Velma Waits, Mildred and Grace Thweatt.

Miss Bartholomew awarded the girls who had finished their work a pin and certificate each. The following girls received awards: Grace Thweatt, Willie and Myrtle Holloway, Mary Alice Phipps.

Miss Bartholomew told us what to bring to work on our next meeting. There were two new members received and one visitor at the meeting.

The election of new officers was as follows:

President, Grace Thweatt.
Vice-President, Nell Red.

Song Leader, Ada Lee Massengale.

Yell Leader, Jo Baylor.

Some of the girls handed in a picture of their bed room work. We adjourned to meet again at the school house on Friday, January 25th.

MRS. EDNA W. TRIGG

College Station, Texas, Jan. 15.—Back in 1912, the year that the woman's phase of agricultural Extension work was formally recognized by the United States Department of Agriculture, some of the first county home demonstration agents in Texas gathered at Waco for a conference. This group, shown in the accompanying illustration, was made up of workers assigned to West Texas points. Among them was Mrs. Edna W. Trigg, at present home demonstration agent in Denton County, who today holds the palm for the longest period of service as home demonstration agent in Texas, having been in the service for 16 consecutive years. At the time of the Waco conference, Mrs. Trigg had just begun work in Milam County. She later served in Childress County and since 1916 has been stationed in Denton County.

In the front row in the group picture, left to right, are shown C. M. Evans and H. H. Williamson. Mr. Williamson at the time represented the A. & M. College of Texas Extension Service in cooperating with the Cooperative Farm Demonstration Work among boys' and girls club work in West Texas. He is now vice director and state agent of the Extension Service, stationed at College Station. Mr. Evans, then superintendent of the A. & M. Extension Service, is at present agricultural agent of the Texas Pacific Railroad. Mrs. Trigg is shown in the group seated in high-backed chair. Standing at the left in the rear row of the group is O. H. Benson who at the time was assistant to O. B. Martin, then representing the U. S. Department of Agriculture in developing farm girls' clubs in the South. Mr.

Martin is now director of the Extension Service at A. & M.

Many interesting stories of the early phases of home demonstration work development doubtlessly will be recounted by pioneers in the work during the Twenty-fifth Anniversary celebration of agricultural Extension work in the United States to be held in conjunction with the annual meeting of the Southern Agricultural Worker's Association at Houston February 4-8. Home demonstration work in 1912 was limited to instruction of farm girls in poultry and canning. Today there are 100 county home demonstration agents in Texas working with 18,000 farm women and 16,000 farm girls in a well rounded program including virtually every phase of home making.

ness meeting was held first with the president, Mrs. John Green, in charge. A report was heard from the committee appointed to secure shrubbery for beautifying the church grounds, a project which has been undertaken by the

ladies. The plans for the presbyterial which will be held here in the spring were also discussed.

January has been the foreign mission month in the Auxiliary and a book on foreign missions has been stu-

died at each meeting. This will be completed next Monday.

Mr. and Mrs. Wm. Gary of San Marcos are the guests of Mrs. Gary's parents, Mr. and Mrs. A. W. Esslinger.

Mortuary

JIM PRICE

Jim Price, two-year old son of Mr. and Mrs. Jess Price of Ben Arnold, died suddenly Sunday afternoon at six o'clock. He was playing in his father's lap and fell dead. Funeral services were held Monday afternoon at North Elm church, Rev. P. T. Ramsey officiating. Interment was in the cemetery at North Elm, with Coleman-Eplen in charge.

SAM NICHOLSON

Sam Nicholson, age 79 years, died at his home at Hoyte Friday morning at 11:45 o'clock. Funeral services were held at the home Saturday afternoon at 3:00 o'clock, with Rev. J. D. Potts of Austin officiating. Interment was in Rice cemetery, Coleman-Eplen in charge. Pall bearers were Judge John Watson, Judge Jeff Harold Pressley and Mr. Haygood.

Mr. Nicholson was born in Council Bluffs, Iowa in July, 1849. He came to Texas about fifty years ago, and after coming here was married to Miss Nancy Lowry, who was a native of Alabama. They were married 44 years ago. Mr. Nicholson was a member of the Presbyterian church at Hoyte. He was a charter member of the Odd Fellow's Lodge at Milano but the chapter was disbanded several years ago and Mr. Nicholson never did transfer his membership anywhere else.

He is survived by his wife and 7 children: Sam and John Nicholson of Houston, Jack Nicholson of Burlington, Mrs. John Atkinson of Ft. Worth, Misses Emily and Sophia Nicholson of San Antonio and Mrs. H. L. Gunn of Pharr. All these were present for the funeral services.

MRS ANNA DARKENEYER

Mrs. Anna Darkeneyer, 75 years old, died on January 16 at 6:30 o'clock in the evening at her home near Ben Arnold. A dual funeral service was held on January 17 by Rev. Kalkbrenner, the first part of which was conducted in German at Vogelsang's church and the second part in English at the church at Walker's Creek. Interment was in Walker's Creek cemetery with Green Brothers in charge. Pall bearers were Charles Hightower, Dewey Hightower, Theodore Henderson, E. Roessler, Lonnie Emillange and Mr. Birkledach.

Mrs. Darkeneyer is survived by 3 children: Henry Darkeneyer, Mrs. O. Lucko and Mrs. Bennie Juergenes. Her husband died several years ago. She had lived in Milam county for about forty years.

R. B. EDWARDS

R. B. Edwards died at his home in Waco at 6:30 o'clock in the evening, January 16. He was 38 years old. Funeral services were held at Minerva at the home of his mother, Mrs. S. T. Edwards, at 2:30 o'clock January 18. Interment in the cemetery at Minerva, Green Brothers conducting.

Mr. Edwards is survived by his wife two children his mother, three brothers, and three sisters. He was born and reared in Minerva.

MRS. VICTORIA CHAFIN

Mrs. Victoria Chafin, age 70 years was fatally burned at her home on N. Travis Street Sunday afternoon at about five o'clock. She was taken to the Cameron Hospital where she died at 9:30 that evening.

According to a report from neigh-

bors, Mrs. Chafin's daughter who lives next door to her, went to see about her mother just before the tragedy occurred and replenished the fire in the small heater. The next that was known, Mrs. Chafin appeared on the front, calling for help. It is supposed that she walked too near the open front of the stove and her clothing was ignited. Neighbors rushed to her and smothered the flames, but her body was badly burned and it is understood that she swallowed some of the flames.

Burial was at Rice cemetery Monday afternoon at three o'clock with Rev. H. G. Kenney of the Presbyterian church officiating. Pall bearers were Bill Storey, Jim Adams, Lester Slaughter, Isaac Duncum, Fred Shoaf and Emil Henderson of Belton.

Mrs. Chafin was born in Upshur County, Texas. She was married 46 years ago, her husband having been dead for about 25 years. She has lived in Cameron for about 18 years. She was a member of the First Baptist church, having professed faith when she was a girl. There has been a Christian life. When she was told that her burns would prove fatal, she said that she was prepared to die.

She is survived by three daughters, Mrs. Pat Gill of Cameron, Mrs. G. W. Ray of Ballinger and Mrs. R. H. McFarland of Austin.

W. H. DUKES

W. H. Dukes, father of Mrs. E. B. Lovick of Cameron, with whom he had made his home for the past month, died suddenly Saturday at twelve o'clock. Mr. Dukes had apparently recovered from a recent attack of influenza and had gone to town. He was leaving the court house when he was stricken and he died immediately.

Funeral services were held at the home of Mrs. Lovick Sunday afternoon at three o'clock. Interment was in the cemetery at Milano with Rev. L. O. Bryerly of Rockdale, pastor of the Christian church, officiating. Funeral arrangements were in charge of Coleman-Eplen. Pall bearers were Ralph Robinson, Oran Robinson, Bennie Archer, Fred Johnson, Jim Lanning and W. E. Kuehl.

Mr. Dukes was born in Georgia on December 14, 1849. He was married in 1869, shortly after which he came to Milam county where he lived to the time of his death. His wife died exactly one month and four days previous to him. Before her death Mr. and Mrs. Dukes lived in Milano, where they operated a hotel, but after her death he came to Cameron to make his home with his daughter. He is survived by two children, Mrs. E. B. Lovick of Cameron and L. B. Dukes of Milano.

Out of town relatives present at the funeral were Mrs. Mary Goodson of Houston, a sister; Mrs. Ed Crenshaw of Bryan, a niece; Mrs. James Lanning of Rockdale, a niece; and Mr. and Mrs. Charles Miller of Houston.

THEO JANICEK

Theo Janicek, age 17 years, died at his home in Clarkson at 7:30 o'clock in the morning, January 11. He died from an attack of pneumonia following influenza.

Funeral services were held on January 12 at the Burlington Catholic church, Rev. J. T. Marearty officiating. Interment was in the Catholic cemetery at Burlington at two o'clock January 12.

Pall bearers were Robert Edwards, Jim Hank, Howard Schwarting, Roy Douglas, Durelle Mitchell, John Gar-

rett, Henry Garrett and Charles Freimel.

Sadness was brought to the hearts of his many friends by the news of the death of Theo. He was a pupil of the Clarkson school and was quite active in all the school affairs. He is survived by his parents, Mr. and Mrs. Frank Janicek; two brothers, Lawrence and Hubert; and two sisters, Laura and Marcella.

People from Cameron attending the funeral services were Mr. and Mrs. Steve Marak and family, Mr. and Mrs. J. L. Hrosek, Mrs. A. V. Wokaty, Mr. and Mrs. Leo V. Stecker. From Temple were Mr. and Mrs. J. J. Kohut and from Marak, Mr. and Mrs. Joe Janicek.

CARD OF THANKS

We take this method of extending our sincere and heartfelt thanks to our friends and neighbors who during the days of illness and death of our beloved wife and daughter, Mrs. Kirby Boles, came to us with words of comfort and deeds of kindness. While our sorrow and grief are sometimes more than we can bear, we cherish the words of consolation spoken by our friends and neighbors for they help us to see through the shadows. To those who gave floral tributes in expression of their grief and sympathy we extend our sincere thanks, and to all who assisted us in any way we are deeply grateful, remembering always in our hearts your many expressions of cheerfulness and help. We speak for one who now cannot speak for herself but whose heart would have been touched as ours have been warmed by these expressions of love and sympathy.

Kirby Boles
Mrs. Laura Williamson
and children.

The members of the senior B. Y. P. U. of the Baptist church presented the play, "Farmer Brown's Conversion to Stewardship" to an audience at the Baptist church at Burlington Sunday afternoon. Special numbers between acts were rendered by Nathan McGehee playing a cornet solo and Miss Willie Day giving a pianologue.

Firestone

is the Toughest Tire in the World

Toughness — Durability — Long Mileage — Safety! This is what you want in tires. The best non-skid tread ever put on a tire grips the slippery roads that you have to travel at this time of the year. Winter or summer—Firestone Gum-Dipped Tires give the greatest mileage, the greatest safety. Gum-Dipping—an extra patent process—is another reason why Firestone Tires give most miles per dollar. Drive around and let us put your car on a "safe footing" today.

Listen in on your radio every Monday night from 7:00 to 7:30 P. M. "The Voice of Firestone."

On Houston, San Antonio and Dallas Stations

Horstmann Brothers

Tire Store - - - Cameron

Trade Briefs

Two dozen oranges for 27c brought an unusual number of customers to the J. T. Parma store on last Saturday for these Sunkist specials. Mr. Parma reports the biggest day in years, having sold 16 boxes of oranges and 400 loaves of bread. He had a special price on bread. Mr. Parma has demonstrated the value of advertising and is a consistent user of the printed price for his store.

Judd G. Davis of the Milam County Hardware Company is in Dallas this week to attend the state convention of hardware dealers of Texas. Mr. Davis never fails to attend the convention and keeps abreast of the times in his business. The hardware store at this time is pushing the new Perfection refrigerator that operates for 2c per day, burning kerosene oil.

R. G. Grabein, sales manager for the Hubert Hefley Motor Company returned from Houston where he brought back with other drivers five new Ford automobiles. The Ford assembly plant at Houston is working capacity time and turning out the new cars at a rapid rate. The local dealers are making immediate deliveries of the new cars.

Joe Casey has accepted a position with the Hubert Hefley Motor Company as a salesman. Mr. Casey was formerly with the Hubert Hefley Company but for the past two years has been with the Coleman Chevrolet Company. Mr. Casey is an efficient salesman and has many friends who will be interested in this announcement.

Horstmann Brothers have only one of the new Essex cars left out of the car shipment. "The new Essex has made a profound impression here as well as over the nation," said Bismark Horstmann. While at this time it is difficult to get cars in sufficient numbers to supply the demand the factory will soon be able to put out cars in the required ration.

The Ham House is advertising in The Herald this week some very attractive prices on groceries. Bob McLane as an ad writer has for a number of years attracted wide attention. The big store believes in advertising and always has something interesting to offer the people.

"All Gone" Feeling
Left After Taking
Black-Draught.

Mrs. I. Brakefield, of Calhoun, S. C., says:
"I would feel tired and have a bad taste in my mouth. I would be dizzy, and every little while I felt like I must sit down."

"Someone recommended Black-Draught to me and said it might help me. I took a few doses and it did help me wonderfully."

"I now use it when I have that tired 'all gone' feeling, and it is simply fine. I can recommend Black-Draught, and do so all the time."

Get a package of Black-Draught, today, and try it.

Theford's

BLACK-DRAUGHT

For Constipation, Indigestion,
Biliousness

The new Chevrolet Six has found universal approval here among car owners. The Coleman Chevrolet Company has received their first car load shipment and these cars have all been sold. Mike Coleman, manager of the company, has a large number of orders booked for the new six. Dero Jenkins, sales manager for the company is a busy man these days demonstrating the new car and filling orders for them.

Chas. Zidell of the New St. Louis Store reports a good business. He has placed on sale his entire stock for January and is offering some exceptional bargains. He is a firm believer in advertising and is making the store popular with the buying public.

R. H. McIntosh who has been ill is back at his post of duty with the Cheeves Brothers Store. His many friends will be pleased to note that he has recovered. Mr. McIntosh has figured prominently in the promotion of the milk plant for Cameron. The section dedicated to the opening of the plant on February 1 carries a sketch of Mr. McIntosh whose influence will be a big factor in the success of the plant.

J. R. Hays now with the Max Collins store has made a good record in the dry goods business. Mr. Hays spent a number of years as an advertising man on many Texas newspapers including The Herald. In this issue will be found an interesting advertisement of the closing out of the dry goods and clothing department of the Max Collins business, offering some exceptional bargains.

The Cone Implement Company has the largest display of farm implements ever assembled here for the International Harvester Company. Included in this display are a number of tractors and special machinery for the farm. Mr. Cone is a hard worker and his store presents an attractive appearance.

The New Cameron Drug Company is concluding an invoice this week of the big stock. Manager Joe Denson, has been ill as has been a large number of the employees of the store but are all back at their posts of duty now and the business is going forward with the accustomed personnel.

A. E. Schiller of the Schiller Motor Company expects the arrival here within a few days of the New Pontiac Six cars. This car placed on display at the New York automobile show on January 5 made a profound impression in the world of motors. The new car is much improved and the price is very low considering the value of the car. An interesting announcement ad will be found in this issue of The Herald.

The Bonds Service Station is having the pumps changed this week and in the future will sell Humble gasoline and oils. When the improvements are completed the station will have six pumps, making it one of the largest and best equipped stations in Central Texas. R. J. Long who was former local agent for the Penant products is now with the Humble Company.

Albert Triggs, Jr., has sold his filling station interests to Carl Fikes, who has assumed control of the business. Mr. Triggs will leave Cameron in a few days for Mineola where he will engage in business. Mr. Fikes is a young man and son of Mr. and Mrs. D. Fikes of the Bluebonnet Cafe. The station sells Texaco products.

Louis F. Gohmert is ill at his home

this week. He had just returned home from the markets when he was taken ill with flu. He expects to be up and at his place of business in a few days.

The Postal Telegraph Company has been moved from Johnnie's place to the building occupied by the Keith Electric Company. Mr. Williams from Temple will be the local manager for the company. He is expected to arrive here this week.

CARD OF THANKS

We wish to thank our friends for the many acts of kindness and floral gifts during the recent illness and death of our beloved husband and father, Mr. Sam Nicholson, Sr.

Especially do we wish to thank Rev. Potts of Austin and the quartette of Cameron for their services.

Mrs. Sam Nicholson
and family.

THE STATE OF TEXAS

To the Sheriff or any Constable of Milam County, Greeting—

You are hereby commanded to summon Osie Phoenix by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Milam County, to be held at the court house thereof in Cameron, on the 4th day of March 1929, the same being the 1st Monday in March 1929, then and there to answer a petition filed in said court on the 12th day of November 1928, in a suit, numbered on the docket of said court No. 10104, wherein Leon Phoenix is plaintiff and Osie Phoenix, is defendant said petition alleging:

Statutory ground three years abandonment.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this 17th day of January A. D. 1929.

Penn Wolf, Clerk,
40-4 Dist. Court, Milam Co., Texas

Would You Attend a Business College

Realizing that a great number of young people are deprived of an opportunity of attending a business college because of the lack of money, our STUDENT LOAN FUND ASSOCIATION was created for the express purpose of furnishing the necessary help to worthy boys and girls.

We have selected the Tyler Commercial College of Tyler, Texas as the college we can most consistently recommend. This is one of the oldest business schools as well as one of the most widely known for its thorough work and its successful graduates out in the world of business.

We have made arrangements with the Tyler Commercial College by means of which we can take care of a limited number of young people thru our loan fund.

If you are in good standing in your community and can furnish the best of references, we shall be glad to help you. We have helped a number of deserving young people in the past who are now independent wage earners and enthusiastic boosters for our Association.

We are especially interested in helping young men and young women who have been forced on account of financial reasons to drop out of high school or college.

In order to receive help from this Association it is only necessary to clip the coupon attached and mail it to us or to the Tyler Commercial College. We can then work out a plan whereby you will be enabled to enter the College even though your funds are limited.

Clip out the coupon and mail it to: lege, Tyler, Texas, or to

SHERIFF'S SALE

The State of Texas,
County of Milam,

Whereas, on the 16th day of November A. D., 1928, in a certain cause numbered 1001 on the docket of the District Court of said county, wherein the State of Texas is plaintiff and Henry F. Lippman, Bertha Lynch and Eunice Dill are defendants, the said plaintiff recovered judgment in the amount of Two Hundred thirty-five and 88-100 dollars for taxes, and legal amount penalties, costs and interests computed thereon, together with the foreclosure of plaintiff's delinquent tax liens upon the property herein-after described as the property of the defendants, because of non-payment of the taxes due thereon;

And whereas, on the 4th day of January, A. D. 1929, by virtue of the said judgment and the mandates thereof, the Clerk of the District court of said county did cause to be issued

an Order of Sale, commanding me as Sheriff of said County to seize, levy upon and sell in the manner and form as required by law the hereinafter described property as the property of the above defendants, to satisfy the said judgment.

Wherefore, by virtue of the said Order of Sale and the mandate thereof, I did on the 5th day of January A. D. 1929, seize and levy upon as the property of the above defendant, the following property, to-wit:

98 1-2 acres of land on the David Gallagher League in Milam County Texas, and beginning at the N. W. corner of the Common 50 acre tract, same being the N. E. corner of the Vernon Russell 150 acre tract for the N. E. corner, of this; thence with the N. line of the 150 acre tract S 60 W. 781 vrs; to a rock for N. W. corner from which a P O brs S. 45 E. 18 vrs; thence S. 45 E. 738 vrs to P O for cor; thence S. 80 E. 124 vrs to sk in edge of gully for cor; thence N. 77 E. 300 vrs to a large post for cor; thence N. 45 E. 125 vrs to cor in the west line of the William Weisland. thence N. 30 W. 130 vrs to N. W. cor of said Weise tract; thence N. 60 E. 68 vrs to a stake for cor; thence N. 30 W. 781 vrs to the place of beginning.

And I will on the first Tuesday in the month of February A. D., 1929, the same being the 5th day of said month, proceed to sell said property

IT'S DANGEROUS GROUND

you stand on—with a cough, a cold or grippie, and your blood impoverished. You must do something! Dr. Pierce's Golden Medical Discovery enriches the blood—builds health and strength.

Mrs. Beatrice Morrison of 4318 Terry St., Dallas, Texas, remarked: "Dr. Pierce's Golden Medical Discovery is a splendid family medicine and one that I generally keep in the house. I always give it to my children for coughs and colds. My little girl has been especially benefited by taking this medicine. Diphtheria left her with bronchial weakness and she got rundown, thin and puny. I gave her the 'Golden Medical Discovery' and it built her up in health."

All druggists. Tablets or fluid.
Send Dr. Pierce, Buffalo, N. Y., 10c if you desire a trial pkg. of tablets. Write for free medical advice.

Baby portraits are our specialty

Lesson for January 27

THE HOLY SPIRIT

LESSON TEXT—John 16:7-11; Romans 8:12-17, 26, 27.
GOLDEN TEXT—For as many as are led by the Spirit of God, these are sons of God.

PRIMARY TOPIC—Our Unseen Helper.
JUNIOR TOPIC—Our Unseen Helper.
INTERMEDIATE AND SENIOR TOPIC—How the Holy Spirit Helps Us.
YOUNG PEOPLE AND ADULT TOPIC—The Work of the Holy Spirit.

I. The Personality of the Spirit (John 16:7, 8).

Personality is here implied by the use of the personal pronoun. In the original Scriptures personal pronouns are used uniformly in speaking of the Spirit. Then, too, He is called the Comforter. The word "comforter" literally means one called to stand by the side of another as a helper, counsellor and guide. While Jesus sojournd in the world He was such to His disciples. He assured them that upon His withdrawal the Holy Spirit would take His place as friend, helper and counsellor. The personality of the Spirit is also proved by the fact that He performs acts only possible to persons. In John 14:26 He performs the function of a teacher. He not only teaches, but He speaks as a person, giving direction to the disciples as in Acts 8:29 and 13:2. His personality is again proved by the fact that men act toward Him as they could act only toward a person. In Isaiah 63:10 the prophet declared that men vexed the Holy Spirit. It would be manifestly improper to speak of vexing an influence; only a person can be vexed. In Matthew 12:31 Jesus speaks of men blaspheming against the Holy Spirit. It would be impossible to blaspheme against an influence. In Ephesians 4:30 Paul speaks of grieving the Spirit. Again, it would be manifestly improper to speak of grieving an influence. Further, in 1 Corinthians 12:11 Paul speaks of the Holy Spirit exercising the function of will. One of the essential characteristics of personality is that of volition. The Holy Spirit is represented as divine. He has the attributes of deity. In Psalm 139:7-9 He is declared to be omnipresent; in 1 Corinthians 2:9-11 omniscient. He also performs the works of God. He is the creator and renewer (Ps. 104:30). He is called God in Acts 5:3-4, and II Corinthians 13:18.

II. How Believers are Related to the Holy Spirit. They are regenerated by Him (John 3:5-8); they are indwelt by Him (I Cor. 6:19 Gal. 4:6). He also fills (Eph. 5:18 and Acts 4:31). To be filled with the Holy Spirit is the duty of every believer. No one has the right to perform any work for Christ without this filling (Luke 24:48,49; Acts 1:8). Even the temporalities of the church should be in the hands of Spirit-filled men (Acts 6:1-3).

III. What the Holy Spirit Does (John 16:8-11).

1. Convicts the world of sin (v. 8). The one awful sin of the world is unbelief. The Holy Spirit convicts the people of the world of their error concerning sin and shows their guilt before God.

2. He convicts the world of righteousness (v. 10).

The resurrection and ascension of Christ prove that He is the Righteous One, and that righteousness is only possible as He is accepted as Savior.

3. He convinces the world of judgment.

To be convinced of the reality of judgment is the crying need of the world today. Sin unatoned for shall be punished. The sinner who refuses the righteousness which God provided in Jesus Christ also shall be judged.

4. The Spirit mortifies the deeds of the flesh (Rom. 8:12, 13).

The only way to get the victory over our carnal natures is to give the place of rulership to the Holy Spirit.

5. He leads the believer (v. 14).

The Spirit-filled believer lives the life of the Son of God.

6. He gives assurance to the believer (Rom. 8:15-17).

The Holy Spirit witnesses together with the human spirit to the reality of the new birth.

7. He enables the believer to pray according to the will of God (Rom. 8:26, 27).

While the believer does not know how to pray as he ought, the Holy Spirit helpeth his infirmity. All prayer which the Holy Spirit indites the Heavenly Father answers.

Partner of the Lord

Every young man and woman should be a junior partner with the Lord Jesus for the salvation of the world.—Jacob Chamberlain.

Battle Won by Prayer

Why talk so much? The battle is won by prayer.—J. W. Lee.

TRAVELING MAN TAKES OWN LIFE AT HOTEL

VERDICT OF SUICIDE IN DEATH OF O. S. TITSWORTH AT LOCAL HOTEL TUESDAY

O. S. Titsworth was found dead in his room at a local hotel early Tuesday morning, and an inquest held by Justice of the Peace L. H. Hillyer developed the verdict of suicide by poisoning. An empty bottle which had contained carbolic acid was found on the floor by the dead man's body.

The death evidently occurred shortly prior to 6:00 a. m. Other occupants of the hotel reported having heard the man coughing violently between 5:00 and 6:00 o'clock, and moving about in his room as if getting a drink of water. When the room was entered later he was found dead on the floor, his lips apparently burned by the acid.

An unsealed letter was left on the table with written instructions to notify his sister, Mrs. J. J. Carter, of Franklin, Texas. His home address, found in his pocketbook, was 4400 1-2 Worth street, Dallas, Texas.

Titsworth had registered at the hotel the night previous, and had spent the day Monday on the street with his line of samples. He was selling a line of calendars. From the tone of the letter left his rash act was evidently due to despondency.

The body was prepared for burial by the Henne & Meyer undertaking department and was shipped to Marlin for interment. It is understood that decedent was prominently connected in Franklin and Marlin.—Rockdale Reporter.

JONES PRAIRIE 4-H CLUB

The Jones Prairie 4-H Club met January 14 from one o'clock until 2:30. Miss Bartholomew awarded certificates and club pins. Those that received club pins and certificates were as follows: Mary Tom Stidham, Dorothy Mae Black, Ella Louise Black, Hallie Jamison, Ruby White, Lorene Brown, Maudie Canady, Jessie Mae Bell and Gilette McKinney.

We elected new officers for the year and are as follows: President, Mary Tom Stidham; Vice-President, Ruby White; Secretary, Dorothy Mae Black; Song Leaders, Jewel Hickman and Hallie Jamison. Reporter, Pearl Koehler.

The club girls will have their first sewing lesson for this year next club day which will be January 28. We had one new member. We are going to see who can work the hardest in the coming year.

EPISCOPAL CHURCH

Sunday, January 28th
Morning Prayer and Sermon at 11 o'clock.
Sunday School at 9:45 a. m.

CLARKSON

The new house on Joe Schealer's place has been occupied by Mr. Schealer's father and mother.

Mrs. Herman Schwarting and daughter, Katherine and Mrs. A. L. Harris were shoppers in Temple Friday afternoon.

Mrs. W. T. Johnson and daughter, Lucille, Mrs. R. K. Fontaine and little son, Billy, of Jones Prairie were visitors at the Schwarting home Monday afternoon.

The community enjoyed two basketball games Thursday afternoon between Clarkson and Jones Prairie. Jones Prairie was victorious in both of them.

Howard Schwarting and wife attended the basketball games at Jones Prairie Friday afternoon between Ad Hall and Jones Prairie. Jones Prairie was victorious in both games.

Ganell and Lorene Cox were at home from their schools this week end with their parents, Mr. and Mrs. W. W. Cox.

Howard Schwarting and wife and Katherine Schwarting were visitors of Perry Strickler and wife Thursday night.

There is a new house being built for the Schwoboda's where they intend making their home.

A group of the young people enjoyed a basketball game between Clarkson and Rosebud Wednesday night at Rosebud. Rosebud was the winner.

Oliver Rine, whose home was here many years ago is now back in our community.

Theiston Anderson who has been in China several years in now back home and was a visitor at the R. K. Anderson store Saturday.

Among those who were shoppers in Cameron this week were: Tim Mitchell, Buck Bell, E. Campbell, Jim Hank, Mrs. Herman Schwarting and daughter, Katherine, Mrs. A. L. Harris, Mrs. Howard Schwarting, Mrs. J. Freimel and son, Charlie Jr., Joe Schealer, Howard and rank Douglas, Mrs. Walker Cox and daughters.

Barrett Johnson of Jones Prairie was a caller at the Schwarting home Sunday afternoon.

Howard Echwarting and wife and Katherine Schwarting were visitors at the W. T. Johnson home Sunday night.

Ed Kinsey and wife of Maysfield were visitors at the Schwarting home Tuesday.

Perry Strickler and wife were callers at the Starnes home Wednesday night.

Mrs. Henry Linsey has been quite ill the past few weeks but is some better at this writing.

THE STATE OF TEXAS

To the Sheriff or any Constable of Milam County, Greeting—

You are hereby commanded to summon Osie Phoenix by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Milam County, to be holden at the court house thereof in Cameron, on the 4th day of March 1929, the same being the 1st Monday in March 1929, then and there to answer a petition filed in said court on the 13th day of November 1928, in a suit, numbered on the docket of said court No. 10104, wherein Leon Phoenix is plaintiff and Osie Phoenix, is defendant said petition alleging:

Statutory ground three years abandonment.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

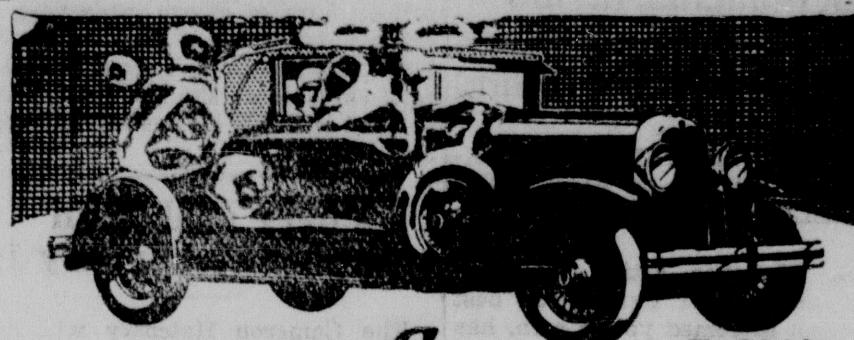

Witness, Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this the 17th day of January A. D. 1929.

Penn Wolf, Clerk,
40-4 Dist. Court, Milam Co., Texas

CHAS. MCGEEHEE HEADS KNIGHTS OF PYTHIAS

ACTIVE FRATERNALIST IS HONORED BY LODGE AT ELECTION HELD MONDAY NIGHT

Chas. McGehee, active fraternal worker and one of Cameron's best known and esteemed young men, has been installed as Chancellor Commander of the Knights of Pythias Lodge.

The installation ceremony was observed in the Castle Hall of Milam Lodge No. 125 on Monday night with a large number of members present to witness the taking of office by the newly elected officers.

Mr. McGehee has been a Pythian for only about eighteen months, but his zeal for the work and his fine personality has so impressed the members of the lodge that he has been called to a place of leadership. Members of the lodge are looking forward to a most successful administration for Mr. McGehee and they see in his election a potential outlook for Pythian growth in Cameron.

Mr. McGehee succeeds Robert McCown in the office of Chancellor Commander who has had a most excellent administration, being one of the young and influential members of the lodge.

W. L. Wilson, one of the young members of the lodge has been installed as Vice Chancellor. Mr. Wilson has been a member of the lodge only a short time but he has given to the work his loyal attention and his service has impressed the members.

Other officers elected were: Chas. Nabours, Master of Work; W. G. Gillis, Prelate; E. W. Hood, Keeper of Records and Seal and Master of Finance. Alvin Dusek, Master of Exchequer; Cecil Wilson, Master at Arms; Oscar Schiller, Inner Guard; R. W. Henderson, Outer Guard.

Practically all the newly installed officers are young members. Elbert W. Hood, is a veteran member and as Keeper of Records and Seal for the Lodge has succeeded to the place held by the late Fred Henry, esteemed as Cameron's best loved Pythian Knight. Mr. Hood is sincerely and efficiently discharging his duties of this office and he is responsible in a large measure for the success of the lodge.

W. G. Gillis has been serving as Prelate of the lodge for a number of years and is one of the local and influential members of the lodge.

Speeches pledging support to Mr. McGehee, the new Chancellor Commander, were made. Mr. McGehee in his impressive way made response to the pledges of support.

The rank of Knight was conferred on Earl Moseley.

Maytag Shop

(continued from page 1)
ever equalled this record.

Radio nights for the Maytag washing machines are held with a nationwide hookup of 52 stations and the people of Cameron are invited to watch for the announcements and read the programs in the radio columns of the daily newspapers.

The Maytag Shop here is a chain store, the next one to be opened in Brenham. Mr. Schmidt, the district manager is with the Maytag Shop in Waco.

Three types of machines are on display here. The A. C. current; D. C. current machine for private hookup and the gas engine machine. The gas engine is a marvelous mechanical invention and the Maytag people are one of the largest manufacturers of gas engines.

Cameron is growing and attracting the business of many distributing concerns and sales programs and the Maytag Shop will be widely patronized here.

Mrs. Watson

(continued from page 1)

tainly have a responsible woman engineer in it. You see, I am so interested in women, being one myself and therefore understand their household problems better than any man could, that I return again to that question. Man and woman were made to work in conjunction with one another and there is no field of business from the home on through big business where the assistance of women can be dispensed with. In this field I believe more and more women will come into it as man realizes, and woman too, that the personal contact with housewives must be made by women who are especially trained and who can understand the housewife's problems. One of the most vexing problems that the housewife has to meet is the plumbing of her new home. If properly handled there will be no trouble but if carelessly and cheaply put in unsanitary conditions and disease will follow. The plumbing features of a house is one that cannot be neglected because of cost.

A woman in the field of engineering, not only at one time purely a field, stirred the reporter's mind and it was with much joy found in Mrs. Watson a most woman with personality of

a buoyant, enveloping kind that carries all before it and creates unto itself an aura of charm made from an intense interest in humanity. "For humanity is woman's greatest interest," she said as she left the reporter to meet with the classes she had come to attend.

Hatchery Will Open Here February 1st

The Cameron Hatchery will open for business on February 1. An announcement in this issue tells of the opening on that date. The hatchery will be in charge of O. J. Hanszen again this year. He is a graduate of A. & M. College and an expert in the business. Mr. Hanszen says:

We expect a very successful season this year. An indication of the demand for chicks can be seen in the fact that Mr. Kazmeier, now has over six times as many checks sold for future delivery than he had at this time last year.

The good price that the farmers have received for their produce and the shortage of pullets, are the two things that are causing this increase demand. Last year the U. S. as a whole did not raise enough pullets to replace the old stock that was killed or sold. We have not only received a good price for eggs through the past fall and winter, but the price is still holding up about three weeks after it usually falls.

Rockdale Man Kills Wife With a Razor And Ends Own Life

Rockdale, Tex., Jan. 20—After killing his wife with a razor, Aaron Cotton, 47, late today took his own life with poison.

Cotton, estranged from his wife had gone to visit her at the home of her parents near here.

When Mrs. Cotton informed her husband that she would not return with him, he cut her throat. Several members of the family sprang after him as he made a dash through a pasture. After running a short distance, Cotton poisoned himself and then tried to cut his throat while in a dying condition.

A verdict of murder and suicide was returned.

Cotton had been acquitted of insanity in a trial at Cameron recently.

SHERIFF'S SALE

The State of Texas,
County of Milam,

Whereas, on the 16th day of November A. D., 1928, in a certain cause numbered 1001 on the docket of the District Court of said county, wherein the State of Texas is plaintiff and Henry F. Lippman, Bertha Lynch and Eunice Dill are defendants, the said plaintiff recovered judgment in the amount of Two Hundred thirty-five and 88-100 dollars for taxes, and legal amount penalties, costs and interests computed thereon, together with the foreclosure of plaintiff's delinquent tax liens upon the property hereinafter described as the property of the defendants, because of non-payment of the taxes due thereon;

And whereas, on the 4th day of January, A. D. 1929, by virtue of the said judgment and the mandates thereof, the Clerk of the District court of said county did cause to be issued an Order of Sale, commanding me as Sheriff of said County to seize, levy upon and sell in the manner and form as required by law the hereinafter described property as the property of the above defendants, to satisfy the said judgment.

Wherefore, by virtue of the said Order of Sale and the mandate thereof, I did on the 5th day of January A. D. 1929, seize and levy upon as the property of the above defendant, the following property, to-wit:

98 1-2 acres of land on the David Gallagher League in Milam County Texas, and beginning at the N. W. corner of the Common 50 acre tract, same being the N. E. corner of the Vernon Russell 150 acre tract for the N. E. corner of this; thence with the N. line of the 150 acre tract S 60 W. 78 1 vrs; to a rock for N. W. corner from which a P O bns S. 45 E. 18 vrs; thence S. 45 E. 738 vrs to P O for cor; thence S. 80 E. 124 vrs to stk in edge of gully for cor; thence N. 77 E. 300 vrs to a large post for cor; thence N. 45 E. 125 vrs to cor in the west line of the William Weiseland, thence N. 30 W. 130 vrs to N. W. cor of said Weise tract; thence N. 60 E. 68 vrs to a stake for cor; thence N. 30 W. 78 1 vrs to the place of beginning.

And I will on the first Tuesday in the month of February A. D., 1929, the same being the 5th day of said month, proceed to sell said property at the Court House door of said county, in the city of Cameron, between the hours of 2 o'clock p. m. and 4 o'clock p. m., to the highest bidder for cash all the right, title and interest of the above defendants, in and to the above described property; subject, however, to the rights of the defendants, to redeem same in the time and to the further rights of the defendants to have said property divided and sold in less divisions than the whole. And in event there are no bidders, said property will at said sale be bid off to the State.

L. L. Blaylock, Sheriff,
Milam County, Texas.

Lesson for January 27

THE HOLY SPIRIT

LESSON TEXT—John 16:7-11; Romans 8:12-17, 26, 27.

GOLDEN TEXT—For as many as are led by the Spirit of God, these are sons of God.

PRIMARY TOPIC—Our Unseen Helper.

JUNIOR TOPIC—Our Unseen Helper. INTERMEDIATE AND SENIOR TOPIC—How the Holy Spirit Helps Us. YOUNG PEOPLE AND ADULT TOPIC—The Work of the Holy Spirit.

I. The Personality of the Spirit (John 16:7, 8).

Personality is here implied by the use of the personal pronoun. In the original Scriptures personal pronouns are used uniformly in speaking of the Spirit. Then, too, He is called the Comforter. The word "comforter" literally means one called to stand by the side of another as a helper, counselor and guide. While Jesus sojourning in the world He was such to His disciples. He assured them that upon His withdrawal the Holy Spirit would take His place as friend, helper and counselor. The personality of the Spirit is also proved by the fact that He performs acts only possible to persons. In John 14:26 He performs the function of a teacher. He not only teaches, but He speaks as a person, giving direction to the disciples as in Acts 8:29 and 13:2. His personality is again proved by the fact that men act toward Him as they could act only toward a person. In Isaiah 63:10 the prophet declared that men vexed the Holy Spirit. It would be manifestly improper to speak of vexing an influence; only a person can be vexed. In Matthew 12:31 Jesus speaks of men blaspheming against the Holy Spirit. It would be impossible to blaspheme against an influence. In Ephesians 4:30 Paul speaks of grieving the Spirit. Again, it would be manifestly improper to speak of grieving an influence. Further, in 1 Corinthians 12:11 Paul speaks of the Holy Spirit exercising the function of will. One of the essential characteristics of personality is that of volition. The Holy Spirit is represented as divine. He has the attributes of deity. In Psalm 139:7-9 He is declared to be omnipresent; in 1 Corinthians 2:9-11 omniscient. He also performs the works of God. He is the creator and renewer (Ps. 104:30). He is called God in Acts 5:3-4, and II Corinthians 3:18.

II. How Believers are Related to the Holy Spirit. They are regenerated by Him (John 3:5-8); they are in dwell by Him (I Cor. 6:19 Gal. 4:6) He also fills (Eph. 5:18 and Acts 4:31). To be filled with the Holy Spirit is the duty of every believer. No one has the right to perform any work for Christ without this filling (Luke 24:48, 49; Acts 1:5). Even the temporalities of the church should be in the hands of Spirit-filled men (Acts 6:1-3).

III. What the Holy Spirit Does (John 16:8-11).

1. Convicts the world of sin (v. 8). The one awful sin of the world is unbelief. The Holy Spirit convicts the people of the world of their error concerning sin and shows their guilt before God.

2. He convicts the world of righteousness (v. 10). The resurrection and ascension of Christ prove that He is the Righteous One, and that righteousness is only possible as He is accepted as Savior.

3. He convinces the world of judgment. To be convinced of the reality of judgment is the crying need of the world today. Sin unatoned for shall be punished. The sinner who refuses the righteousness which God provided in Jesus Christ also shall be judged.

4. The Spirit mortifies the deeds of the flesh (Rom. 8:12, 13). The only way to get the victory over our carnal natures is to give the place of rulership to the Holy Spirit.

5. He leads the believer (v. 14). The Spirit-filled believer lives the life of the Son of God.

6. He gives assurance to the believer (Rom. 8:15-17). The Holy Spirit witnesses together with the human spirit to the reality of the new birth.

7. He enables the believer to pray according to the will of God (Rom. 8:26, 27). While the believer does not know how to pray as he ought, the Holy Spirit helpeth his infirmity. All prayer which the Holy Spirit indites the Heavenly Father answers.

Here is a splendid view of the plant of the American Milk Products Company made especially for The Herald by the B. & B. Studio of Cameron.

MILK PLANT OPENING FEBRUARY 1 PRESAGES INDUSTRIAL DEVELOPMENT AND FARM PROSPERITY

22,000 POUND CAPACITY MILK PLANT WILL OPEN FEBRUARY 1; DAIRYMEN SHOW ENTHUSIASM FOR FARM INCOME

Presaging an appealing industrial development for Cameron and prosperity for the farms, the opening of the 22,000 pound capacity milk plant of the American Milk Products Company here on February 1 is the beginning of a new day in Milam county.

Final details in installing the machinery for this big plant are now engaging the attention of the mechanics and with zone meetings being held each night among the farmers who are learning of the advantages offered them in a year round cash market for butter fat, indications are that the opening day Friday, February 1 will see the largest volume of milk ever brought in on opening day for any plant established in this section of Texas.

The problem of supplying cows for farmers who wish to engage in milk production is now receiving the serious attention of a number of Cameron men versed in livestock.

The big plant has been made possible by a co-operative movement begun some months ago in the Cameron Commercial Club and having received the active financial backing of a number of Cameron business men is assured successful operation with profits to the owners as well as great benefits to the dairymen who will be able to sell their milk on a butter fat basis at 63c per pound for fat.

The management of the plant will give all possible attention to the receipt of milk for the first day of the operation. Within a few days open house is planned and the people of the city will be invited to inspect the plant and to learn of its benefits in

furnishing to the homes pasteurized milk.

The plant will specialize in cheese, Bulgarian butter milk and butter. The sale of pasteurized milk will be the largest output of the plant for the present as the homes of the city will be served this product at 13c per quart.

The big plant is modern in every detail and is housed in the east section of the building formerly occupied by the electric division of the Cameron Water, Power and Light Company. Machinery for this plant was purchased from the Chicago division of the Cherry-Burrell Corporation and includes not a pasteurizing plant but a cheese making plant together with machinery for the butter milk and the butter.

Milk from the Rockdale section, Rosebud and Davilla sections and in near portions of other counties as well as points within the immediate territory of the city will feed this big plant.

With the plant operating at capacity approximately a half million dollars

each year will be paid into the hands of farmers. When taken into consideration with other produce sold here this will make an enormous income to supplement cotton and other earnings from the soil.

Cows maintained and milk sold as an adjunct to the farm means that this enormous sum of money is velvet to the farmers as cows are kept and made to produce with little or no expense if the feed crops are raised substantially on the farms.

All Cameron and Milam county is talking milk. When the big plant opens on Friday, February 1 one of the most far reaching steps for balanced income for the farm in the history of the county will have been taken.

Farmers who are interested in selling milk and adding cows to their herds are requested to get in touch with the plant or the commercial club where assistance can be arranged.

There is just so much worry for everybody. If you dodge your share there is more for your creditors.

C. W. LAWRENCE HAS BEEN IDENTIFIED WITH GROWTH OF CITY FOR YEARS

C. W. Lawrence, president of the American Milk Products Company has been an outstanding figure in the industrial development of Cameron.

As part owner and manager of the Cameron Water, Power and Light Company he gave to the city its first greater utilities and in this way as well as other ways he has been active

As a member of the commercial club for many years in industrial circles, and for more than ten years a director, he has served in various ways to advance the city. As president of the club he was instrumental in giving the city the advantage of his experience as an industrial leader and this brought many advantages to the city.

Among the many things worth while that has challenged the attention of Mr. Lawrence is the grape industry, now progressing well in the sand districts east of Cameron.

When the matter of the Milk plant

was first brought to the attention of the club Mr. Lawrence was one of the first to lead out on the program, not only giving to the project his influence but was responsible in a large

(continued on page 4)

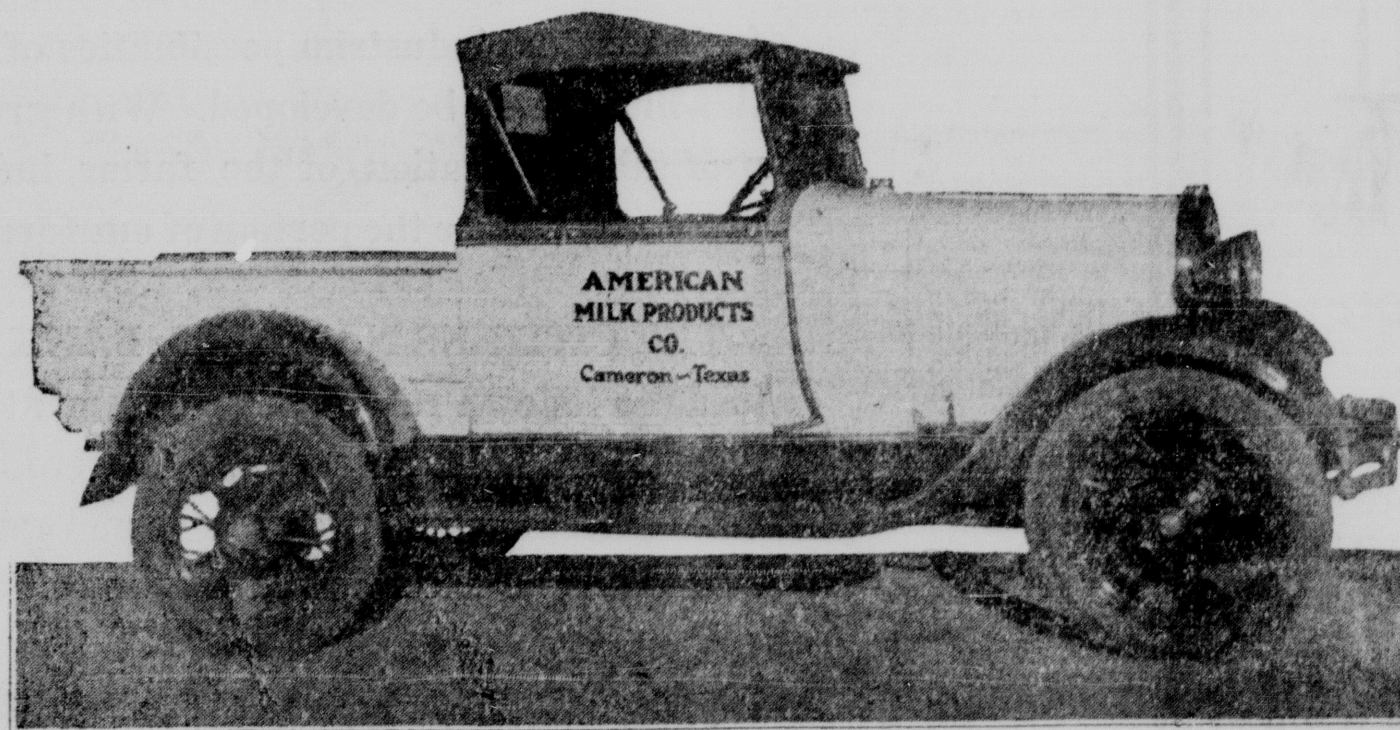

New Fords To Deliver Pasteurized Milk In Cameron for Company

In a half page advertisement in this issue the Hubert Hefley Motor Company presents a picture of a Ford truck that bears the name of the American Milk Products Company.

The New Ford with its white dress of duco paint and attractive sign lettering makes a fine impression. The company is finding the new truck is meeting all requirements and others will be added as the demand is made for city wide delivery of pasteurized milk.

Congratulations

To the American Milk Products Company upon their organization and entry into a new field of endeavor in this vicinity which we trust will be a means by which every farmer in Milam County will see the dawn of a new day. It is our aim and desire to play a small part in the promotion of the Dairy Industry in this section by providing adequate transportation for the handling the Milk and Cream from the Farmer to the Plant. Below is a picture of one of the New Fords which we have recently delivered to the American Milk Products Company for this purpose. It embodies the best efforts of the greatest automobile organization in the world. It will deliver many miles of dependable and economical transportation.

We will be glad to hear from any one interested in the purchase of a New Ford either for cash or on terms. A demonstration will convince you of its superiority. We can make immediate delivery on all models.

FIFTY THREE CENTS FOR BUTTERFAT ANNOUNCED

2,000 POUNDS CARRYING PLANT WILL BEING BUILT AT THE NEW YORK TO FARMERS

The big 2,000 pound carrying plant of the American Milk Products Company at Cameron will be opened for business in February at, according to William Reese, manager, who is putting up all possible haste for the setting of machinery.

The opening of this plant is regarded as the greatest development in the history of the city for processing on the farm of milk cows.

The interesting survey was made of the processing of milk in the plant at other portions of the United States.

When the plant here opens on February 1 the management will pay 50 cents per pound for butter fat, or about 2 1/2 cents per pound for milk.

Mr. Reese in his recent visit to Washington went to the Eastern plant at Washington on pay day for January and for that month they paid to the farmers \$10,000. The Eastern plant was established there in 1924.

Since at Tropic, Mississippi, the Southern Milk Company with "Milk from contented cows" paid out in January \$12,000. This money was distributed among the farmers for that month. At Washington the plant production brought \$14,000 for a single month.

These figures represent two plants in Washington, D.C., a short distance away is located one of the largest milk plants in the country. There are also local plants and cheese factories.

That section was a cotton area and before the coming of the milk plant with their every day cash for milk, there were no roads, no corn, no poultry, no cars and generally the country was in a deplorable condition.

Paraphrasing the famous saying, "Continuation begins and ends with the Farm," a large sign over the Southern plant at Tropic has these words: "Framed by Nature with the Farm."

From at Marshall, Texas, one was this sign: "The Land of Milk and Honey."

The capacity of the plant here is 22,000 pounds of milk per day. Mr. Reese expects for 5000 pounds on the opening day.

Cash will be paid and there will be a market every day for milk.

According to Mr. Reese 700 cows will be required to feed the plant to capacity. Based on the average cow this will give the plant 2,000 pounds of milk per day.

The products of the plant will be cheese, Singapore butter milk, condensed milk and also butter.

L. F. GUGGOLZ SETS UP MACHINERY FOR PLANT

His machine is the proper operation of the machinery for the milk plant.

One of the big factors in setting things in order at the American Milk Products Company for the big opening on Friday, February 1 is the mechanical genius of L. F. Guggolz who has almost completed installation of the machinery for the milk plant.

Not only has the services of Mr. Guggolz insured proper operation of the plant but for a number of years he has been identified with the operation of the plants of the Citizens Water, Power and Light Company.

Mr. Guggolz is one of the outstanding mechanics of the state. At one time he was master mechanic for the International and Great Northern railroad. He came to the service of the local company from Logan, where for a number of years he operated the mechanical plant after leaving the service of the railroad.

Mr. Guggolz has never specialized in milk plant machinery but his genius for mechanics has enabled him to install all the intricate parts of the plant in correct manner so that when the opening day comes February 1 the plant will be able to run at capacity if sufficient milk is brought in.

WAGGONWHEEL FARMER GETS \$2.50 PER HOUR BY MILKING HIS COWS

Washington, Jan. 24.—It is not all waste and no pay day for farmers of Washington country any longer. L. A. Wells began a month ago to sell whole milk from his cows on his farm to a milk station. Yesterday he received a check for \$75.00 for two weeks sales. Discounting \$7.50 for feeding and \$10 for the feed, Wells says he made a profit of \$50. He says he has and a half daily in milking the cows. So he figures he is getting \$2.50 per hour for his labor.

TOX ERADICATION IS ESSENTIAL TO DAIRYING

COWS SHIPPED INTO TERRITORY BRINGS FACE FEVER

Only one thing remains to be done in connection with the progress of dairying in this country. That is the eradication of the cattle fever bug.

Cattle men are faced by dairy men who say cows from this country and ship them to this section where the fever bug has not yet been eradicated.

It has been pointed out that this country as a whole has been cleaned up the fever bug but an amount of certain portions of the country are still infested with the bug and under Federal law.

Cattle cannot be shipped out of the country without first being dipped for the fever bug.

In addition to the bacteria mentioned by the existence of fever bugs causing death to cows shipped into the territory where eradication work has not been completed, it will be difficult for farmers to be arranged where there is a strong probability of infection.

Those interested in the matter have made investigation with the view of arranging insurance to cover losses in the event they occur. If this is all arranged one of the problems of farmers will have been solved.

Raymond Beert, inspector for MIL an county, is doing everything possible to remove the bacteria and with the arrival time within a few days of a representative of the federal commission, will begin work of co-operation that may pave the way for shipment here of the needed supply of dairy cows.

Many Sources Seek Dairy Cows For Use In Milk Industry

An investigation by a representative of this paper Monday revealed that a number of men are working to buy dairy cows for shipment into the territory mentioned by the establishment of the dairy plant in Cameron.

The shortage in cows since 1924 in 1925 when the drought caused shipment and sale of practically all the cows in this section Texas country. Since that time so much effort has been given to the production of cotton and other crops that no thought has been given to cows.

So far men in search with the situation are finding it hard to get good cows. Several cow boys can be still seen with proper financing to the farmers. Inquiries are being made each day and it is thought the number of milk cows can be raised in a short time.

There seems to be plenty of good dairy stock in northwest Texas and indications are that the territories where desirable stock can be found will be attracted by buyers for the Cameron territory.

A Cow Will Pay!

Here are some figures that are conservative. They are taken from government as well as industrial experience and are facts. There is no guess work about these figures, according to William Reese, manager of the American Milk Products of Cameron, which opens on February 1.

An ordinary commercial cow will give 3 gallons of milk per day.

There are an average of 5 pounds of butter fat in each 20 pounds of milk. Eleven and two-thirds gallons of milk will weigh 20 pounds milk is bought on butter fat basis and will bring about \$1.50 per gallon, or about 10 cents per day for the average cow. The average cow will bring an 800 days milking \$225. Ten cows would bring a gross earning of \$2,250.

Feed for the average cow when such feeds as large part are home grown, will cost 10c per day, based on small home cows such as Jersey and Guernsey. Holsteins and larger home animals can be fed for 40c per day when feeds are bought and not raised. Better cows eat no more than lower grade cows and produce more profit.

A better calf at 18 months is worth as much as the mother cow and the best calves are worth \$20 per head. Young bulls of from registered strain are worth \$50 at 3 months. The average good cow is to be bought from \$25 to \$35. Take your pencil and figure it out. You will find that operated as an adjunct to your farm and dairying with ready cash market for milk every day in the year will make as rich as a people.

TWELVE MONTHS OF ADDING TO THE TEXAS MILK STREAM

By BEEMAN FISHER
Editor Texas Opportunities

Governor Moody's Texas Industrial Committee is but one year old, yet within its brief lifetime the Lone Star State has experienced a period of unparalleled progress.

There can be no question that this Committee has had something to do with the focussing of Texas eyes on Texas opportunities and with the advertising of Texas resources to the Nation.

It has been host to a party of Eastern textile executives and financiers who came to inform themselves on Texas textile possibilities, and who, upon their return to their homes, reported as follows: "Our conclusion is that there is no section of the United States which at present has so many advantages favorable to cotton mill development as the State of Texas." This Committee, made up of leaders in representative industries, has done much to stimulate Statewide concern in industrial and agricultural potentialities and to restrain the "boom" spirit of community development. It has constituted an effective clearing house of co-operative effort.

Many manufacturing concerns, branch factories, and new enterprises of wide assortment have located in Texas within these twelve months. But there is no field in which advancement has been more spectacular than in dairying. Bossy has planted all four feet solidly on Texas terra firma and vowed she'll stay and be a useful citizen.

John W. Carpenter, chairman of the Governor's Committee, has found himself happily situated in a position where he could be of strategic value to Texas dairying through his presidency of Texas Power and Light Company and of Texas Electric Service Company. Some way, somehow, he has conveyed his enthusiasm for, and faith in, dairying opportunities to the local managers. Through their efforts, in co-operation with the efforts of other leaders in the several communities, a creditable beginning has been made toward creating a new and impressive cash crop for Texas—milk—and in supplying a local market for that crop. Cheese factories have sprung up in widely separated localities, where not one was in operation before. Creameries have dotted the land, in contrast to the void existing

throughout so many years. Milk-products plants have been built and are now serving to stabilize the milk industry without regard to seasonal peculiarities.

Dr. C. D. Pearce, of the Borden bureau of dairy development, attributes much of the credit for the Borden selection of Waco as the site of its first Texas plant to T. H. Williams, Waco manager of the Texas Power and Light Company.

The same brand of approval goes to Joe Durning, Sherman manager, for his part in the acquisition of the great Meadlake Milk Products Company.

Up at Wichita Falls came the giant Kraft cheese factory, to boost the milk money of the rich Kemp Lake region, partly as a result of co-operation by A. E. Kelly, the manager there. Over in East Texas J. H. Calhoun has helped effectively to obtain a Douthitt milk products plant for Tyler.

In no small measure rural electrification progress and dairying development are all bound up together. Dairy farms require running water, feed grinders, milking machines, refrigeration and other facilities most conveniently supplied by electric power. So there could have been no step more pregnant of rural advancement than the decision by Texas Power and Light Company to maintain a rural service agent.

In the last year more than 500 farmers have been added to the company's list of customers and a large proportion of these are dairymen.

Texas has long held the State championship in the production of "country" butter, but for long has lagged far behind in the making of creamery products. Texas has for years led in the growing of grain, sorghums and has been among the leaders in the raising of other feed-stuffs. The long summers, falls and springs and the short winters, are favorable to extensive dairying operations, and there is no reason why in due time Wisconsin and Iowa and other dairy States should not surrender supremacy to Texas. The economies of the situation makes the thing inevitable. Harrison county is calling itself, "The Land of Milk and Money." It's a slogan that should be equally applicable to many other counties of this State of even climate, rich soils, and progressive populace.

CREAM STATIONS PAY OVER \$1000 MONTH TO LOCAL FARMERS

MANY FARMERS MAKE THEIR
COWS PAY LIVING EXPENSE
DURING PAST YEAR

The three Rockdale firms operating cream stations paid to the farmers of the Rockdale country during 1928 the sum of \$12,726.95 for cream—more than \$1000 per month, according to figures compiled by the editor Monday. The sum total showed a substantial increase over 1927 and previous years, and the report indicates that farmers are becoming more and more interested in dairying and are finding their cows a profitable investment. Many of them have bought cream separators, and all of them are well pleased with the business, according to the buyers. It is indicated that more cows and better cows will gradually be added to the present number being milked for the coming year.

The Farmers Union Store handled the largest amount of cream, paying out \$5,142.79 during 1928. Backhaus Bros., report \$3,900.00 and Scarbrough & Hicks Company \$3,684.16. The latter firm only began buying cream in May, and its total is for eight months. The best month in the year, according to reports, was April, and all the Spring months showed better returns than the summer and fall months.

The establishment of the Milk Products Plant at Cameron is expected to stimulate dairying all over the county, and arrangements are being made for a milk route to Rockdale. However, many farmers say they will continue to sell cream rather than the whole milk, for the reason that they are operating on a small scale and bring their sour cream to town only twice a week, whereas the whole milk would have to be delivered sweet each morning. These men say that unless the milk route passes their door they will be unable to patronize it. It is thought, however, that others will increase their dairy herds and make a regular business of dairying, selling their product in the form which proves most profitable.—Rockdale Reporter.

Or the Flatiron Building

Harry: "That fellow will fall far anything. Easiest mark in the world."

Somers: "Somebody told me that a baldheaded barber could sell him hair restorer."

Renovating
His wife: "We ought to have a new car. This one looks disreputable."

Hardy Upton: "Can't afford it. But I'll fix up this old bus—wash it up and put a fresh mortgage on it."

CONGRATULATIONS

To the American Milk Products Company on the Opening of the Milk Plant on February 1

The Cameron Herald, identified with the progress of Cameron and Milam County for the past 50 years extends sincere congratulations and good wishes to the plant and to the progressive men who are back of it.

The Herald has been a consistent booster for dairy products. Farms need more cows. The farmers can now sell their milk for cash and bring prosperity to the community.

Co-operation is needed. Farmers, bankers, business men and merchants must pull together for a greater Cameron.

THE CAMERON HERALD

J. B. WHITE, Editor

The CAMERON COMMERCIAL CLUB

Is Doing Worth-While Things For CAMERON

The Cameron Commercial Club has done many worthwhile things for Cameron. The latest achievement along the line of industrial development for the "Friendly City" is the AMERICAN MILK PRODUCTS COMPANY.

The Commercial Club congratulates Messrs. C. W. Lawrence and R. H. McIntosh and others for their progressive outlook for the city and community.

The American Milk Products Company gives promise of prosperity on farms in Milam coun-

ty such as no other movement has brought in recent years.

Co-operation is needed. Farmers who wish to buy cows or sell milk should fill out the coupon in this space and mail to the Secretary of the Cameron Commercial Club. The club will assist you in every way possible to buy cows or to sell your milk.

The Commercial Club takes this occasion to congratulate the people on the opportunity presented for profitable dairying, and urges co-operation, more cows and more prosperity.

Do You Want to Sell Whole Milk?

If you do, fill in and mail the following blank to the Cameron Commercial Club. This information will be placed with the proper authorities on milk production and you will be given every aid possible in buying cows and in marketing your milk.

How many milk cows will you have February 1.....?
Estimated number of gallons milk they will produce.....?
If price is sufficient will you deliver to Cameron.....?
Do you want to buy more cows.....?
How many.....?
Do you wish to have the whole dairy business more fully explained.....?

MANAGER FOR MILK PLANT HAS MADE AN INTENSIVE STUDY OF INDUSTRY

Willard Reese, manager of the American Milk Products Company, opened for business here on Friday, February 1, 1929, has made an intensive study of the milk business both as to the product and to plant management and takes his place as manager of the new industry with a thorough knowledge of the enterprise.

Mr. Reese has spent the major part of the past four years in this industry. He first was attracted to the business in Baton Rouge, Louisiana, where he went in 1925 to attend the state university.

At that point is located the plant of the Delicia Ice Cream Company. Beginning with this concern in an humble capacity, he soon became superintendent of the plant and as he progressed in the business the owners of the plant took advantage of his knowledge.

He made trips to the north and east in the interest of the industry and as late as October 1928 when he was called here to take the management of the American Milk Products Company,

he made a trip to Mississippi where he again made an intensive study of the details of this business.

Preparatory to opening of the plant here on February 1 Mr. Reese has been holding a series of meetings over the territory to get farmers interested in the production of milk. He has found a general good interest in the business and fully expects to see the plant operating at capacity within a few months.

The capacity of the plant here is 22,000 pounds of milk per day. The management does not expect so large amount of milk on the date of opening but an intensive campaign is now under way to place before the farmers the advantages of dairying and the profits to be derived from the sale of milk.

Mr. Reese has made an intensive study of live stock and will be of great assistance to the farmers in selecting their herds. He is now working on plans to bring better milk cows to this territory and if given co-operation will bring about a solution of the problem.

shipments and the indebtedness of these will not exceed \$50.

Texas Power & Light Company Encourages Industries Here

John C. Young, local manager for the Texas Power and Light Company, has been active in promoting industrial development in line with the policy of his company in aiding the establishment of milk plants and doing work among the farmers to encourage them to engage in more profitable efforts.

Electricity will play a big part in the operation of the American Milk Products Company and Mr. Young as a director of the commercial club and a member of the industrial committee has been instrumental in putting over the program for a big milk plant for Cameron.

Gas For Heating Of Milk Products Plant Is a Big Factor

Gas as an industrial utility is to be proven in a large measure for Cameron when the American Milk Products Company opens for business here on February 1.

Plans are now under way for supplying the plant with heat. Machinery for pasteurizing milk and for making other products will be driven by gas and the large boiler in the plant will be supplied by gas as soon as the burners can be installed.

The Community Natural Gas Company is playing an important part in the industrial life of the community as well as supplying fuel for domestic purposes.

FRIENDLY BIBLE CLASS

Members of the Friendly Bible Class of the Methodist church had a business meeting and social at the home of Mrs. W. E. Levy Friday afternoon. Mrs. Bob Terry, who was recently elected president after the resignation of Mrs. Alex Triggs, presided at the meeting.

After all business had been disposed of, Mrs. Levy, assisted by Mrs. Arthur Baskin, Jr., and Mrs. Vernon Roberts, served sandwiches, cookies and hot tea. Enjoyable features of entertainment were readings by Nona Weems, Helen Swift, Lorraine Pope, Helen Harrell and Lella Batte, pupils of Mrs. Edwin York.

C. W. Lawrence

(continued from page 1) measure for financing the plant, having subscribed for a majority of the stock.

The success of the plant is assured now that Mr. Lawrence is to give it his personal attention.

When the Cameron, Water, Power and Light Company sold its interests to the Texas Power and Light Company, Mr. Lawrence retained the Cameron Ice Company and the cold storage buildings, still retaining a place of leadership in the industrial life of the city.

The fact that the company has sufficient floor space in the plant, a view of which appears on the front cover of this section, to house the milk plant made its installation more economical and was a great saving in time and money.

Mr. Lawrence with his ripe experience as a business man looks upon the milk plant with a high degree of enthusiasm. He has gone into every detail of the business and is satisfied that the industry will pay and in addition will bring rich rewards to the farmers who produce and sell milk at the plant.

Cameron Banks Will Aid Farmers To Buy Cows For Milk Trade

Willard Reese, manager of the American Milk Products Company of Cameron, says that he has discussed matters of finance with Cameron Banks and they will co-operate in every way possible with the farmers to aid them in buying dairy cows.

Men who are in earnest and know something of the needs of the business to make it a success, can get accommodations, it was said by Mr. Reese here today.

Little time has been found by farmers to turn away from cotton sufficient to devote a little time to cows, and as a result only a limited number of cows of the better grade are available for the milk supply.

It is pointed out by Mr. Reese that in many instances the banks have bought cows and made arrangements to take care of the milk receipts on monthly installments sufficient to retire the debts.

At Roundrock cows were purchased and sold on this basis by private parties. Today, says Mr. Reese only 8 cows will remain unpaid out of the

Agriculture Sets Out On A Permanent Basis With the Coming of the AMERICAN MILK PRODUCTS COMPANY TO CAMERON

Farming in the Cameron territory takes on new life as the American Milk Products plant opens for business, February 1. The dairy cow ushers in a program of permanent agriculture in this section of Texas. The establishment of this plant forms a close link between the farming operations of Milam and adjoining counties and the industrial development of Cameron.

The Texas Power & Light Company extends its welcome to this new industry. This company recognizes that the American Milk Products Company comes to Cameron because of much constructive work which has been done by Cameron citizens, and it wishes to congratulate these people on their splendid work. It is this sort of practical dreaming and concerted action that builds communities. This company welcomes the milk plant because it brings with it continued prosperity to the people whom we serve.

Providing for the Texas of Today—
Planning for the Texas of Tomorrow

R. H. McINTOSH WAS LEADING INFLUENCE IN OBTAINING MILK PLANT FOR CITY

An early leader in the movement to secure for Cameron the Milk Products Plant, R. H. McIntosh, business man, is the vice-president of the company and has brought to the program for the success of the American Milk Products Company, a ripe experience and enthusiasm for the benefits it will bring to the farmers of the territory.

As chairman of the Industrial Committee of the Commercial Club Mr. McIntosh made visits to Round Rock and other points where milk and cheese plants have been established, bringing back reports that encouraged the committee and the club to forge ahead with plans for the plant.

Having subscribed liberally to the stock of the corporation Mr. McIntosh was instrumental in a large way in completing the organization which makes possible the opening of the plant on Friday, February 1.

Long identified with the mercantile interests of the city Mr. McIntosh in recent months has been elected and has served as a director and vice-president of the First National Bank. He will bring to the organization of the milk plant his business experience and his influence which will be contribu-

ting factors to the success of the industry.

Mr. McIntosh has been active as a director in the commercial club and as such has been instrumental in bringing many worthwhile industries to Cameron. He served as chairman of the civic improvement committee when many far reaching changes were wrought in the city for betterment and when the milk plant program was up for consideration he gave to it his support and more than any other who worked for its completion deserves the thanks of the people of this section.

Mr. McIntosh as a business man, looks upon the milk plant as the greatest contribution in recent years to aid the farmers. He is a strict believer in diversification and believes that every farmer should have one or more cows to bring him an income each day from the milk plant where a ready cash market will be maintained the year round for milk.

Mr. McIntosh in no sense desires that farmers should abandon cotton or other major crops, but cows can be maintained as an adjunct to the cotton farm, where feed can be raised and will be a source of income to bring prosperity to the farmer.

MRS. EDNA W. TRIGG

GEORGE BANZAFF

PIONEERS IN EXTENSION WORK

College tation, Texas, Jan. 23.—When Extension Service workers from all over the country meet in Houston February for the Twenty-fifth Anniversary Celebration of the service in the United States, Texas is expected to carry off the laurels for representatives with the longest periods of unbroken effort in the work to their credit. George Banzhaff, Milam County, Texas, agent, is accredited with longest period of unbroken service of any county agent in the United States. He began his work in 1908 in Milam County and is still serving that county as farm agent.

A Suggestion On Dairying

By MRS. R. L. NICHOLSON
Maysfield

In reading an article the other day, I was very much impressed by what Mr. High, the Tupelo banker, had to say about dairying. He told us the condition in which the boll weevil left them on his first visit. Then he tells us that they turned to the patriotic cow—the dairy cow.

After a few years of her service the banks have lots of money and the farmers all modern conveniences on their farms and in their homes.

His picture has all the earmarks of an enthusiast, but what we would like to know is how did they do it?

In changing from one to another kind of farming is expensive at best, but when a fellow is 'broke,' it is almost a tragedy to start with.

In going from a cotton farmer into the dairying business you have almost an entirely new outfit of implements and they are more expensive than those for making cotton.

Having lived in the edge of the dairying belt in Mississippi of which Tupelo forms the northern part, I may be able to give you a partial history of how it was done.

The bankers were the key men in the situation. The farmers, in their financial plight were ready to take a chance at anything that held out any hope for bettering their condition.

The real leader in dairy thought in Mississippi is J. S. Moore of the dairy department of the A. & M. College at Starkville and a specialist and prac-

tical dairyman, too.

The plan followed in most communities were this: The bankers furnished the money and saw that the farmer got money's value in good cows and better bulls. The best bulls are none too good to start with if a good herd is to be had.

Practical experts were brought in and real practical advice was given the farmers from the start. Remember this, with all manner of good advice you have to pay extra for experience.

The farmers started with a few good cows, raised all their hay and as much as they could of their concentrates to feed their herds. They literally grew into the business, with care, kindness, water in the feed lot, home raised feed and a good prepared pasture, not depending on native grasses alone, a man need have no doubt of success.

Yes, there is work in it, 365 days in the year, physical, yes, but also there is more room for mental gymnastics if a fellow tests his cows and seeks to give them a real balanced ration, which is the main road to success.

Here is a workable financial plan. The bankers furnish the money and superintend, with a specialist, the buying of good cows and pick their farmers for the experiment. Money should be had at six per cent.

The farmer should form a mutual

insurance Association for insuring the cows bought on borrowed money so that they could protect themselves and their creditors. Prepare for home raised feed and have some on hand before starting to buy a herd.

No one should start with over ten cows, if a man does his own work, four would be sufficient. Then he could make a fair crop and attend to his cows too.

You may forget all else, but remember this: "It's care, kindness, plenty of water and home grown feeds, always pay in the dairy lot."

Mr. High's words might lead one to think that in dairying there is to be quick and easy money, but don't expect either. The advantages and disadvantages in dairying are both found in that to succeed well, a man will have to be on the job every day, always on the minute if he gets best results. Fifteen minutes late in milking, will tell in the milk pail. Often irregular watering will tell for days afterward to your hurt.

Rightly done, dairying, though a dirty work will build you a rich gold mine in your farm and a reasonable profit on your investment 365 days in each year, give you a herd of milkers that any man in any walk of life might well be proud to possess.

Foremost farmers the selling of whole milk at first will be most profitable but for the faithful, intelligent farmer, selling cream, keeping a flock of good laying hens, a few hogs and the saving of his best heifer calves, to use his skim milk, will in the long run, make more money.

In the one you have only two sources of income, fertilizer and milk checks. In the other you will have six sources, fertilizer, cream checks, eggs, fliers, pigs, high producing cows to add to your herd, cheaper than you can buy them, for dairymen do not sell their best cows at any price.

The prices put out by the Cameron Milk Products Company for whole milk is higher in proportion to the price of cream than prevails in Mississippi. Don't think that from Mr. High's description of Tupelo that the town and county has eliminated all poverty, "These will be with us always," but Lee county has had a wonderful wave of prosperity from an intelligent use of the dairy cow.

Milam county, with Cameron in the lead can do likewise if we will co-operate as we can and should. My experience teaches me that the men put in the front of such a co-operative work, must be afraid of criticism, good bad or indifferent, it all will have the effect of getting the people interested so you can get the facts over and

that is what you want, after all.

Secret suspicion has been the deadly foe of co-operative plans more than all else combined. A good starter of this suspicion is for the leaders to begin to whine or squeal under criticism, even of the most unjust kind, coolness and openness of the leaders is the main cure for secret suspicion.

TICK FREE COUNTY IS AIM COMMERCIAL CLUB

TO ASK COMMISSIONER'S COURT TO RID STOCK OF FEVER TICK IN COUNTY

A committee from the Commercial Club will confer with the Commissioners court regarding the cattle fever tick in Milam county and will urge eradication workso as to free the county of this menace to live stock.

Tick eradication is looked upon now as necessary because of the interest being taken in dairy cattle. If shipped into this territory cows are subject to fever and in many cases die from the disease.

The following directors were present: C. S. Peyton, W. M. Cobb, F. S. Lesovsky, J. C. Young, F. J. Beckerman, Dr. James Watson, Rev. E. S. Hutcherson, W. H. Shipp, George Banzhaf, C. W. Lawrence and J. W. Watson.

The minutes of last meeting were read, corrected and approved.

On motion W. H. Shipp was added to the committee to interview Commissioners' Court on the necessity for freeing the county of the fever tick.

C. W. Lawrence warned the members against giving all their time to the dairy interests and recalled the fact that grape culture should not be neglected as the necessary acreage to make it a commercial success had not yet been secured. Mr. Lesovsky reported that F. E. Jackson has 25 acres in grapes and several others have five acres each. Mr. Jackson having bought cuttings from several who did not have enough for 5 acres.

On motion of Mr. Lawrence a committee was authorized to look into the grape situation. President Peyton appointed J. C. Young, E. S. Hutcherson and George Banzhaf on this committee.

Mr. Young of the committee on Home Industries and Factories reported that he had been working for two months on locating a feed mill in Cameron and was expecting to be able

to get one and possibly two such enterprises for Cameron.

Reference was made to a newspaper article calling attention to the need of a brick plant for Cameron.

Mr. Lesovsky referred to the high school athletic field that was recently filled in as a former location of a successful brick kiln, also one on the R. E. Sharpe homestead.

On motion of Mr. Young the suggested brick plant project was referred to the committee on Home Industries and Factories.

Mr. Beckerman, on suggestion of President Peyton, introduced his visi-

tor, Mr. Jensen of Houston, who expressed his pleasure at being present.

Dr. Watson stated that all the members ought to do more, ask people to attend the Chamber of Commerce meetings and back up the directors in their work.

Mr. Hutcherson endorsed this talk and said we should take more seriously the talk of Moulton Cobb in which he suggested that the club should meet in the daytime instead of night; that the larger firms should contribute more generously and that every member should vote in the election of directors, by mail ballot.

Do You Want to Sell Whole Milk?

If you do, fill in and mail the following blank to the Cameron Commercial Club. This information will be placed with the proper authorities on milk production and you will be given every aid possible in buying cows and in marketing your milk.

How many milk cows will you have February 1.....?

Estimated number of gallons milk they will produce.....?

If price is sufficient will you deliver to Cameron.....?

Do you want to buy more cows.....?

How many.....?

Do you wish to have the whole dairy business more fully explained.....?

Name and initials.....

Address....., Texas.

Buda's Dairy Development Sets An Active Pace

Symbolizing the spirit of Texas pioneers, Buda a south central Texas community, has stepped forth and made a place for herself in the sun.

Scarcely more than a year ago a small group of business men, headed by Dr. Clay Lauderdale and W. M. Woods, met to discuss the proposition of building Buda into a better place in which to live.

Buda is in Hays county on highway No. 68, and the Katy and I. & G. N. railroads. It has between four and five hundred population. It is the trading place for a once prosperous cotton growing agricultural section. Other than that it had little to commend itself to the world at large.

This background is given in order that you may appreciate the courage and hardihood evidenced by these men when they came together for the purpose of building up out of God-given resources a city that would attract and increase in population.

At this significant meeting held in the fall of 1927 Dr. Lauderdale suggested that they start a cheese factory. His suggestion was met with some ridicule and passed to a committee for investigation. W. C. Merritt, manager of the Texas Power and Light Company at San Marcos made an extensive research into methods employed by cheese makers in Wisconsin, and prepared a report on what some other communities had done in Texas up to that time.

When Mr. Merritt placed his findings before another meeting of Buda business men a far different attitude was taken by that body. A committee was immediately appointed to find out how much it would cost to put a plant in operation in Buda and to recommend a method of raising the necessary money.

Three months after the appointment of this committee, action had been taken on their report and the Buda Cheese Company was incorporated for \$2500 more than had been originally intended. The money was raised by popular subscription, 117 citizens evidenced their faith in the judgment of their community leaders by taking stock in the Buda Cheese Company and paying cash for it, even before a spadeful of dirt was turned toward erecting the plant.

Dr. Clay Lauderdale is president of the Buda Cheese Company, Dave Garrison, Vice-president, W. M. Woods,

Secretary and Treasurer, while J. L. Heller, G. A. Moore, John R. Howe and S. B. Barber together with the officers compose the board of directors. All these are business men and land owners of Buda.

The Buda Cheese Company opened for business with a capacity of 10,000 pounds of whole milk per day. Their first day brought to them from farmers within a radius of ten miles of Buda a total of 2500 pounds of milk from 61 patrons. Subsequently their patrons grew to 145 farmers who delivered 9500 pounds of milk per day. At the present time their patrons number 100 and their daily average of milk is 5000.

This considerable drop in production ability calls for explanation. And in the reasons for this condition exist some most significant facts for the consideration of every alert minded Texan.

First, understand that the Buda Cheese Company has its entire output sold in advance. Buda farmers, then, have a daily market for all the milk they can produce and the Buda Cheese Company is paying a fair price for this milk.

Reason one for the drop in production is poor roads which make it impractical for farmers to bring their milk during bad weather.

Reason two is that bad weather causes a natural lessening of production of milk from cows not properly housed.

Reason three is that competitors which had secured a large volume of milk from this territory at their own arbitrarily set prices are now raising their prices beyond that set by the Buda Cheese Company. The price which the Buda Cheese company has paid from the outset for milk was from fifteen to forty per cent higher than was then being paid by any other volume buyers of milk. The cheese company set their price because they could manufacture their product and sell it at a profit on that basis.

From this it is readily seen that development must be balanced. Good roads must go hand in hand with other improvements if the commonwealth is to profit, as a whole. It also is evident that educational work must be carried on among our farmers as to the proper feeding and housing of their stock.

Buda has taken her place in the

sun. This fact can not escape recognition. This little Texas community, unknown to hundreds of thousands of Texas people, has tapped a Texas opportunity, put it through the laboratory test, found it more profitable than even they imagined, and are now planning wider activities upon which to turn their pioneering energies.

This linking of the farmer and the business man in a program of common development is to be the working out of the vexing problems which beset our rural communities in Texas. It is inspiring to have one of these centers faced with all the dire conditions against which so much ranting is thrown, step right out in the open and point the way to their own salvation. Buda has truly taken her place in the sun.

Buda has produced results, tangible, definite and understandable by all. Within recent months there has been an increase of 25 per cent in local business. More than 75 per cent of this increase has been in cash transactions. Inquiries come daily for home sites. A better class of tenant farmers have been attracted to till the soil of Buda landowners. At the opening of the school season there was an increase of 68 pupils in local schools where the average increase for a number of years had been 6.

The Buda Cheese Company pays the farmers in its territory an average of \$5000 cash per month. The activity which they have thrown into the market for dairy products has kept the price of butter and cream up to practically double what it was before. They have given their farmers a year round market for their products. And whereas dairy cows were formerly selling for an average of \$65 per head they are now selling for an average of \$125 per head.

While the story of this young enterprise reads like romance it must be understood that these men have had their dark hours. They have run into some knotty problems. The fact that they have solved them satisfactorily is a tribute to their courage and faith rather than an indication that the problems were easy ones to deal with.

They have found that while operating under contract has given them and their farmer customers an assured market for all obtainable milk, they have at the same time found that it places them under the severe handicap of having to operate for periods on very narrow margins, and occasionally at actual loss. Therefore they recommend sufficient capitaliza-

tion to enable financing of independent marketing of products.

Dr. Clay Lauderdale, one of the prime movers in Buda's activity recently made this significant statement which is indicative of the humanitarian motives which must actuate any program which seeks successful fruition; "In the outset we felt that our proposition, whether it be a cheese factory or some other project, must be based upon the idea that it would be helpful to all the people whose lives hinge around Buda as a hub."

That is just what the Buda Cheese Company has done. It has been helpful to the banker, the business man and the farmer, as well as to those who have invested their money in the factory itself.

Texas bankers, Texas industrialists, Texas business men, economists and agriculturists may study the motives, methods and results of Buda's business men and farmers, and no one can do so without much profit to himself.

PASTEURIZED MILK FOR HOMES OF CAMERON

MILK PLANT INSURES CITY SANITARY SUPPLY OR MILK FOR HOMES AND BABIES

A little discussion but never the less an important feature of the milk plant to be opened here on February 1st will be the sale of pasteurized milk for the homes and babies of Cameron.

Frankly the management of the plant is stressing this important contribution to the food supply of the city.

C. W. Lawrence, president of the company, believes this will be one of the outstanding benefits of the plant.

A special installment of machinery will handle the milk supply for Cameron homes. Pasteurized milk will be delivered to your home at 13 cents per quart, a price cheaper than some milk dairies now sell raw milk and as cheap as any of them sell milk.

Trucks to deliver the milk to the homes of Cameron will be in operation. The milk will be sold on a cash basis at 13c per quart. For the convenience of the public milk tickets can be purchased.

Already some of the dairymen have signified their intention to set aside

some of their cows for milk for the plant. In time it is believed that all dairies will sell direct to the plant.

Dairymen now have to deliver their milk and run their business on a credit basis and thereby take losses in accounts. If they sell direct to the milk plant they will get cash and will be able to eliminate a large part of their present expense and make more money from their cows.

Inviting Trouble

Texas auto owners who defer the payment of their automobile tax until after February 1 in the hope that the legislature will reduce the tax and make it retroactive are probably inviting trouble. A Dallas legislator has announced that he has not paid and will not pay the tax and advises others to follow his example. Perhaps the auto tax will be reduced, but there is hardly a chance that any reduction will apply to the tax collectible the first of January, for such

things are not done by legislative bodies. A ten per cent penalty and a fine for driving a car without paying the year's license fee will likely be the cost of delay beyond February 1.

Real Tragedy

Poor lass, she sobbed and sobbed and sobbed, it almost broke my heart to hear'er. And when I cried, "Why weepest thou?" She moaned, "I've lost my pocket mirror."

No Words To Waste

Two farmers met on the road and pulled up.

"Si, I've got a mule with distemper. What'd ye give that one of yours when he had it?"

"Turpentine. Giddap."

A week later they met again.

"Say, Si, I gave my mule turpentine and it killed him."

"Killed mine, too. Giddap."

Congratulations

To the American Milk Products Company on the opening of the Milk Plant, February 1st.

Cameron will profit by this industry and the farmers will be a step further toward independence thru the sale of Milk and other produce of the farm.

Peter Produce Co.
Cameron, Texas

Congratulations

To the American Milk Products Company on
the Opening of the Milk Plant on February 1.

The prosperity of the community depends upon the progress of the farms in finding an outlet and a cash market for their products.

The Milk Plant will open up to the farmers a profitable business and enable them to get better returns from their work.

S. E. BROGDON
An Agency That Service Built

Borden Comes To Texas

Huge Plant at Waco

From Texas Opportunities

Climaxing a period of organized dairying development in McLennan County, Texas, comes the announcement that Waco has been selected as the site of a \$500,000 plant to be built by the Borden Milk Company. With 15,000 cows pledged by more than 2000 farmers, it is expected that within two years the new institution will see delivery at its platform more than 300,000 pounds of milk daily.

At a mass meeting of farmers and business men of central Texas held recently at the Waco Chamber of Commerce, Walter Page, general manager of the Borden Company, outlined plans of his company and took as the theme of his remarks the turning point toward assured prosperity for Texas agriculture represented by the entrance of milk manufacturing capital into the state.

Mr. Page said no project of this kind ever before had been undertaken, but that it was his firm conviction Texas and his company, working together, could make the undertaking a success. As proof of this statement he outlined results already obtained at such points in Dixie as Starkville, Miss., Lewisburg, Columbia, Shelbyville, Pulaski and Fayetteville, Tenn., at all points of which milk manufacturing establishments have proven the success he prophesies for central Texas and most of them within a period of less than four years.

Proving the results obtained in Starkville, Mr. Page showed that in 1927 Octibbeha county had its largest cotton crop and still the value of its dairy products exceeded the return on the staple.

"Intensified and diversified farming wins prosperity and prosperity sells contentment and happiness," declared Mr. Page. "Dairying must be added to the present farm activity of the south. Farmers should produce just as much cotton, too, as they did before, but produce it on less land. Dairying will provide the monthly income ample to care for the farmer's daily requirements. That which he obtains at the same time from his one crop operation becomes his surplus or money crop return. That so far and with-

out exception has been the result obtained where our capital was invested in the south."

The Borden company's new Waco plant will be one of the outstanding plants of the south. Powdered milk will be manufactured in the first constructed unit and units for manufacture of other products will follow as fast as results in milk supply warrant.

"Never has there been undertaken such a project, converting a one-crop county to diversified farming on such a large scale," concluded Mr. Page. "This is made possible because of Waco's Chamber of Commerce, theceptive attitude of farmers in McLennan, Navarro, Milam, Robertson, Falls, Basque, Coryell, Hill, Limestone and Bell counties and because my company is willing to join in this great work. The project properly put thru will stand out as an example to all Texas that it can diversify; that it can produce and consume more of its agricultural products."

This project, too, is simplified due to the fact that Borden's manufacture and distribute all kinds of dairy products throughout Texas.

"You will have to hustle to put this thing over, and I do not believe you of central Texas will have anything to boast of unless you put it over in a big way," he said.

The speaker stressed the importance of good highways, declaring that good roads and dairying go hand in hand. He also emphasized the fact that although Waco had the main plant unit, other communities would have the regular monthly paycheck from delivery of milk. He urged the audience to go out and preach the gospel to the farmers of raising just as much cotton, with dairying, as before, but on one-half the acreage, and as he said this, he was applauded vigorously.

"It might be interesting to you to know of the value of condensed milk. I can best explain it in a comparative way. If all the canned milk supply in the United States was put into cars forming an endless train, it would take more than seven hours for the

fastest train to pass one years production.

Variety of Locations

"The Borden company operates plants in Nova Scotia, Ontario, British Columbia, Washington, California, Oregon, Utah, Wisconsin, Kansas, Illinois, Michigan, Pennsylvania, New York and now we're going to open one in Texas.

"As I through the courtesy of your citizens rode over the country in this district, I could not but realize that the full opportunities afforded by the land in central Texas had not been made use of. Nature gave to this section as good land as I've seen anywhere, but you have not taken advantage of all that you have.

Helping Man to Help Himself

"It is better to help a man help himself than to give him something. Helping him help himself teaches him something. I recall one visit to a one-crop territory which almost brought tears to my eyes. Children were without shoes, some without hose and some had clothed their nakedness with only a flour sack. They needed help, and I convinced my company that we should put in a plant there. The people are now paying off at the banks and the cows are lifting the mortgages.

"When one of our plants go into a community, we become a part of that community, because the community's interests are our interests and when I say 'we' and 'us' I mean exactly that.

"Permit me to call attention to your highways, they are absolutely necessary for the success of the dairy business. Good roads from the farms to the plants are necessary in order that milk may be delivered each day, and the delivery of the farmer's products must be done economically.

Dairying and good roads go hand in hand and so I say to you, work for good roads. Let it not be said that some farmer could not deliver milk because of poor highways.

"Although Waco has the central plant, this in no way detracts from the value of the firm to other communities. After all it is the monthly pay check that counts.

"Some of you may say that this fellow is trying to stop you from raising cotton. I don't say that, but I do say to you to go out and preach the gospel of raising the same amount of cotton on half the land. It can be done and the people of McLennan county have as much determination and persistency as any other class of farmers.

"It would be foolish for me to try

to tell you the price we will pay for milk. But wherever we locate we desire that the farmers prosper, for upon the agricultural prosperity depends our success. And wherever a milk plant of ours has been located, there has been agricultural prosperity and I say that without fear of criticism from man or God. Dairy products maintain a better price relation to general commodity prices than anything a farmer does.

"The only way to go after this proposition is with enthusiasm, or courage on fire. Success follows a dairy cow. Let's see how many pledge their support to this project?" and the speaker had scarcely finished his sentence before the assembly of farmers and business men arose en masse simultaneously with prolonged applause.

Dr. C. D. Pearce, of the Borden bureau of dairy development, followed Mr. Page on the program, being introduced as the "strong arm and scout" of Borden's.

Dr. Pearce followed Mr. Page to outline the practical angles of the dairy industry in this section. He was introduced as the "strong arm of and scout for Borden's." Dr. Pearce said he had "scouted" east, south, west and north Texas and believed the Central Texas area was the best of all for the dairy project. Pointing out that Gail Borden, the company's founder, was a Texas pioneer, he added that here in this day the Borden company thus was still pioneering in Texas.

"A good dairy cow will average 4500 pounds of milk per year," he declared, "and weighs around 1000. Thus she gives four times her weight and you still have the cow. To regain your investment in hogs you must kill them. And Central Texas is favored by nature for the dairy business. I would divide your lands into three classes: (1) alluvial soils along the creek valleys suitable to the raising of legumes, alfalfa, soy beans, etc.; (2) prairie soil, threatened with root rot, but yet available for raising legumes; (3) mixed lands which are very productive for all dairy feed crops. In fact, all of your lands are adaptable to raising requisite feed stuffs. Consult your county agents in the matter. Corn, sorghum, maize and grain all will grow here, and your best bet is sudan, sorghum and maize.

"Most of your pastures must be created but that is in your favor, for created pasture supports a cow to the acre, while usually a natural pasture requires 10 acres to support one cow. Your sunshine is fortunate and

its continuity will put the much needed vitamins into your feed. Nature has endowed you of Central Texas with all potentialities for dairying and the only thing you have lacked has been a market."

Location of this new plant in Texas is in the nature of a home-coming. Gail Borden came to the State in 1829 and engaged in stockraising. Texas was then a colony of Mexico. He was a representative at the convention at San Felipe in 1833, which petitioned the government for separate statehood. He was a friend and counselor of Stephen Austin, and is credited with having made the first topographical map of Texas.

In 1835 he and his brother with Joseph Baker, gave Texas its first newspaper. Gail Borden held several political offices, including that of public printer, and later, collector of customs at Galveston, which he himself laid out and surveyed. Leaving Texas he went to New England, and, after several years of experimentation he perfected the process of condensing milk. His invention attained a certain degree of success in connection

with the conduct of the Civil War. The popularity of condensed milk steadily grew from then on.

Following the war Borden returned to Texas and died on his ranch at Borden in South Texas. Borden County was named for him, as was Gail, the county seat. To his South Texas ranch he imported Brahma cattle from India, an adventurous undertaking of high subsequent importance, owing to the fact that these cattle proved tick fever resistant and have been valuable in crossing with American beef breeds.

BIG SPRINGS FARMER CLEARS \$10 DAILY FROM SALE OF CREAM

Big Springs, Texas, Jan. 12.—Sam H. Stamps, a farmer living 18 miles west of Big Springs, sold to the Snowwhite Creameries here during 15 days, in December 1050 gallons of milk, netting him \$336.33. Mr. Stamps is milking 29 cows and feeding forty, paying two men and clearing \$10 a day from his herd. He feeds one-half balance ration. The balance he grinds and mixes.

CONGRATULATIONS

To The American Milk Products Company

When the plant of the American Milk Products Company opens here on February 1 a progressive movement will have been inaugurated for the benefit of the dairy farmer as well as the community at large.

We congratulate the men whose spirit of progress and help is making this industry possible.

FIRST NATIONAL BANK gives its encouragement to every progressive move for the betterment of Cameron and believes that the engagement by farmers in dairying along profitable and conservative lines will do more than any other thing to insure proper financial income for the farm and bring prosperity.

We invite your attention to the strength and helpfulness of this bank assuring you of our appreciation of good will and confidence that has enabled us to grow and give unexcelled banking facilities for over thirty-eight years.

Bring Us Your Milk --- 53c Per Pound For Butter Fat

Attention Mr. Dairy Farmer:

The American Milk Products Company will maintain a cash market every day in the year for your milk. This plant, equipped with the best and most modern machinery that money can buy, is built on the basis of confidence and co-operation. To make it succeed you must be a part of it. The plant is established because need exists for dairying and also because the dairy farmer needs a cash market for his products.

The American Milk Products Company will meet the needs along this line. We will pay top market prices at all times for your milk and we are interested in helping you invest in good milk cows. If you have not made your plans to bring your milk to our plant, do so at once for it means money to you.

WILLARD REESE
Manager

What This Plant Means

This milk plant means prosperity for our community. Wherever these plants have been established and farmers have engaged in selling milk, prosperity has come to the farms, good roads have followed and better conditions have been noted in every instance.

Cameron and trade territory is better situated than most communities. We have the roads and now that we have the milk plant, paying 53 cents per pound for butter fat and able to handle 22,000 pounds of milk a day. Co-operation is all that is needed to bring prosperity and make of this plant a success.

The income of the farm can be increased to an unbelievable extent if the farmers will engage in selling milk. This can be done as an adjunct to the farm and the few minutes spent each day in taking care of your cows will return great profits to you.

Hudson F-Head Motor Design

In the motor of The Greater Hudson, the combination of valve-in-head with valve-in-side principles—known as the F-head design—has been carried to additional power, the actual output having been raised from 80 to 91 horsepower.

"It takes little in the way of engineering knowledge to realize that the trend in automobile power plants is constantly toward greater speeds and higher compressions," said Courtney Johnson, General Sales Manager of the Hudson Motor Car Company at the Show last night. "Our own contribution to this branch of progress is the high-compression, high-efficiency F-head motor in which acceleration, power and fuel economy are more noteworthy than ever."

"Heretofore the trouble with high-compression motors has been the fact that they were subject to spark knocks pre-ignition, roughness and other undesirable features, or these defects the solution has been found in the Hudson -head design which gives us a combination valve-in-head and valve-

in-side engine in that the intake valve is located in the head and the exhaust valve in the side.

"In our motor, which this year has been still further refined, the intake valve is located just above the exhaust valve. This has the effect that all liquid or unvaporized fuel particles are subjected to the heat of the exhaust valve and chamber, which dries and vaporizes them for the incoming cool mixture that it never reaches the overheated condition that is common with many other engines."

By moderating the temperature of the exhaust valve, our engineers not only prevent pre-ignition and knocking, but they cause the motor to utilize the entire gas charge, with the result that our motor delivers 91 horsepower with a remarkably low consumption of fuel."

FROM THE FILES OF THE CAMERON HERALD

28 Years Ago

The City Council in adjourned session Thursday afternoon at two o'clock with the following officers and members present: J. M. Ralston, Mayor; O. L. Kidd, City Attorney; C. P. Beatty Secretary; R. Y. Stedman, Marshal. J. M. Hooks, Tax Collector; Tom Peoples, S. G. Boyles, F. Rendor, S. B. Ford, J. T. Westmoreland, Aldermen.

Last Tuesday night the Knights of Honor installed their new officers for the ensuing term. The following were duly qualified and installed: Monta J. Moore, John T. Arnold, T. M. Dobbins, Walter McGregor, J. J. White, J. C. Creel, C. W. Lederer, T. C. Stafford, F. E. Wilhite, J. B. McLane, J. T. Randolph and W. T. Smith. It was decided by unanimous vote of the members present that on the next regular meeting night, Feb. 5, there would be an oyster supper given to the members of the hall. All members are requested to be present.

Honor Roll

First Grade—Lucile Avriett, Olive McGehee, Nell Streetman, Ella Lallier, Hazel Marsh, Juanita Stafford, Harry Cross, Lee Lyles, Preston Stedman and Nathan Gruble.

To A
MOST IMPORTANT GROUP OF MOTOR CAR BUYERS

Certain American people are getting on in the world. Many of them are just starting. But they're headed up the ladder. Their ideas of luxury and beauty are expanding. They want finer homes, finer furniture, finer automobiles.

During the past three years, hundreds of thousands of these progressive Americans have been buying the Pontiac Six. Some of them have bought it as the first car they ever owned. But to most of them, Pontiac has represented the first big step up from the lowest priced field.

For this progressive group, Oakland has now created a brand new Pontiac Six. It represents an even greater advancement over everything else in its field today than the original Pontiac represented in 1926. It will take its buyers farther than ever up the ladder of motor car quality in one step. Watch for the

Which she will make when summer comes again.
—Aldrich.

Big things are coming to pass in the life of Cameron. On Friday, February 1 the 22,000 pound capacity plant of the American Milk Products Company will be opened for business. An interesting eight page section is printed in this issue of The Herald telling of the wonders of this plant and the potential outline of benefits to accrue to the farmers in the sale of milk. The plant has the backing of business men whose experience will make it a success. But beyond that, the greatest thing is the prosperity prospects it holds out to the farmers. The dairy cow if properly handled will make this section rich as it has done many other sections of the United States.

Farmers are not expected to leave off the planting of cotton or other major agricultural crops. The dairy cow should be kept in connection with the farm, her care taking only the spare hours from the field. The daily sale of milk to the plant here at 53c per pound for butter fat, will bring an income sufficient to balance the farm income and lead us to agricultural prosperity.

Cameron homes are interested in the sale of pasteurized milk. In a day or two following the opening date of the plant the housewives should visit this plant and see for themselves the absolute sanitation employed in caring for the milk for the homes. The opening of this plant is the greatest forward movement in the history of the county.

"A man about 46 years of age, giving him the name as Joshua Coppersmith, has been arrested for attempting to extort money from ignorant people by exhibiting a device which he says will convey the human voice over metallic wires so that it will be heard at the other end by those who listen. He calls the instrument a "telephone" which is obviously intended to imitate the word "telegraph" and win the confidence of those who know of the success of the Morse system. It is impossible to transmit the human voice over wires and if it could be done it would have no practical value. The authorities who apprehended the criminal are to be congratulated." This item appeared in a New York newspaper 62 years ago. The way of achievement, even in those days was not free of criticism and discouragement.

One of the happy experiences of life is to find an individual who is pure gold, and one of the most disappointing things that can come to us is to discover that the heart that we thought was all fine gold is filled with creaper dross.

Roger Babson, business statistician, lists seventy opportunities to become a millionaire. Among others he mentions watches run by radio, self finding golf balls, precast tunnels, volcanic power stations, automobiles that can run sideways for parking and a method of changing birch into mahogany. Some day someone will seize every one of these opportunities.

Wonders of science are following each other so rapidly these days that we can even speculate on the possibility of instantaneous transportation of physical substances from one place to another. Think of what it would mean to be able to step into a transmitting apparatus in New York and be able immediately to walk out of the receiving mechanism in London without having to resort to ships or airplanes. Of course there isn't a single scrap of evidence to indicate the possibility of any such marvelous development, but the impossible has been accomplished many times.

The biggest crabbers about the town are the fellows who never give on the Chamber of Commerce budget and who have never given a day of their time in community service. The reason some towns do not grow is because there are too many trying to ride who ought to be pushing.

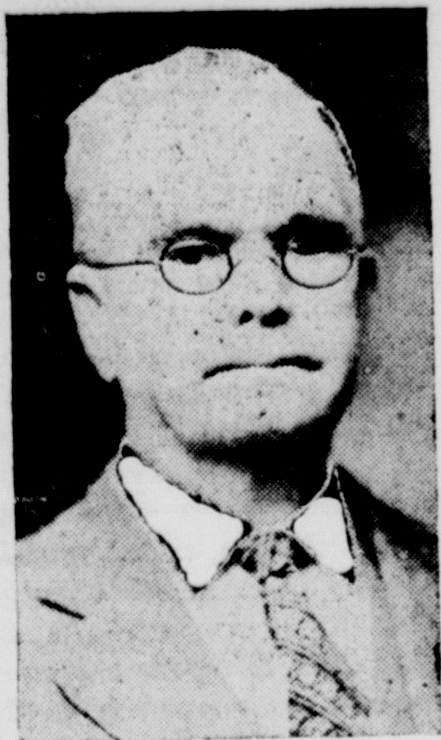

DAN COLLINS SUCCEEDS MOULTON COBB WITH CAMERON ENTERPRISE

Dan Collins who has been advertising manager for the Cameron Herald for more than a year, has accepted a position with the Cameron Enterprise to succeed Moulton Cobb who is to return to Bryan where he will engage in the insurance business. Mr. Collins has the well wishes of his friends of The Herald staff who regret his leaving the service of the pioneer paper. Mr. Cobb returns to Cameron about once a year to take over the editorship of the Enterprise for several weeks in succession, but has found it impossible to remain for any period of time.

One of the leaders in industry here Mr. Lawrence is head of the American Milk Products Company and believes the plant will be one of the most successful industries in this section of Texas.

REVIVAL FOR BAPTIST CHURCH MARCH 3 TO 17

DR. MILLARD A. JENKINS AND S. J. T. WILLIAMS WILL LEAD IN CAMPAIGN HERE

Dr. Millard A. Jenkins and Rev. S. J. T. Williams have been secured to lead in a revival meeting March 3rd to March 17th. The meeting is to be held for the First Baptist church of Cameron. Dr. Jenkins is pastor of the First Baptist church at Abilene and Rev. S. J. T. Williams was for the past four years business manager of the Will Hogg Evangelist party. The Hogg party was to hold a meeting in Cameron the latter part of November last year. It is believed by the pastor of the Baptist church and others interested that this is to be one of the most far reaching meetings that has ever come to Cameron. People of all churches and those of no church will be invited to take part in the meetings. Dr. Jenkins is a n outstanding preacher and teacher of the Bible. Mr. L. C. Gayle will have charge of the music, old fashioned singing will be featured at each service. Mr. Williams said, "I will be sadly disappointed if there are not literally hundreds of men and women brought to Christ in this effort." Plans are being worked out for young people's meetings each evening, in addition there will be children's meetings held for all the children in Cameron. Churches throughout the county are planning to attend the meeting.

Felix Matula Starting Cash Grocery; To Open Within a Few Days

Cameron is to have another cash grocery operated on the principle of the greater grocery systems. Felix Matula and Company this week are making extensive improvements in their store this week preparatory to opening of the cash grocery within a few days.

Mr. Matula has definite and well laid plans for the store and when the arrangements are completed the grocery will be one of the most attractive in the city.

The cash and carry grocery business first inaugurated in Cameron by Jeff Hefley some two and a half years ago has to a large extent revolutionized the business here. Cameron now has five cash groceries.

Mr. Matula will make special announcement of the opening some time next week.

It was not so long ago that Edison's phonograph presented to the French Academy of Sciences, was denounced as "impossible, a rascal's trick of ventriloquism." And in 1843 an official of the United States patent office resigned because "it is impossible to discover anything new and it is only a matter of months until this office will be forced to close through lack of business."

AKERS BROTHERS WILL HAVE A MODERN PLANT

CONSTRUCTION BEGUN ON BOTTLING WORKS FOR COCA COLA COMPANY HERE

Construction work has begun on the new building of the Coca Cola Bottling Company, owned and operated by Akers Brothers of Cameron.

The big plant which is to be modern in every detail, is located on the property owned by the Akers Brothers across from the Jack Owings filling station. This property was purchased last year by the firm.

J. A. Walston has the contract for the construction and the materials for the job are being furnished by Jeter Lumber Company.

The Akers Brothers came to Cameron a few years ago and began their business and they have seen the business grow to large proportions. They are progressive business men and both are active members of the American Legion.

The building will be of brick construction with a portion of the plant a two story building.

WILL OF MRS. W. H. TRIGGS IS FILED FOR PROBATE

The will of Mrs. W. H. Triggs, deceased, was filed for probate this week. Mrs. Triggs bequeathed \$2000 to Southwestern University at Georgetown and the remainder was left to her children.

PURITY OF MUNICIPAL WATER SUPPLY PROBLEM WOMEN HAVE KEEN INTEREST IN, SAYS WOMAN AT SHORT COURSE

(From Bryan Eagle)

"It is really thrilling but yet I feel so conspicuously important being the only woman at this school," said Mrs. Gladys M. Watson, office supervisor of water works at Cameron, who is attending the eleventh State Water Works School now in session at A. & M. College of Texas in the civil engineering building. "There should be more women in this work for primarily this is woman's interest and though I feel so alone among all these men, at the same time I feel that women are neglecting a field of vital interest and that she should have an active part in. By this statement I mean that the housewife has as one of her big interests the health of her family, and that broadens out into the health of her entire community. The water department of any city is in co-operation with the health department, the repository for the safe-keeping the city's health."

"A woman engineer, an educated woman who has attained a school of engineering and knows whereof she speaks, is the person to have the personal contact with the housewives and help them in solving so many of the questions that come before them every day. I am daily besieged by women with questions concerning the water supply. Why does it taste this way, does typhoid come from the water? I must be able to answer. This is one reason I came to the school in order to find out some of the answers to the many questions that come to me each day."

Mrs. Watson, who radiates abundant health and whose striking personality grips one with her first words went on to explain in detail some of the engineering problems she has to meet and how she solves them. She gave several experiences where families had become stricken and in order to find the source of the disease water tests were made. If the water is contaminated then it is the engineer's business to find where the contamination occurs. Sometimes water pools form about the joints of the pipes and if there is a suction in the pipe a seepage may occur and contamination of the water result. Becoming technical she explained how the water pipes are chlorinated before the water is turned into them in order to thoroughly sterilize them against contamination of the water supply of the city.

"Yes," she said, "the water works engineering department should certify."

ARREST OF WHITEY WALKER IN BUFFALO RECALLS SENSATIONAL JAIL BREAK AND CAPTURE BY SHERIFF IN LONG CHASE

Arrest in Buffalo, N. Y., on last Friday of "Whitey" Walker where he was held in connection with murders alleged to have been committed by the Pendleton gang in the Southwest, recalls vividly to mind the sensational jail break of Walker from the Cameron jail on the night of May 13, 1925.

His wife, a French brunette and a sister of Ray Terral, noted bandit, waited outside the grim walls of the jail that night and when the noted outlaw had saved his way from the cells, spirited him away in a car.

When Sheriff Blaylock discovered the escape he gave chase and after an exciting automobile run across the state he captured Walker in Corigan, Texas as he was speeding for the Louisiana line and safety. Walker was awaiting trial for burglary when he escaped jail.

He was convicted and given five years in the state prison. Walker planned escape and a pistol was taken from him in the field of one of the farms. The gun had been smuggled to him. He was later pardoned by Governor Ferguson.

Walker is wanted in a number of

AIRPORT ASSURED WHEN CLUB HERE TAKES LEASE

SHORT FARM NEAR MARLOW IS SECURED FOR LANDING SITE FOR PLANES

A landing field for airplanes has been obtained on the Short tract near the Marlow school, according to Hayden Lawrence, head of the local aero club.

This field is a step toward bringing the benefits of air transportation to Cameron.

Two planes on their way south landed at the field Sunday, one of them requiring 20 gallons of gasoline.

Preparations are being made for advertising this landing field and to direct air travel to this terminal as ships pass over this section in state and interstate flights.

The Cameron Aero Club now owns one Curtis plane. Private planes are not a distant future necessity. The Ford Motor Company now has a sales force in the field selling planes. Soon the dealers will display, sell and service them.

Cameron is going forward all because a few pioneering spirits are looking ahead. The Herald was the first newspaper to urge a landing field here and Hayden Lawrence and associates are the first to bring air transportation possibilities to Cameron. We are progressing fast say those in touch with the city's interests.

ARREST OF WHITEY WALKER IN BUFFALO RECALLS SENSATIONAL JAIL BREAK AND CAPTURE BY SHERIFF IN LONG CHASE

CAMEO FLOWER SHOP TO OPEN HERE SATURDAY

CHAIN FLORAL ENTERPRISE IS GIVEN WELCOME TO THE FRIENDLY CITY

Cameo Flower Shop to be located in a portion of the Yoe building occupied by the Keith Electric Company will open Saturday, January 26 from 3:00 p. m. until 8:30 p. m.

The shop will be in charge of Miss Enid Reaks of Temple, who has been with the Bell Floral Company there.

The announcement of the opening of the shop will be found in this issue of The Herald, an attractive statement prepared by Dick Reaks of the Bell Floral Company of Temple who is one of the progressive men of the floral trade.

When the Cameo Floral Shop opens here Saturday afternoon at 3 p. m. there will be on display a gorgeous collection of flowers in varied designs and the people of Cameron are invited to visit the shop during the hours of the opening.

Miss Enid Reaks will be here to greet you and she will be glad to have the women of Cameron and the business men to visit the shop.

A comparison is invited, says Mr. Reaks both as to prices and art worked into the designs. Speaking of the shop Mr. Reaks says: "You will be pleased to know that you will have dependable flower service. A mobile force of 12 expert designers will be available on an hour's notice. A adept designer will be on hand at all times. You may send flowers to any part of the world through our telegraph service. We are represented in every city in the United States."

"The Cameo Shop is one of a chain, buying in quantities. Waste is eliminated and overhead is reduced. Quick turnover guaranteed. The chain store gives you this advantage over private enterprise. We invite the people of Cameron to visit the shop on opening day and to open their accounts. We want to get acquainted and to be a part of your fine city."

Those in touch with the establishment of the shop here said Thursday that indications are the hours from 3 p. m. until 8:30 will see hundreds of people calling at the shop to view the flowers and to learn more about the service of this nation wide floral chain store.

Kent Disposes Of Refinery Share

Corsicana, Jan. 22—C. A. Middleton and associates Tuesday own all of the interest in the Kent-Middleton Refinery Company, formerly held by G. C. Kent. Sale of the Kent interests was announced here Monday night. Consideration is understood to have been \$500,000.

The company owns a 4000-barrel refinery here and several filling stations, 140 shallow producers, 100 miles of pipe line and a 2400-barrel refinery in Milam county.

PROSPERITY OFFERED IN DAIRYING HERE

MILK PLANT OPENING HERE FEBRUARY 1 WILL BRING IN NEW ERA FOR CITY

Reports coming to the desk of the editor this morning indicate that a widespread enthusiasm is being felt in all sections of the county and trade territory for the opening here on Friday, February 1 of the plant of the American Milk Products Company.

Zone meetings held over the territory by Willard Reese, manager of the plant, have brought the farmers in close contact with the big possibilities of the industry.

But for the shortage of cows in this territory this plant would be operating at capacity within a few days after the opening.

The publicity given to the plant here has aroused interest over a wide section of the state and the need for cows has brought forth a number of offers of cows for sale. It is known that some local herds are being offered and all those interested in buying cows and selling milk should get in touch with the Commercial Club or the managers of the milk plant.

MAYTAG SHOP OPENING ANNOUNCED FOR CITY

H. E. LEMM OF WACO MOVES TO CITY WITH FAMILY TO MAN-AGE SHOP HERE

The Maytag Shop is the newest business enterprise for Cameron.

In the building of the Keith Electric Company may be seen a large number of the latest models of the Maytag washing machine, the fastest selling machine for that use in America.

The new Maytags are exceptional in design and in simplicity of operation and are declared the most successful washing machine ever invented.

The Maytag Shop was opened here Monday when G. F. Schmidt, district manager, arrived here in company with H. E. Lemm who is to be the local manager. Mr. Lemm formerly resided in Waco but with his wife and three children are now residents of Cameron. Mrs. Lemm will have charge of the shop while Mr. Lemm will be salesman for the Cameron territory. The people of the "Friendly City" will be pleased to welcome them to Cameron.

The home office for Texas is in Dallas. The Maytag washing machine is manufactured in Newton, Iowa, the largest output of washing machines in the world. Last year the Maytag outdied all other makes by 52 per cent. The largest shipment of any manufactured product in America was made when eight solid train loads of these machines left the factory in Iowa. No shipment of any nature has (Continued on last page, this section)

Cruz Garcia Gets Five Years for Killing of Carlos Rodriguez

Five years in the state prison was the verdict in the case of Cruz Garcia on trial here for killing of another Mexican.

The case of State of Texas vs. Cruz Garcia charged with killing Carlos Rodriguez on September 29, 1929 on the Baskin farm near Maysfield has been on trial all this week. The defendant is represented by Mr. Simmons of San Antonio and the State by A. J. Lewis, county attorney.

The case is being tried before Judge Few Brewster of Belton who is sitting in exchange with Judge Watson who is holding court in Belton.

Judge Brewster was formerly District Attorney of Belton and was elected District Judge at the last election.

The jury was selected out of a total of 125 men. Following is a list of the jurors: E. E. Allison, Robt. Conner, Geo. Buffington, W. J. Williams, R. O. Harper, Richard Ludecke, J. M. Fuller, W. A. Conn, Homer McLane, Charlie Swift, W. B. Denson and A. D. Henderson.

Journalistic Club Is Organized At Yoe Hi

Students of Yoe High School have organized a Journalism Club which will sponsor the publication of a school newspaper, the first edition of which is promised for next week. The paper will appear every two weeks, and will be four pages in size. Details have not yet been worked out and the staff is not prepared to announce what the name of the paper will be or what subscription will be used.

Florence Atkinson has been named Editor-in-Chief, with Frances Sharpe and Thomas Graves her assistants. Harvey Yoe will be business manager and Dean Allen, assistant business manager. Other members of the staff both editorial and technical are as follows: Sports editor, Cyrus Miller; humor and feature editor, Sam Mewhinney, with Ben Heald, Felix Gresham and Charles Knipp assisting; club editor, Nancy Rea Slocumb; school news, Lois and Ruby Robbins; exchange editor, Mary McDermott; head reporter, Geraldine Slaughter; assistant reporters, Dora Emily More, Mary Jane Burnett, Lilian Thach and Frank Hubert; make-up editor, Bernice McLerran; copy reader, Frances Sharpe; assistant copy readers, Sue Ella Tyson, Evelyn Grubbs, Margaret McCown and Vernon Slocumb; typists, Evelyn Grubbs, Bonnelle Neinast and Marie Havlik.

Would You Attend a Business College

Realizing that a great number of young people are deprived of an opportunity of attending a business college because of the lack of money, our STUDENT LOAN FUND ASSOCIATION was created for the express purpose of furnishing the necessary help to worthy boys and girls.

We have selected the Tyler Commercial College of Tyler, Texas as the college we can most consistently recommend. This is one of the oldest business schools as well as one of the most widely known for its thorough work and its successful graduates out in the world of business.

We have made arrangements with the Tyler Commercial College by means of which we can take care of a limited number of young people thru our loan fund.

If you are in good standing in your community and can furnish the best of references, we shall be glad to help you. We have helped a number of deserving young people in the past who are now independent wage earners and enthusiastic boosters for our Association.

We are especially interested in helping young men and young women who have been forced on account of financial reasons to drop out of high school or college.

In order to receive help from this Association it is only necessary to clip the coupon attached and mail it to us or to the Tyler Commercial College. We can then work out a plan whereby you will be enabled to enter the College even though your funds are limited.

Clip out the coupon and mail it to-

SHERIFF'S SALE

The State of Texas,
County of Milam,
Whereas, on the 16th day of November A. D., 1928, in a certain cause numbered 1001 on the docket of the District Court of said county, wherein the State of Texas is plaintiff and Henry F. Lippman, Bertha Lynch and Eunice Dill are defendants, the said plaintiff recovered judgment in the amount of Two Hundred thirty-five and 88-100 dollars for taxes, and legal amount penalties, costs and interests computed thereon, together with the foreclosure of plaintiff's delinquent tax liens upon the property herein-after described as the property of the defendants, because of non-payment of the taxes due thereon;

And whereas, on the 4th day of January, A. D. 1929, by virtue of the said judgment and the mandates thereof, the Clerk of the District court of said county did cause to be issued an Order of Sale, commanding me as Sheriff of said County to seize, levy upon and sell in the manner and form as required by law the hereinafter described property as the property of the above defendants, to satisfy the said judgment.

Wherefore, by virtue of the said Order of Sale and the mandate thereof, I did on the 5th day of January A. D. 1929, seize and levy upon as the property of the above defendant, the following property, to-wit:

98 1-2 acres of land on the David Gallagher League in Milam County Texas, and beginning at the N. W. corner of the Common 50 acre tract, same being the N. E. corner of the Vernon Russell 150 acre tract for the N. E. corner, of this; thence with the

TIRED, BLUE

Took Cardui And Improved Greatly, Says Okla. Lady.

Mrs. John Shipp, 2314 Maple Street, Oklahoma City, Okla., says:

"Two years ago, I was in very bad health. I was so weak and run-down, I could scarcely keep going. 'My mother thought I ought to try Cardui, and told me to get some and take it. I could eat nothing, as I had no appetite. 'I found great relief after I began taking Cardui. I was able to eat and I could sleep. Before that, I had been so nervous that the least little thing upset me. I was low-spirited and blue. I got thinner and thinner, and I was always tired.'"

For sale by all druggists.

ESSEX

THE CHALLENGER

NO EVADING THIS CHALLENGE

76 ADVANCED FEATURES

Here is a challenge that rings with fulfillment. Its bid is to all who would own the best, and no car is excepted.

In Fast Getaway—against the champions of any price class. In Speed—anything the road offers up to 70 miles an hour. In Endurance—60 miles an hour all day long is being proved by thousands. In Hill-climbing—give it the hardest task you know. In Size and Roominess—match with big cars of large passenger capacity. In Appearance and Smartness—compare it with the costly cars, in which high price is paid for just those things. In Economy—against small light cars, whose chief appeal is economical operation, and which do not contend for performance distinction.

These are but a few of the 76 advanced features which a million Super-Six owners are appraising in Essex the Challenger. Come examine and drive it. It will not only win your endorsement, but challenge your ownership interest against any value that motordom may offer.

JONES PRAIRIE

By MRS. R. K. FONTAINE

Miss Jewell Hickman spent Saturday night with Selma Jamison.

Miss Ollie Mae Smitherman is under treatment at the Cameron hospital this week.

Mrs. Rodney K. Fontaine gave a party Saturday night for the young people of this community. A large crowd enjoyed games and contests throughout the evening and departed for their homes at a late hour, all rejoicing over the good time they had.

Mrs. D. Messengale has been quite ill the past week with the flu.

The Arthur Burnett family have all been ill with the flu for the past two weeks.

Mr. and Mrs. Rodney K. Fontaine and son, Billie were Sunday dinner guests at the Dr. W. J. Fontaine home.

Rev. Dobson preached at Little River Sunday morning but on account of rain no preaching was held Sunday night.

Miss Etna Love spent Sunday night with Jewell Hickman.

Mr. and Mrs. Clarence Crook have moved into the house Birt Thrasher formerly occupied.

Rev. Red preached at String Prairie Sunday.

Sunday afternoon callers at the W. J. Fontaine home were Mr. Brant Smitherman and daughters, Ollie Mae and Ruby and Rev. and Mrs. Red and two daughters.

Mrs. Alma McKinney was home over the week end but was unable to attend church on account of illness.

Billie Black has been quite ill the past two weeks.

Mrs. W. T. Johnson and Barrett and Lucille were shoppers in Cameron Saturday.

Several basket ball games have been played at Jones Prairie this week.

A party was enjoyed by a large crowd of young people Friday night at the Rodney Anderson home.

Connie Mae Hickman spent the week end at home.

Mrs. W. T. Johnson and Lucille and Mrs. Rodney Fontaine and son spent Monday at the Schwarting home in Clarkson.

BAPTIST MISSIONARY SOCIETY

Members of the W. M. S. of the Baptist church met in the various homes last Monday for mission study. Circle one met with Mrs. R. G. Grabbe with eleven members present; circle two met with Mrs. L. L. Blaylock with thirteen present and circle three met with Mrs. Harve Dobbins with eight members present.

The circles will meet in the homes next Monday for study in Royal Service as follows: Circle one with Mrs. Joe Denson; circle two with Mrs. Geo. Mangum and circle three with Mrs. Gus Evans.

THE SUNDAY ROAST

There is no American tradition more firmly entrenched than the Sunday roast. With most families it is as much a part of Sunday as church services. The Sunday roast is an American institution.

Roasts are particularly popular with wives and the reason is not far to seek, for they give a wife an advantage over her husband that he finds great difficulty in overcoming. In the first place, Sunday roasts are pop-

ular with housewives because they solve not only the Sunday dinner problem but the Monday and Tuesday dinner problems as well. For on Monday they appear warmed over and on Tuesday in the guise of meat pie or stew. Thus at one stroke to provide three dinners out of seven is an accomplishment not to be sniffed at.

But the significance of the Sunday roast is even more subtle than that. It appears contemporaneously with the clean Sunday table linen and accompanied with enough gravity to float a battleship. Only the most skillful hand can avoid a catastrophe. At the beginning of the meal the good wife warns against grease spots on the tablecloth and she scolds about them at the end of the meal.

So long as Sunday roasts appear upon the table husbands will have to undergo a weekly demonstration of their fallibility. It is a test of masculine prowess commensurate only with keeping the grass cut or remembering the articles to be purchased in town. Of course, a roast could be carved in the kitchen or the carving knife could be handed over to the deft fingers of the better half, but that would be an admission of defeat which only the most domineering of husbands would have the hardihood to survive.

FEDERATION TO MEET

The Cameron Federation of Missionary Societies will meet in regular quarterly session at the Christian church, Tuesday, January 29th, at 3:30 p. m. All ladies are cordially invited. The following is the program: Hymn. Devotional, Mrs. W. L. Wilson. Solo, Miss Lorene Wade. Round Table Discussion, "Federation Problems." Hymn. Business Session, Mrs. J. P. Love, presiding. Benediction.

CALDWELL, TEXAS

ARREST OF WHITEY WALKER IN BUFFALO RECALLS SENSATIONAL JAIL BREAK AND CAPTURE BY HERIFF IN LONG CHASE

(continued from page 1)

to get back to Texas where he has friends. "Walker is well versed in Texas law," said Mr. Blaylock, "and knowing him as I do, I cannot believe that he has involved himself by an open confession of crime. Walker always has plenty of money and has a strong host of friends and manipulators who have succeeded so far in helping him escape." Mr. Blaylock says he remembers well the exciting chase after Walker when he broke jail here and adds that if Walker were again committed to his keeping he would maintain a guard over him day and night. Here is the Buffalo story:

Buffalo, N. Y., Jan. 18—Clyde Roberts, better known as "Whitey" Walker, one of two men arrested at Buffalo police in connection with murders and robberies alleged to have been committed by the Ace Pendleton gang in the southwest, broke down today and according to Detective Chief Reville confessed to three killings.

Admits Slayings

According to police, Walker, who says his correct name is William J. Walker, admitted the slaying in Borger, Texas, of Patrick Kenyon and Elmer Perry, deputy sheriffs on April 1, 1927. With him at the time, he said was his brother, U. Walker and an Ed Bailey. Walker says he was arrested for that crime and held in bond of \$15,000 but jumped his bail.

Walker also was said by police to have admitted the killing of Coke Buchanan, a policeman at Stinnett, Texas, March 1, 1927.

The prisoner denied all knowledge of Colorado slayings of which he has been accused.

Prisoner Escaped

Walker was arrested in Ft. Worth, Texas, in September 1927, he told police for robbing the stockyards National Bank and again at Cote, Wyoming, March 19, 1928, but escaped while being transferred to Billings, Montana. The prisoner said his first arrest was in Oklahoma in 1922 when he served five years for theft of an automobile.

Detective Chief Reville said Walker admitted passing forged money orders of the American Express company, using four names for that purpose. Some express money orders which had been stolen still were in

Walker's possession when he was arrested Saturday.

Walker says he is a native of Millam county, Texas and was born in 1901.

Fred Nave, held here with Walker and also wanted in many cities and towns for crimes of various sorts, refused to make any admissions.

Wanted Some More

While the questioning of the pair was under way, a telegram came from Fred Bowles, sheriff of Pontotoc county, Oklahoma. It stated Walker was wanted as the leader of the gang that held up a bank at Allen, Okla.

"Walker has been positively identified," the telegram read. "Conviction is certain. Curtis Black, member of the gang, given life. Will pay entire reward offered by state if Walker is turned over to me."

Telegrams, letters and telephone calls continue to pour into detective headquarters from all parts of the southwest. More cities continued to be heard from and in most cases Walker and Nave seem to be wanted mainly for slaying. Buffalo police have received telegraph requests to hold the two for Austin, Pampa, Ft. Worth, Borger and Wellington, Texas. Purcell, Oklahoma City, Washington City, Okla.; Eldorado, Ark.; Colorado Springs, Colorado City and Lamar, Colorado.

The pair, police say, are implicated in eight killings, daylight robberies of banks seem to have been their forte.

MISS MARY BURNETT AND CONN MOODY TO WED JANUARY 31; ANNOUNCEMENT MADE AT PARTY GIVEN HERE TUESDAY

Announcement of the engagement and approaching marriage of Miss Mary Burnett and Mr. Conn Moody was made Tuesday evening when Mrs. W. D. Bigbee entertained with six tables of bridge at the home of her mother, Mrs. Burnett on East Thirtieth Street. Pastel colors with a predominance of pink were used in the appointments, the score cards being colonial ladies in dainty design. Blooming pot plants added color and cheer to the rooms.

At the end of the six games that were enjoyed, it was found that Mrs. Terry Wiley had made high score and she was rewarded with a hand em-

broidered vanity set. Mrs. Hilton Culpepper, who made low score, received a lemon dish.

The hostess, assisted by Mrs. Pope Sapp, Miss Mary Burnett and Mrs. Mack Fox, served a salad plate and hot tea.

Just as the guests were ready to depart, a peal of the door bell was heard and when answered, a telegram was found for Miss Jolly Blanche Pitts. The message was as follows: Mary and Conn, January 31. Miss Burnett is an employee of the First National Bank, where Mr. Moody was assistant cashier until about a month ago when he resigned his position.

MISSIONARY SOCIETY

The Methodist Missionary Society met in circles Monday afternoon for a lesson in Voice. Circles one and five did not meet. Circle two met with Mrs. Hugo Slaughter with six members present and one visitor.

Mrs. H. N. Tate led the devotional and Mrs. W. P. McCall conducted the lesson. A short business meeting was followed by an enjoyable social period. Circle three met with Mrs. S. W. Cheeves with ten members present. The lesson was conducted by Mrs. Pope Sapp. The members discussed their pledges for local work. Circle four met with Mrs. Howard Baskin. Mrs. W. A. Bonds led the devotional and she was assisted by Mrs. Leland Green, who contributed a leaflet on missionary work. A business meet-

ing was presided over by Mrs. Fred Cable.

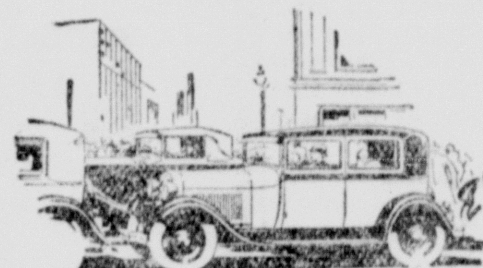

The circles will meet as follows next week: Circle two with Mrs. Jeff Kemp; circle three with Mrs. Louis Gohmert and circle four with Mrs. W. O. Triggs.

Safety, silence and simplicity are features of the new Ford six-brake system

ONE of the first things you will notice when you drive the new Ford is the quick, effective, silent action of its six-brake system.

This system gives you the highest degree of safety and reliability because the four-wheel service brakes and the separate emergency or parking brakes are all of the mechanical, internal expanding type, with braking surfaces fully enclosed for protection against mud, water, sand, etc.

The many advantages of this type of braking system have long been recognized. They are brought to you in the new Ford through a series of mechanical improvements embodying much that is new in design and manufacture. A particularly unique feature is the simple way by which a special drum has been constructed to permit the use of two sets of internal brakes on the rear wheels.

A further improvement in braking performance is effected by the self-centering feature of the four-wheel brakes—an exclusive Ford development. Through

this construction, the entire surface of the shoe is brought in steady, uniform contact with the drum the instant you press your foot on the brake pedal. This prevents screeching and howling and makes the Ford brakes unusually silent in operation.

Another feature of the Ford brakes is the ease of adjustment.

The four-wheel brakes are adjusted by turning a screw conveniently located on the outside of each brake plate. This screw is so notched that all four brakes can be set alike simply by listening to the "clicks."

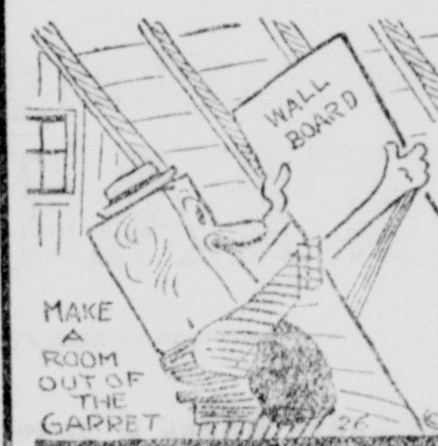

The emergency or parking brakes on the new Ford require little attention. However, should they need adjustment at any time, consult your Ford dealer for prompt, courteous, and economical service. He works under close factory supervision and he has been specially trained and equipped to help you get the greatest possible use from your car over the longest period of time at a minimum of trouble and expense.

Senators From Texas

IN THE UNITED STATES
CONGRESS 1845-1930

MORGAN CALVIN HAMILTON
(1870-1877)

Morgan Calvin Hamilton was born near Huntsville, in Madison County, Alabama, on February 25, 1809. In 1837 he removed from Alabama to the Republic of Texas. From 1839 to 1845 he served as a clerk in the war department and during the greater part of the years 1843-1845 he was acting secretary of war of the State.

After the admission of Texas as a State he was still prominent in local affairs, and in 1867 received an appointment as comptroller of the treasury. He was a delegate to the constitutional convention of 1868. On the reconstruction of Texas he was elected to the United States Senate as a Republican, and was reelected, serving from March 31, 1870, until March 3, 1877. He was an active member of the Committee on Pensions and the Committee on Railroads.

When, on April 20, 1872, the Senate had under consideration a bill supplementary to "An Act to Incorporate the Texas and Pacific Railway Company, and to aid in the construction of its road, and for other purposes," Senator Hamilton stated in debate that for many years Texas had been authorizing the construction of railroads and had expended millions of dollars on numerous projects, but had no railroad.

In one or more speeches made in the Senate he severely criticised the State legislature, saying that it was overriding the State constitution, exploiting the people, and destroying their liberties.

Senator Hamilton died at San Diego, California on November 21, 1893.

Andrew Jackson Hamilton, his brother, was born in Madison County, Alabama on January 28, 1815. He was educated at a common school and subsequently worked for a time on his father's farm. He afterwards engaged in business, and was for some years clerk of the circuit court of his native county, when he studied law. In 1846 he settled in Texas, practiced law for many years in Austin, and for a time served as attorney general of the State. In 1856 he was a president elector on the Buchanan ticket. He subsequently became a Republican and was elected to Congress, serving in 1859-1861.

In 1859 Andrew Hamilton was the Conservative candidate for governor and his friends thought him elected, but after a canvass of the votes by General Reynolds his opponent, General Davis, was declared elected.

Andrew Hamilton opposed the secession of Texas and during the early part of the war lived in the North. On November 14, 1862 he was made brigadier-general of United States Volunteers and in the same year was appointed military governor of Texas. He was sent to command troops at Matamoras. President Andrew Johnson made him provisional governor in 1865. In 1886 he became chief justice of the Supreme Court of Texas. He was a member of the second reconstruction convention and mainly instrumental in getting a very liberal electoral bill engrafted in the Constitution of 1868.

Andrew J. Hamilton died at Austin, Texas on April 10, 1875.

TEACHER TO EXECUTIVE IN TWO YEARS

A few years ago, he was a country school teacher, drawing a meager salary six or eight months out of the year and discouraged with the outlook for the future.

Two years later, he was Deputy Collector of Internal Revenue for the District of Arkansas, with an all-the-year-round income many times that which he had drawn as a teacher. "I'm just beginning my career," he says.

One decision, a little determination, and the encouragement of a far-sighted little wife made this wonderful change in the course of his life. His story may prove helpful to hundreds of others.

Raised on a farm and having attended country school until he had completed a two-year high school course, Lonzo A. Ross was twenty-one years of age before he "struck out for himself" as a country school teacher. For five years he followed this profession. Then, having taken unto himself a wife, he began to think a bit more about the future. He had made no progress as a teacher, although he liked the work. Encouraged by his wife, he decided to fit himself for a business position and enrolled at Tyler Commercial College, Tyler, Texas.

His first position upon graduation paid him a yearly salary more than three times that which he had drawn as a teacher. The following year he was appointed deputy collector of Internal Revenue—a position he could never have held but for his thorough T. C. C. training.

"At any cost, get a T. C. C. graduate," is his advice to employers. And to teachers and other ambitious young people: "Get a T. C. C. training."

Resolutions

To the Officers and Members of Cameron Lodge No. 56, I. O. O. F.: Whereas our Brother T. C. Stafford mourns the death of his good wife, Mrs. Mamie H. Stafford; and

Whereas, the Lodge desires to assure Brother Stafford of its sincere sympathy with him in his time of distress.

Now, therefore, be it resolved: That Cameron Lodge sorrows with Brother Stafford in his sadness and assures him that he has the deep sympathy and friendship of our membership in his affliction.

Be it further resolved: That a copy of this resolution be spread upon the minutes of our Lodge, and that a copy be furnished the Cameron Herald and a copy be delivered to our Brother T. C. Stafford.

Fraternally submitted,
Jeff T. Kemp
John Watson
Chas. C. Smith, Com.

GAUSE

Mrs. W. G. Fowler has returned to her home in Richmond after a pleasant visit with her son, Terry Moore and family.

Mrs. C. M. Carr was in Cameron Thursday.

Arthur Ealand of San Antonio is here tending to his father's lumber yard. We are glad Mr. Ealand is getting along nicely. He is still in the Cameron hospital.

Mr. and Mrs. Jesse Jones and children of New Baden spent Saturday and Sunday with their parents.

Mr. and Mrs. M. E. Holmes of Dallas are here attending the bedside of his mother, Mrs. S. M. Thompson, who is critically ill with the flu.

The Eastern Star ladies met Thursday afternoon at four o'clock and 7 members were present.

Mrs. Roberta Holden spent Saturday in Rogers with friends.

Rev. W. F. Weeks held services at the Methodist church Sunday morning. On account of bad weather he did not preach Sunday night.

Mrs. Tom Erwin and Mrs. Carr were Cameron visitors Monday.

Misses Muriel Hickman, Emma Howard and Elaine Thomas were in Cameron Saturday.

Mrs. Glen Critchfield was in Cameron one day last week.

Zol Hensley and daughter of Santa Anna were in Gause several days this week on business.

CHRISTIAN AID SOCIETY

With the president, Mrs. Jim Neinst, in charge of the meeting, members of the Aid Society of the Christian church met at the church Monday afternoon. Some special matters of business were disposed of, after which the meeting was adjourned until next Monday at which time officers will be elected. It is urged that all members be present at the next regular meeting.

CARD OF THANKS

We desire to extend our sincere thanks to those of our friends and neighbors who came to us during our recent bereavement. We especially thank those who gave flowers and all who assisted in any way during our hour of sorrow.

Mr. and Mrs. Frank Janicek and family.

In the big illustrated book, "Achieving Success in Business" are printed scores of stories of men and women who have reached success as a result of training. The book is free. No obligation. Won't you let us send you a copy? Just clip the coupon below. (We have no branch schools. We lead; others follow.)

METHODIST CHURCH

We made some gain last Sunday. Some folks were not yet well enough to brave the harsh elements. You will be stronger by next Sunday and perhaps the good Lord will arrange better weather. Come if it does not endanger you.

The Sunday School at 9:45 should have fifty more than last Sunday.

All three of the Leagues should have an increased attendance.

The pastor will be happy if all of those who have been sick can be at preaching. He will preach at both hours and will be as helpful as possible for him.

We have many neglected matters to catch up now. We are urging every body to do their best helping the church to regain its attendance and activity.

BIRTHDAY PARTY

On Monday afternoon, January 21st twenty-one little girls and boys gathered at the home of Adele's parents, Mr. and Mrs. L. F. Slama to celebrate her eighth birthday, which was the day before, January 20th. Many games were enjoyed on the outside with Miss Miladie Slama leading in the games. The latter part of the afternoon they were called in, where they found a decorated table, with strips of pink and blue crepe paper from the electric light to the corners of the table. A white birthday cake, decorated with candy hearts, with eight lighted pink candles stood in the center with pink and blue baby ribbon from the cake center to each plate. At each plate stood a bottle of orange soda water. Pencil suckers surrounded the cake. They were each asked to pull their ribbon. Lillian Michalka pulled the button, Evelyn Lois Bird the thimble, Robert Lee Dakel the dime and Johnnie Sprott the ring. Mrs. Slama was assisted by Mrs. H. L. Dakel and Mrs. Jim Bird of Minerva in serving cakes and candy. Those present were: Mildred Michalka, Josephine Eickenhorst, Mildred Parma, Mary Ruth Sutter, Jesse Clarabell Martin, David Wade, Robert Lee Dakel, Lillian Michalka, Lois Meachum,

Mildred Slama, Dorothy Kubecka, Billy Balhorn, Jr., Virginia Lindle, Joeene Lindle, Virginia Weems, Annie Michalka, Alice Strizinek, Ruby Lee Sprott, Johnnie Sprott, James Wilbur Bird and Evelyn Lois Bird of Minerva. When they left for their homes, they were given, as a souvenir, a pencil sucker with either a pink or blue ribbon tied around it. Little Adele was a recipient of many beautiful gifts.

TREBLE CLEF CLUB

The Treble Clef Club met Monday afternoon with Florence Atkinson as hostess, to decide on a program for the remainder of the season. It was agreed that meetings should be held every alternate Monday afternoon at four o'clock. A committee, with Lillian Mondrik as chairman, was appointed to arrange a course of study for the club. It was also decided by the members to federate with other junior music clubs of the State.

After the business session, a social hour was enjoyed at which time the hostess served sandwiches, pickles, cakes and hot tea.

The next meeting will be held on February 4 with Euline Slaughter hostess.

HISTORY CLUB

The fame it has gained and the principal characters exploited in Thornton Wilder's book, "The Bridge of San Luis Rey," formed the subject of discussion among members of the History Club in regular session Tuesday afternoon with Mrs. B. P. Atkinson as hostess. Mrs. Graham Gillis and Mrs. Wm. Henderson gave talks concerning the book and these were followed by a general discussion.

Mrs. Atkinson served her guests a salad plate and hot tea.

W. F. Eifler of San Antonio was the guest of Mr. and Mrs. Roy Law Saturday and Sunday. He was accompanied home Sunday by his wife and baby, Billy, who had spent the week in Cameron, the guests of Mr. and Mrs. Law.

Chas. Frank Green
Cameron, - - Texas.

2-Door Sedan, \$745
Body by Fisher

announcing The New PONTIAC BIG SIX

Introducing Big Car Standards of Luxury, Style and Performance at \$745

TODAY a new type of low cost motoring luxury is available. It embraces big car style. It provides big car riding comfort. It embodies big car quality in unseen parts. It is offered by a brand new automobile—the New Pontiac Big Six.

Frankly, the New Pontiac Big Six was designed to appeal to a certain group. This group is made up of people who are beginning to move up in the world. Many of them will soon make the first step up in the quality of their cars. The New Pontiac Big Six was designed for them.

It comes to them entirely new in appearance. Stunning new bodies by

Fisher contribute to the big car beauty and big car style presented by the car as a whole.

Progressive people are seeking greater luxury. The Pontiac Big Six offers them the luxury for which bodies by Fisher are famous the world over. It provides the smooth-riding qualities of a car 167 inches in overall length, with accurately balanced rotating mechanical parts and such advanced comfort features as adjustable drivers' seats.

It is a six with the added power of a larger L-head engine and the added smoothness imparted by a dynamically balanced, counter-weighted

crankshaft and the famous Harmonic Balancer. Its new brakes are of the dirt-and-weather-proof internal four-wheel type.

It reveals big car performance even to the point of developing big car power and big car speed.

Only a few highlights in its construction have been mentioned. Just enough to prove that the Pontiac Big Six is entirely new and capable of meeting progressive Americans' demand. But the amazing thing about it is that it gives so much big car luxury, style and performance at prices which come within practically everyone's reach!

Prices \$745 and up, f.o.b. factory, plus delivery charges. Bumpers and rear fender guards regular equipment at slight extra cost. Check Oakland-Pontiac delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

Texas and Texans

By Will H. Mayes

Texas Railroad Extensions

The Texas railroads are planning to change the railroad map in many sections of Texas during 1929. All of the principal lines are actively making or considering extensions. Construction activities are especially noticeable in the South Plains section, in West Texas and in parts of South Texas. Expenditures in the Eastern part of the State will be in the improvement of trackage, yard and station facilities. Railroads will continue to do great things for the State.

Railroad-Bus Combinations

Many Texas people who have been watching the development of bus traffic and truck transportation are apprehensive that the railroads have well defined plans to absorb this new competition and they say this is already being evidenced in the efforts to take over bus lines thru subsidiary organizations. Should this be done to any large extent, highway building in Texas will be largely to the advantage of the railroad corporations rather than the people who build and maintain the roads. Texas needs just the kind of transportation competition that the busses and trucks are giving. It not only makes far cheaper rates but for greatly improved service.

Big Spring Growth

Postoffice receipts are usually considered pretty accurate barometers of business. Under this way of estimating stupendous progress, as the postoffice receipts for the last quarter of 1928 were about 40 per cent larger than for a corresponding period of the previous year. Oil development had much to do with this growth although Big Springs disclaims being an oil boom town.

Polo Pony Trade

West Texas is said to be the best section in the United States for raising and training polo ponies. This is due largely, horsemen say, to the bracing atmosphere in an altitude neither too low nor too high for the best lung development, to the wonderful, hard turf of the pasture lands, and to the soil chemicals absorbed thru the native grasses. A Menard ranchman who specializes in polo ponies has recently sold a car of the ponies at prices ranging from \$300 to \$1000 each and has a demand for more trained polo horses than he can supply.

University Oil Lands

The quick action of both branches of the legislature in repealing the University oil lease lands by unanimous votes shows the feeling of Texas people in regard to conserving the University revenue. Equally diligent and rapid action should be taken to provide a way for the University to invest its permanent funds in a way to realize a better revenue than can be obtained by investing in United States bonds. Under the present law the University has to be content with a ridiculously low income from the vast fortune it is accumulating thru oil development on its lands.

Galveston's Beauty Show

Galveston is often spoken of as "the old lady of the seas." Once a year the

old lady arouses herself and puts on a "pulchritude" contest that puts to shame anything done by Zeigfield's Follies, and that partakes pretty closely of the nature of the New York bath tub party that shocked the whole country a couple of years ago. People flock to the contest to view the most unclothed young women of the country like they once attended Tex Rickard's prize fights. The "Old Lady" smiles as she pockets the proceeds and wonders how much longer the public will pay to look at young women shamelessly robed. At present she is promising for next summer a show of a kind to startle the most remote sections of the world.

Texas Ice Plants

Texas has now more ice manufacturing plants than any other State in the country, the number being 225. Pennsylvania follows with 224, while California is third with 175. A bill pending in the Texas legislature would place ice manufacturing under control of the Railroad Commission with a view to equalizing the price of ice in all sections of the State. At present there is a large variance in ice prices in different parts of the State, which is said to work to the disadvantage of some sections in marketing products.

Gas Line Extensions

A ten inch gas pipe line is to be run from the Brown and Coleman county gas fields to Waco, work to begin about February 1, and the construction to cost around \$2,000,000. Charters have been obtained to supply Goldwaite, Lampasas and other towns between Brownwood and Waco. The line will carry sufficient gas to provide for the needs of many Central Texas communities and the field from which the gas comes appears to be inexhaustible, new wells being brought in every week by operators searching for oil.

Poultry Industry Grows

Calling attention to the fact that the poultry industry of Texas now amounts to more than \$100,000,000 annually, both the East and West Texas chambers of commerce will urge the present legislature to make sufficient appropriations to conduct in-

vestigations of poultry diseases and other troubles of the industry. With poultry flocks constantly increasing, the necessity for safeguarding against spread of diseases grows.

Improving Rural Conditions

A meeting of 175 farmers at Jacksonville to discuss rural improvements gives this columnist occasion for saying that the chambers of commerce and other organizations in East Texas have certainly worked faithfully the last two years for improving farm conditions and rural life in that part of Texas and the results are apparent even to the casual observer. The towns and country have co-operated in every way until East Texas today bears very little resemblance to the East Texas of a few years ago. Most of the change has been brought about thru soil conservation and upbuilding and diversified farming.

MAYSFIELD

Mrs. Wm. Freeman and Miss Nell Red were shopping in Cameron Saturday afternoon.

Mr. and Mrs. Everett Newton and brothers, Carlton and Ladell with a few young people in the neighborhood went rabbit hunting in their car one night this week and killed about 20 rabbits. They reported a good time.

Mr. and Mrs. Everett Newton left Saturday morning about one o'clock for their home in Eldorado, Arkansas. They planned to reach Tyler in time for breakfast with Mr. Newton's sister, Mrs. J. B. Carey who lives at Tyler.

Misses Mildred and Grace Thweatt spent Friday night with Miss Bertha Floyd.

Finis Thweatt of Jones Prairie visited relatives in Maysfield this week.

Mrs. Baylor, Misses Bernice and Jo Baylor and Grace Thweatt motored to Cameron Saturday afternoon.

Mrs. L. S. Woodruff of Brownwood arrived in Maysfield Wednesday to

visit her parents, Mr. and Mrs. W. M. Waits.

Miss Velma Waits called on Miss Grace Thweatt Saturday.

Mrs. T. S. Woodruff and Miss Mary Emma Thweatt were shopping in town Saturday.

The young people enjoyed a social in the home of Mr. and Mrs. T. L. Floyd Friday night. Those present were Misses Bernice and Bertha Baylor, Hortense Turner, Ada Lee Massengale, Mildred and Grace Thweatt, Vera Mayes and Bob Mayes; Messrs. LeRoy Massengale, Ben and Dock Thweatt, LeDell Newton, J. C. and T. R. Cosby, Johnnie Brashear, Ralph Massengale, Homer Turner, Gus and Glen Ditto.

Toncan Iron for Cisterns, Gutters, Cornices, Spouts, Roofing, and Stock Tanks. There is none better. Guaranteed for 25 years against rust, corrosion, etc.

THE CENTAUR COMPANY, NEW YORK CITY.

Smoothness

Never Before Achieved in a Low-Priced Automobile

Of all the exceptional performance qualities resulting from the advanced design of the new Chevrolet Six, none is more impressive than its remarkably smooth operation.

Although the new six-cylinder motor develops 32% more power with correspondingly higher speed and faster acceleration . . . although it delivers better than twenty miles to the gallon of gasoline—

—its outstanding feature of performance is a degree of smoothness never before achieved in any low-priced automobile.

To achieve such remarkable performance in a car of such low price, Chevrolet spent years in development work. Over 100 different engines were designed, built and subjected to over a million miles of testing at the General Motors Proving Ground before the

present motor was adopted. The new power plant has many unusual features, such as the new acceleration pump, the new gasoline pump and filter, and the new automatic lubrication of the rocker arms.

The four-wheel brakes have been newly designed to assure positive, quiet action. Steering has been made easier. And the new Fisher bodies with their new lines, new colors, adjustable driver's seats and new appointments represent new heights of style, distinction, comfort and value.

We extend you a cordial invitation to see and drive the new Chevrolet Six. We believe it an experience that every motorist should have—and we want you to know how finely the new Chevrolet Six is built and how smoothly it performs!

The Roadster, \$525; The Phaeton, \$545; The Coach, \$595; The Coupe, \$595; The Sedan, \$675; The Sport Cabriolet, \$695; The Convertible Landau, \$725; Sedan Delivery, \$595; Light Delivery Chassis, \$400; 1 1/2 Ton Chassis, \$545; 1 1/2 Ton Chassis with Cab, \$690. PATRON SAINT OF SPORT

Benjamin Franklin, anniversary of whose birth occurs on January 17, is the patron saint of the American printing industry. He is famed as a legislator, literary man, inventor, diplomat and proponent of American independence. He excelled in all these endeavors, but his versatility did not stop with them.

This universal genius adds that of athlete to his long string of claims to fame. It is not a mere whimsy to claim Franklin as a patron saint of sport. Swimming was his favorite sport, and while history does not record that he ever swam the English channel or the Delaware river there is sufficient evidence that he was an expert.

Twenty-year-old Benjamin disported in the Thames in a fashion that should have been featured in the London gazettes of his time. In his immortal "Autobiography" he wrote:

"I stripped and leaped into the river and swam from near Chelsea to Blackfriars, performing on the way many feats of activity both upon and under the water that surprised and pleased those to whom they were novelties."

During that same visit to England, Franklin seriously considered remaining in Europe to open a swimming school or to travel from town to town giving exhibitions and lessons. That he didn't was only because of the depreciation of the Quaker merchant Denham.

The evidence seems clear enough that while Franklin's swimming was in a class with the professionals of his day his amateur standing is unclouded.

Now that Franklin's prowess as a swimmer is becoming generally known one may expect soon to see "Ben Franklin Swimming Clubs" take their place beside the multitude of book stores, printing establishments, organizations of printers, scientific and literary societies and other institutions and associations bearing the name of the illustrious colonial.

THE CHAINS OF SLAVERY

The desire of the individual to attract attention and to appear prosperous is the cause of more grief and sorrow, than perhaps any other reason. Living above one's means is a jealous taskmaster that demands days of drudgery, hours of worry, minutes of despair, gray hairs and new wrinkles and often shortens lives. Small compensation, indeed, is the momentary satisfaction that may be derived from putting on a show.

The old car was good enough and gave good service, until the neighbor bought a new model, in the new colors, with later lines. The clothes would last, without patching too for another season, but what would people say? How quickly the bank account can become depleted by numerous withdrawals.

Look around you, and you will find that those who are really prosperous, care little for the appearance of wealth that others sacrifice so much to obtain.

How easy it is, to become so deeply in debt that it becomes a constant struggle to keep the head above water. How easy it is, to put off laying the foundation for the savings account until tomorrow and how often it seems that tomorrow never arrives.

Why trade your certainty of success for a mess of pottage, when it is obvious that it is not necessary to cover the real thing with gaudy labels in order that its true worth be known? Get 'out of the rut! Start laying the foundation stones of that dream castle today. The first few stones are the heaviest, but, when your strength increases, you will find it easier and easier, as you find that you are nearer and nearer, to the goal you are trying to reach. Nothing is impossible to the man who says "I will."

GASOLINE MADNESS

Powerful stuff—gasoline. There is a kind of gasoline intoxication that changes the entire nature of some men. Sometimes it is found that even the mild-mannered man who loves his family, is kind to animals and is courteous to everybody, can't stand gasoline at all. As soon as he gets into an

automobile he isn't polite to anybody but a policeman.

On foot, he says "You first," or "Pardon me, sir, may I step ahead?" or "That's all right, old man, I'm in no hurry." But seated in a vehicle propelled by gasoline, he gets a megalomaniac's view of the value of time. He may not be going anywhere in particular but he wants to get there right away.

He watches for the smallest opening to jam ahead. If he is thwarted in the attempt, he glares at the fellow who gets in his way and perhaps hurls an insulting epithet. If there is an unavoidable delay of a moment, he bawls his horn and the aggregate efforts of the entire group of gasoline-intoxicated maniacs turns bedlam loose.

Filling the air with raucous mechanical howling, yawling and screeching is an attendant symptom of gasoline madness. Dashing ahead thru dense traffic and hornning everybody out of the way is another. The manifestations vary with the age and temperament of the subject, but even in the mildest natures the tendency is toward crude manners, lack of all consideration and complete inhumanity.

A DOLLAR DOWN

Widespread attention has been attracted to the recent survey giving general approval to installment selling as economically sound when properly carried on. The conclusion arrived at has been referred to in the stock market as a bull argument. This may prove unfortunate because if there is anything consumer credit does not need it is incitement to splurge.

Those who made the survey do not ignore the dangers of high-pressure salesmanship, of over-persuading the consumer, or of unwise credit extension in the competitive drive for business. The fact is not dismissed that in installment selling responsibility of the buyer is given no such thorough investigation as is ordinarily exercised in producer and bank credits.

Intelligently handled the system is an important contribution to industrial progress, stabilizing output, increasing production, lowering costs and working for improved standards of living. The plan is abused, just as the cash and thirty-days credit plans were abused, but the abuses are gradually being eliminated.

The partial payment plan has demonstrated that most people are honest even to the extent of paying their bills and that here are not enough who buy beyond their incomes to make the system unprofitable for merchant and manufacturer.

However, the success of the system and the latest study of its workings should not prompt those who are financing this vast volume of credit to relax vigilance or neglect precautions which the very nature of the business demands.

AN AGE OF MAKE-BELIEVE

Where is the "land of make-believe?" On the stage, in the movies, childhood, good reading? Yes, in all of these, but not in them alone. This is the "Make-believe" age. Everything is mimicry, imitation, camouflage; all is artificial. Nothing is genuine but that it is copied.

Ancient Spanish architecture is being copied in new American homes even to the imitation of the cracked masonry and stone exposed by fallen stucco. And along fine boulevards one can see the new and modern homes of the rich with roofs of humble thatch and sagging eaves, not less picturesque though much sturdier and more permanent than their prototypes. Carpenters and masons with the guidance of architects are building the atmosphere of age in the modern home that this generation may enjoy all that is good in both antiquity and modernity.

Then there is the imitation in dress. Grandmothers are successfully adapting to themselves the wardrobes of their granddaughters and their granddaughters are affecting the modes of their brothers.

Factories here and abroad are producing "antiques" as fast as thousands of shops can sell them to curio-seekers and collectors. One now or-

ders, instead of searches, for examples of early American furniture.

And who will gainsay that a good imitation and the right amount of imagination are equal to a genuine original?

A GOOD TOWN

Put a peg of prosperity into your community by staying with it. Always greet your neighbors with a grasp of confidence.

Criticize in the spirit of Godspeed. Say a good word if it hurts. Remember that those who insist on hanging themselves will do it if given enough rope.

Give your neighbor a right to an opinion as long as he keeps it to himself.

Discuss questions involving your better welfare instead of arguing with them.

Apply the Golden Rule regardless of consequences.

Back up your churches and relative affiliations. You will feel better and besides are setting a good example for the young people.

Give the young people plenty of pleasure.

Failures reflect on the entire town. See what you can do to keep your neighbor on top of the water. Don't let him drown.

Let's have more handshakes and arm in arm conferences with a good will patting. It adds to that day's events.

Let's break the shell and step out. The world is wondering what we are going to do next. Let's show'em.

He is a rare man who knows a man he would be willing to marry if he were a woman.

Every normal woman knows which one she would snub first if she should become rich.

The cause of most illness is the fact that the stomach has no control of the brains.

If they work hard and save and mind their own business, they are probably "darned aliens."

Republics really are ungrateful. There's no statue of the cook who invented pumpkin pie.

Nothing makes a much-scolded wife as happy as to hear her superior husband make a mess of changing gears.

CONFEDERATE VETERAN DIES

A. Garrett, aged 85 years, 8 months and 26 days, died at his home near Watts Switch at 5:30 p. m. January 22, 1929.

Funeral services for the veteran were held at 2:30 the same day with interment in the Union Cemetery with Rev. Odell Jameson, pastor, conducting the services and Green Brothers of Cameron in charge of the funeral arrangements.

The veterans of the South are fast passing out, the thin lines of gallant soldiers answering the last muster but they have left for their fellows of the South a heritage of glory.

C. N. GREEN IN DALLAS FOR RADIO MEETING

MAJESTIC DEALERS HEAR OF MARVELOUS GROWTH OF NEW RADIO CORPORATION

C. N. Green last week returned from Dallas where he met with Majestic Radio dealers from over the state assembled there in Convention.

Mr. Green has made an exceptional record in the sale of Majestic Radio sets and never overlooks an opportunity to advance in the knowledge of his products.

The convention was held on Thursday, January 10th, at the Adolphus Hotel in Dallas. The morning session sent W. L. Cohn made the opening address, giving an outline of the growth of Grigsby-Grunow Co., Majestic manufacturers and also surveying the development of Majestic radio distribution in Texas by the Radio Equipment Company. He stated that Grigsby-Grunow Company would manufacture 1,503,000 Majestic sets during 1929 and that the Radio Equipment Company would distribute 30,000 of these sets in Texas during that time.

H. C. Jackman, factory representative, made the second talk, his subject being "Through the Factory Eyes." He was followed by Chas. K. Cohn, our new director of sales and W. T. Blythe, recently appointed assistant sales manager. Linwood Griffin was next on the program, his topic being financing. E. E. Holland of the Southwest Contract Purchase Corporation further explained one phase of financing, the time payment plan. The last two talks of the morning were made by J. D. Sims of Chicago, representative of the General Outdoor Advertising Company and E. E. MacKeever of the Dallas Poster Advertising Co. They discussed billboard advertising.

The dealers were entertained at luncheon in Bambooland of the Adolphus Hotel.

The afternoon session opened with an address by E. G. Boughtin of Los Angeles. His subject was "The Human Side of

Business." Then came the most exciting part of the entire program, the showing of the new models. W. L. Cohn explained their new features.

In the evening the dealers were the guests of the Radio Equipment Company at a banquet in the Junior Ballroom of the Adolphus, they were entertained with fourteen acts of vaudeville.

Two new Majestic radio models were shown for the first time Thursday at the first annual Majestic Radio convention held at the Adolphus.

The exterior appearance of both the model 71 and the model 72 is radically different from that of the old models, embodying more graceful lines in radio furniture. The over-all appearance of the cabinet of the 72 is one of greater compactness, the receiver being about four inches lower than last year's model, about the same width but not as deep. The cabinet, of walnut and burl walnut, has a high polished finish. Doors are of diamond-matched, panel-type walnut, inlaid with imported marquetry.

Upon opening the doors, it is seen that the control arrangement is different from that of previous models. The speaker has been lowered from its previous position above the set, thus making its outlines harmonious with the general lines of the new cabinet and insuring quieter operation. The tuning controls, dial and speaker are mounted on a centered diamond-grained panel bordered on either side by burl walnut panels, with birde's-eye maple panel across the top.

The cabinet of the new 71 is of the low-body type. It is without doors and has a center panel of burl walnut on which are arranged the controls and speaker.

The mechanical improvements on both models are the same. A great increase of selectivity has been provided, according to the claims. Improvements on the speaker permit it to handle larger undistorted volume, with increased range of tone. The new model is said to cover a 75 per cent greater range of sound frequencies.

Miss Eula Cooper, Branchville, Director of Art Appreciation.

Mrs. Fred Hodges, Yarrleton, Director of Choral Singing.

Another very fast double play is Direct-by-Mail Advertiser to Apathetic Prospect to Waste Basket.

If everything got lost as easily as a good pipe, everything would stay lost most of the time.

LEAGUE PLANS PROGRAM FOR SCHOOLS OF COUNTY

BASKETBALL TOURNAMENT AT ROCKDALE FOR BOYS ON FEBRUARY 8TH AND 9TH

A meeting of the Executive Committee of the Milam County Interscholastic League was held at the office of the County Superintendent, Saturday afternoon, January 19th, 1929 with the following members present: Supt. Lloyd Patterson, Milano, director of essay writing; Supt. C. R. Middleton, Sharp, director of arithmetic; L. V. Perkins, Cameron, director of athletics. Supt. Kathryn K. Robbins, Cameron, rural school director and superintendent; T. A. Fisher, Cameron, director general. It was decided that the County Meet should be held at Cameron Friday and Saturday, March 15th and 16th. Mrs. Fred Hodges of Yarrleton school was appointed director of choral singing. Director general was directed to confer with these newly appointed directors and assist them in choosing pictures and the songs to be used in the contest.

It was determined that the contest in choral singing would be held Friday night, March 15, in the auditorium of the Yoe High school. Full announcements concerning rules governing these contests will be mailed to all schools who are members of the league. February 8th and 9th was set as the date for the boys' basketball tournament and March 8th and 9th was set as the date for girls' basketball tournament. These tournaments will be held at Rockdale. The tennis meet will be held at Cameron, March 22nd and 23rd. Senior girls' playground ball was added to the list of athletic contests to be held at the time of the meet.

The directors are as follows:

Supt. T. A. Fisher, Cameron, Director General.

Supt. H. M. Roark, Thorndale, Director of Debate.

Supt. C. S. Miles, Rockdale, Director of Declamation.

Supt. R. C. Davis, Gause, Director of Spelling.

Supt. Lloyd Patterson, Milano, Director of Essay Writing.

L. V. Perkins, Cameron, Director of Athletics.

Miss Mary Puckett, Cameron, Director of Music Memory Contest.

Supt. Kathryn K. Robbins, Cameron, Director of Rural Schools.

Whitey Waker and Fred Nave in Irons Are Traveling West

Buffalo, N. Y., Jan. 23—Heavily guarded, William "Whitey" Walker and Fred Nave, wanted in the south-west for several murders and holdups, left Buffalo last night. Walker is being taken back to Colorado Springs, Colo., while Nave is on the way to Ada, Oklahoma.

They were shackled with leg irons and handcuffed. They were guarded by ten detectives, headed by Chief John G. Revell of Buffalo.

Secrecy concerning the trip will be maintained until the pair are in jail.

Surrounded by plain clothesmen and securely gaged to each other, the prisoners were taken before the Justice Thomas H. Noonan in supreme court. The justice promptly approved the extradition papers.

THE STATE OF TEXAS

To the Sheriff or any Constable of Milam County, Greeting—

You are hereby commanded to summon Osie Phoenix by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Milam County, to be held at the court house thereof in Cameron, on the 4th day of March 1929, the same being the 1st Monday in March 1929, then and there to answer a petition filed in said court on the 13th day of November 1928, in a suit, numbered on the docket of said court No. 10104, wherein Leon Phoenix is plaintiff and Osie Phoenix, is defendant said petition alleging:

Statutory ground three years abandonment.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this 17th day of January A. D. 1929.

Penn Wolf, Clerk,
40-4 Dist. Court, Milam Co., Texas

Mrs. Lillian Sneed of Georgetown and Joe Sneed of Amarillo were Monday guests of Mr. and Mrs. Dan Tyson and Mrs. Julia Tyson.

Local and Personal

Recent guests of Mrs. John A. Smith were Mrs. W. T. Jones of Hillsboro, Colonel and Mrs. B. J. Delameter of Caldwell, Major B. F. Delameter of San Antonio and Mr. and Mrs. John Fraim of Sherman.

Miss Rose Rischar, president of St. Rita's Circle of St. Monica's church, has cancelled all meetings of the organization for the present because of so much illness among the membership of the church.

Among those from Cameron attending the funeral services of Mr. W. H. Dukes at Milano Sunday were Mr. and Mrs. Ray Burke, Mr. and Mrs. Martin Kilian, Mrs. Penn Wolfe, Mrs. Bob Brown, Mrs. J. B. White, Mr. and Mrs. W. O. Newton, Misses Lorene Wade, Doris Adams and Bonnelle Neinst, Mr. M. M. Johnson, Mr. and Mrs. Wallace Moody and Mr. and Mrs. W. E. Kuehl.

Out of town relatives attending the funeral services of Mrs. Victoria Chafin Monday were Mr. and Mrs. A. W. Waller of Mexia, Mr. and Mrs. Henderson of Belton, Mrs. Sharpe of Belton, Mrs. J. M. Wadlington of Mexia, and Mrs. R. H. McFarland of Austin.

Mrs. W. A. Denson and her daughter, Miss Margaret Denson of Chilton are expected to arrive Thursday to spend the week end with Mr. and Mrs. Joe Denson.

Miss Rosine Ledbetter was married to Mr. Chaddick in San Antonio on December 22. The marriage came as a surprise to friends and relatives. Mrs. Chaddick taught for a number of years in the Cameron schools and she has numbers of friends here. She and Mr. Chaddick are at home at 1501 Ostrom Drive, San Antonio.

Lane Denson of Temple spent last week in Cameron on business and visiting his parents, Dr. and Mrs. John Denson.

Mrs. M. G. Cox, Mrs. John A. Smith and Mrs. Smith's guest, Miss Janice Jones of Hillsboro, spent Monday in Rockdale.

Miss Cornelia Esslinger, who attends school at San Marcos, is at her home in Cameron suffering from an attack of influenza.

Miss Mary Belle Batte of Southwestern University, Georgetown, spent last week end in Cameron with her parents, Mr. and Mrs. R. L. Batte, Sr.

Mr. and Mrs. Frank Heintz celebrated their twenty-fifth anniversary at Belmena. Those present were Mr. Heintz' brother of Waco, Fred John of Burlington, A. C. Rosechetzky of Hanover and some friends from Cameron.

Mrs. M. A. White of Milano was the guest of Mrs. Jewel Barmore last week.

H. C. Jones arrived Saturday to be with his wife and baby, who have been guests of Mr. and Mrs. W. I. Clark for several weeks. They left Sunday for their home in Bellville, Mrs. Jones and the baby going by way of Rockdale, where they will visit for a week with her mother.

CORN FOR SALE—About 350 bushels on my farm near Tracy. See Mrs. Ida Jenness, Cameron, Texas, if

FOR SALE—Jersey milk cow, is young and a splendid milker. Apply at this office. 40-11

Mr. and Mrs. Watt Skinner and Mr. and Mrs. Robert McElroy of Rogers were Sunday guests of Mr. and Mrs. Joe Denson and Mr. Shade Denson.

Weldon Burnett of A. & M. College spent last week end in Cameron.

Ray Mayfield, who entered Baylor University at the beginning of the winter term, visited his parents, Mr. and Mrs. John Mayfield, last week end.

Joe Lloyd Mitchell, son of Mr. and Mrs. Lloyd Mitchell, was painfully cut about the face last Saturday, when he was the victim of an automobile accident which occurred on the Country Club road. He was taken to the Cameron Hospital, where several stitches were taken to close the cuts. Latest reports are that he is suffering no ill effects.

I have quite a lot of stock pen fertilizer for sale at 50c per ton. For particulars see the Oil Mill. R. L. BATTE.

Friends of Mr. and Mrs. B. E. McMillan will be glad to know that they have moved back to Cameron and are living temporarily at the Lankford Hotel. Mr. McMillan is ticket agent at the Southern Pacific depot.

Miss Iva Wilson has been elected to teach in the Milano school, filling the vacancy made when Miss Loring Beard resigned following an automobile accident a few weeks ago.

J. O. Hughes, teacher at Nolanville, spent last week end in Cameron with his family.

Miss Cornelia Gunn, student at Baylor College, Belton, spent last week end with her parents, Mr. and Mrs. D. B. Gunn.

Judge Jeff T. Kemp was in Austin Tuesday on business.

I have quite a lot of stock pen fertilizer for sale at 50c per ton. For particulars see the Oil Mill. R. L. BATTE.

Mr. and Mrs. W. B. Levy spent Sunday in Waco, the guests of Mr. Levy's sister, Mrs. Goldberg.

Mr. and Mrs. Watt Skinner of Rogers were dinner guests of Mr. and Mrs. W. B. Levy Monday evening.

Miss Beth Jeter has been ill at her home with an attack of influenza.

Mr. and Mrs. Ernest Howard and son have moved back to Cameron from Navasota, where they moved several months ago. They are with Mrs. Howards mother, Mrs. Brewer, for the present. Mr. Howard was employed by Pierce and Bradbury before he moved to Navasota to accept a position with the Pierce store here.

Mrs. G. W. McClendon of Vernon arrived Monday night to be with her father, Henry Rooves, who is quite ill.

I have quite a lot of stock pen fertilizer for sale at 50c per ton. For particulars see the Oil Mill. R. L. BATTE.

R. G. Grabein went to Dallas the first of this week to get some new Fords for Hubert Hefley Motor Company.

Mrs. S. Kestenbaum spent several days in Marlin the first part of this week.

Judge Jeff Kemp has spent several days in Austin this week in connection with the work of the legislative good roads committee.

Mr. and Mrs. Conn Miller visited in Temple and Pendleton Tuesday.

Miss Louise McClendon of Ben Arnold, who is a student at Baylor College, Belton, spent last week end at her home.

Mr. and Mrs. Albert Triggs of Minola are visiting friends and relatives in Cameron this week.

Mrs. D. B. Gunn of Ben Arnold was the guest of her son, Dan Gunn and his family.

Lyons McCall, teacher of physical education in the Sidney Lanier school, San Antonio, visited his mother, Mrs. W. M. McCall last week end.

Miss Florene Hobson, student at Baylor University, Waco, visited her parents in Cameron last week end.

Robert Edwards, who died in Waco last week and whose funeral notice appears in another part of this paper, was a cousin by marriage of Mrs. E. B. Lovick of this city. Mr. Edwards collapsed on a street in Waco and died about two hours later from paralysis of the brain.

News comes that Miss Nelta Sloan of Cameron, who teaches in Waco, has been very ill with influenza and complications.

HOYTE CLUB

The Hoyte Club girls met last Thursday January 17 at one o'clock to elect new officers for the year. The following were elected: President, Miss Minnie Macek; Vice-president, Miss Annie Bell Woodum; Secretary, Miss Evelyn Pressley; Reporter, Miss Inez Lake. Miss Bartholomew explained to the club the work for the year. We then adjourned.

CAMERON, TEXAS

In The Realm of Sports

The wrestling fans of the nation are all agog over the new champion, Gus Sonnenburg. He is a college man and won the right to be called the boss of all matmen by his victory last week over Ed "Strangler" Lewis. Lewis had his deadly headlock on Gus several times but each time he was unable to hold it and by means of a flying tackle, Sonnenburg won the match. He has been recently signed by a sports promoter but it is not known yet who his opponent will be.

Since "Tex" Rickard's death, speculation is rife over the possibility of Jack Dempsey's return to the ring. Many who claim to be on the inside say that the boxing fans will never see Dempsey in the ring again as a title contender. The Manassas Mauler was truly a colorful character in his time and it will be many a long day before the likes of him will be seen again. Even the glory that so rightfully belonged to John L. Sullivan was dimmed by this fighter.

Rickard was a believer in the prowess of Dempsey more than anyone else. He admits that he told Dempsey to hold back a little on the night that he lost his crown, in order to give the customers their money's worth. "Tex" also believed that he could persuade Dempsey back into the ring and many believe that had he lived, this would have been the case. The only hitch in the program would have been to find somebody capable of giving Dempsey a good fight, in other words could anyone give the cash customers their money's worth.

Within recent years in the big cities, local basketball leagues have sprung up until today the games played in these circuits hold as much interest as most college games. Industrial concerns, organizations and churches have teams and these teams play regular schedules. The attendance at these games is very good and no doubt much interest in the sport is created that otherwise would not be the case.

Cameron has many good court players who are anxious to play but no court is suitable at the present time. One of the best things that could happen to this town would be for someone to interest the business men in building a good gymnasium with a good court, then organize a basketball league. Teams could be formed from the various fraternal organizations as well as the churches and Sunday schools. In this manner, the project would have the support of these bodies.

In this day when petting and cocktail shaking are the favorite indoor sports, the organization of such a project would put a stop to most of this and give the young bucks an opportunity to spend their spare time in a really profitable manner. This is merely a suggestion and anyone who wants to follow it up will be sure to have the cooperation of those who should be interested.

Miller Huggins, the diminutive manager of the champion New York Yanks, believes in an early start. Some of his proteges believe the same thing. Herb Pennock, star southpaw twirler of this bunch has asked to be allowed to report at St. Petersburg, Fla., early so that he will be able to me in the right trim by the time regular training time starts. Babe Ruth is in a Gotham gymnasium keeping down to 230 pounds while Wiley Moore is keeping his arm in trim by shying corn cobs at the birds in Oklahoma. It will go hard for the other boys in the league when this aggregation of hard hitters get together. If it isn't Ruth, it's Gehrig and the opposing pitchers don't know which is the worse of the two to say nothing of the others.

Just about this time of year the Hot Stove league is in full blast and all sorts of rumors are floating around. Some say the Yanks won't have a chance while others come back and ask, "Who else can beat them?" The St. Louis Browns have done it and the Athletics did it too, but, and it is a big "but," the Yanks stayed at the top of the column most of the year and then when everybody was predicting their fall in the World Series, they up and handed the Cardinals a licking that they shall never forget.

Then again the monotony of win-

ning games may have gotten on the nerves of Huggins' gang and they may drop more games than they should. New material may be lacking in spite of what Colonel Ruppert has done and then towards the last of the season, something is going to crack. This was predicted last year and it came near to the truth and it was just by the skin of their teeth that they pulled through.

The National League is going to show some real stuff this year and some of the liveliest battles of the diamond will be seen by the fans. It is going to be anybody's fight with the Chicago Cubs having the edge on the rest of the boys at this time.

T. C. U. athletic officials have had many applications for the job of coach to fill Matty Bell's shoes, and incidentally it is going to be mighty hard to fill those shoes. Bo McMillan of Center College fame has been seriously considered but it is going to be difficult for him to break away from his present contract at Kansas A. & M. Bell left a niche that will be hard to fill because he was universally respected and his ability as a coach could not be doubted. He is a young man and most of his career is before him and great things are predicted for him.

Essex Challenger Has New Improved Style Four Wheel Brakes

Full floating, self aligning, two shoe four wheel brakes provide two-way braking efficiency on new Essex Challenger.

The brake shoes float in position and present the full surface of the lining at the instant of brake application.

With this design of floating shoe it is impossible for the brakes to drag. This improvement will increase the service life of the brake and furnish a trouble free braking system. Ordinary brakes have from 30 per cent to 50 per cent efficiency upon application when the car is reversing. The Essex Challenger full floating brake shoes provide 100 per cent efficiency either forward or back.

These shoes are lined with a pressure molded lining. This lining is impervious to water and oil, providing full brake pressure power under all weather conditions. Tests conducted showed that service wear did not detract from their efficiency because the lining is identical in texture throughout.

The whole braking system is an example of simplified design typical in the new Essex. A single adjustment easily made without tools is provided to compensate for wear. This is the only adjustment necessary to maintain the full effectiveness of the braking system.

"if we can not convict Walker we'll turn him over to someone who can." Captain Frank Hammer of the Texas Rangers said today he is confident "we can send him to the chair," referring to Walker.

MAYSEIELD 4-H CLUB

The 4-H Club met at the school house, January 11, 1929 with the following members present: Opal Allen, Ada Lee Massengale, Nell and Artie Mae Red, Jo and Bernice Baylor, Ruby Nicholson, Mary Alice Phipps, Willie and Myrtle Holloway, Mary

Paterson, Velma Waits, Mildred and Grace Thweatt.

Miss Bartholomew awarded the girls who had finished their work a pin and certificate each. The following girls received awards: Grace Thweatt, Willie and Myrtle Holloway, Mary Alice Phipps.

Miss Bartholomew told us what to bring to work on our next meeting. There were two new members received and one visitor at the meeting.

The election of new officers was as follows:
President, Grace Thweatt.
Vice-President, Nell Red.

Song Leader, Ada Lee Massengale. Yell Leader, Jo Baylor. Some of the girls handed in a picture of their bed room work. We adjourned to meet again at the school house on Friday, January 25th.

LET THIS AGENCY PROTECT YOU

MRS. EDNA W. TRIGG

College Station, Texas, Jan. 15.—Back in 1912, the year that the woman's phase of agricultural Extension work was formally recognized by the United States Department of Agriculture, some of the first county home demonstration agents in Texas gathered at Waco for a conference. This group, shown in the accompanying illustration, was made up of workers assigned to West Texas points. Among them was Mrs. Edna W. Trigg, at present home demonstration agent in Denton County, who today holds the palm for the longest period of service as home demonstration agent in Texas, having been in the service for 16 consecutive years. At the time of the Waco conference, Mrs. Trigg had just begun work in Milam County. She later served in Childress County and since 1916 has been stationed in Denton County.

In the front row in the group picture, left to right, are shown C. M. Evans and H. H. Williamson. Mr. Williamson at the time represented the A. & M. College of Texas Extension Service in cooperating with the Cooperative Farm Demonstration Work among boys' and girls' club work in West Texas. He is now vice director and state agent of the Extension Service, stationed at College Station. Mr. Evans, then superintendent of the A. & M. Extension Service, is at present agricultural agent of the Texas Pacific Railroad. Mrs. Trigg is shown in the group seated in high-backed chair. Standing at the left in the rear row of the group is O. H. Benson who at the time was assistant to O. B. Martin, then representing the U. S. Department of Agriculture in developing farm girls' clubs in the South. Mr.

Martin is now director of the Extension Service at A. & M.

Many interesting stories of the early phases of home demonstration work development doubtless will be recounted by pioneers in the work during the Twenty-fifth Anniversary celebration of agricultural Extension work in the United States to be held in conjunction with the annual meeting of the Southern Agricultural Worker's Association at Houston February 4-8. Home demonstration work in 1912 was limited to instruction of farm girls in poultry and canning. Today there are 100 county home demonstration agents in Texas working with 18,000 farm women and 16,000 farm girls in a well rounded program including virtually every phase of home making.

ness meeting was held first with the president, Mrs. John Green, in charge. A report was heard from the committee appointed to secure shrubbery for beautifying the church grounds, a project which has been undertaken by the

ladies. The plans for the presbyterial which will be held here in the spring were also discussed.

January has been the foreign mission month in the Auxiliary and a book on foreign missions has been stu-

died at each meeting. This will be completed next Monday.

Mr. and Mrs. Wm. Gary of San Marcos are the guests of Mrs. Gary's parents, Mr. and Mrs. A. W. Esslinger.

Mortuary

JIM PRICE

Jim Price, two-year old son of Mr. and Mrs. Jess Price of Ben Arnold, died suddenly Sunday afternoon at six o'clock. He was playing in his father's lap and fell dead. Funeral services were held Monday afternoon at North Elm church, Rev. P. T. Ramsey officiating. Interment was in the cemetery at North Elm, with Coleman-Eplen in charge.

SAM NICHOLSON

Sam Nicholson, age 79 years, died at his home at Hoyte Friday morning at 11:45 o'clock. Funeral services were held at the home Saturday afternoon at 3:00 o'clock, with Rev. J. D. Potts of Austin officiating. Interment was in Rice cemetery, Coleman-Eplen in charge. Pall bearers were Judge John Watson, Judge Jeff Harold Pressley and Mr. Haygood.

Mr. Nicholson was born in Council Bluffs, Iowa in July, 1849. He came to Texas about fifty years ago, and after coming here was married to Miss Nancy Lowry, who was a native of Alabama. They were married 44 years ago. Mr. Nicholson was a member of the Presbyterian church at Hoyte. He was a charter member of the Odd Fellow's Lodge at Milano but the chapter was disbanded several years ago and Mr. Nicholson never did transfer his membership anywhere else.

He is survived by his wife and 7 children: Sam and John Nicholson of Houston, Jack Nicholson of Burlington, Mrs. John Atkinson of Ft. Worth, Misses Emily and Sophia Nicholson of San Antonio and Mrs. H. L. Gunn of Pharr. All these were present for the funeral services.

MRS. ANNA DARKENEYER

Mrs. Anna Darkeneyer, 75 years old, died on January 16 at 6:30 o'clock in the evening at her home near Ben Arnold. A dual funeral service was held on January 17 by Rev. Kalkbrenner, the first part of which was conducted in German at Vogelsang's church and the second part in English at the church at Walker's Creek. Interment was in Walker's Creek cemetery with Green Brothers in charge. Pall bearers were Charles Hightower, Dewey Hightower, Theodore Henderson, E. Roessler, Lonnie Emillange and Mr. Birkledach.

Mrs. Darkeneyer is survived by 3 children: Henry Darkeneyer, Mrs. O. Lucko and Mrs. Bennie Juergens. Her husband died several years ago. She had lived in Milam county for about forty years.

R. B. EDWARDS

R. B. Edwards died at his home in Waco at 6:30 o'clock in the evening, January 16. He was 38 years old. Funeral services were held at Minerva at the home of his mother, Mrs. S. T. Edwards, at 2:30 o'clock January 18. Interment in the cemetery at Minerva, Green Brothers conducting.

Mr. Edwards is survived by his wife two children his mother, three brothers, and three sisters. He was born and reared in Minerva.

MRS. VICTORIA CHAFIN

Mrs. Victoria Chafin, age 70 years was fatally burned at her home on N. Travis Street Sunday afternoon at about five o'clock. She was taken to the Cameron Hospital where she died at 9:30 that evening.

According to a report from neigh-

bors, Mrs. Chafin's daughter who lives next door to her, went to see about her mother just before the tragedy occurred and replenished the fire in the small heater. The next that was known, Mrs. Chafin appeared on the front, calling for help. It is supposed that she walked too near the open front of the stove and her clothing was ignited. Neighbors rushed to her and smothered the flames, but her body was badly burned and it is understood that she swallowed some of the flames.

Burial was at Rice cemetery Monday afternoon at three o'clock with Rev. H. G. Kenney of the Presbyterian church officiating. Pall bearers were Bill Storey, Jim Adams, Lester Slaughter, Isaac Duncum, Fred Shoaf and Emil Henderson of Belton.

Mrs. Chafin was born in Upshur County, Texas. She was married 46 years ago, her husband having been dead for about 25 years. She has lived in Cameron for about 18 years. She was a member of the First Baptist church, having professed faith when she was a girl. Here has been a Christian life. When she was told that her burns would prove fatal, she said that she was prepared to die.

She is survived by three daughters, Mrs. Pat Gill of Cameron, Mrs. G. W. Ray of Ballinger and Mrs. R. H. McFarland of Austin.

W. H. DUKES

W. H. Dukes, father of Mrs. E. B. Lovick of Cameron, with whom he had made his home for the past month, died suddenly Saturday at twelve o'clock. Mr. Dukes had apparently recovered from a recent attack of influenza and had gone to town. He was leaving the court house when he was stricken and he died immediately.

Funeral services were held at the home of Mrs. Lovick Sunday afternoon at three o'clock. Interment was in the cemetery at Milano with Rev. L. O. Bryerly of Rockdale, pastor of the Christian church, officiating. Funeral arrangements were in charge of Coleman-Eplen. Pall bearers were Ralph Robinson, Oran Robinson, Bennie Archer, Fred Johnson, Jim Lanning and W. E. Kuchl.

Mr. Dukes was born in Georgia on December 14, 1849. He was married in 1869, shortly after which he came to Milam county where he lived to the time of his death. His wife died exactly one month and four days previous to him. Before her death Mr. and Mrs. Dukes lived in Milano, where they operated a hotel, but after her death he came to Cameron to make his home with his daughter. He is survived by two children, Mrs. E. B. Lovick of Cameron and L. B. Dukes of Milano.

Out of town relatives present at the funeral were Mrs. Mary Goodson of Houston, a sister; Mrs. Ed Crenshaw of Bryan, a niece; Mrs. James Lanning of Rockdale, a niece; and Mr. and Mrs. Charles Miller of Houston.

THEO JANICEK

Theo Janicek, age 17 years, died at his home in Clarkson at 7:30 o'clock in the morning, January 11. He died from an attack of pneumonia following influenza.

Funeral services were held on January 12 at the Burlington Catholic church, Rev. J. T. Marearty officiating. Interment was in the Catholic cemetery at Burlington at two o'clock January 12.

Pall bearers were Robert Edwards, Jim Hank, Howard Schwarting, Roy Douglas, Durelle Mitchell, John Gar-

rett, Henry Garrett and Charles Freimel.

Sadness was brought to the hearts of his many friends by the news of the death of Theo. He was a pupil of the Clarkson school and was quite active in all the school affairs. He is survived by his parents, Mr. and Mrs. Frank Janicek; two brothers, Lawrence and Hubert; and two sisters, Laura and Marcella.

People from Cameron attending the funeral services were Mr. and Mrs. Steve Marak and family, Mr. and Mrs. J. L. Hrosek, Mrs. A. V. Wokaty, Mr. and Mrs. Leo V. Stecker. From Temple were Mr. and Mrs. J. J. Kohut and from Marak, Mr. and Mrs. Joe Janicek.

CARD OF THANKS

We take this method of extending our sincere and heartfelt thanks to our friends and neighbors who during the days of illness and death of our beloved wife and daughter, Mrs. Kirby Boles, came to us with words of comfort and deeds of kindness. While our sorrow and grief are sometimes more than we can bear, we cherish the words of consolation spoken by our friends and neighbors for they help us to see through the shadows. To those who gave floral tributes in expression of their grief and sympathy we extend our sincere thanks, and to all who assisted us in any way we are deeply grateful, remembering always in our hearts your many expressions of cheerfulness and help. We speak for one who now cannot speak for herself but whose heart would have been touched as ours have been warmed by these expressions of love and sympathy.

Kirby Boles
Mrs. Laura Williamson
and children.

The members of the senior B. Y. P. U. of the Baptist church presented the play, "Farmer Brown's Conversion to Stewardship" to an audience at the Baptist church at Burlington Sunday afternoon. Special numbers between acts were rendered by Nathan McGehee playing a cornet solo and Miss Willie Day giving a pianologue.

Firestone

is the Toughest Tire in the World

Listen in on your radio every Monday night from 7:00 to 7:30 P. M. "The Voice of Firestone."

On Houston, San Antonio and Dallas Stations

Horstmann Brothers

Tire Store - - - Cameron

Toughness — Durability — Long Mileage — Safety! This is what you want in tires. The best non-skid tread ever put on a tire grips the slippery roads that you have to travel at this time of the year. Winter or summer—Firestone Gum-Dipped Tires give the greatest mileage, the greatest safety. Gum-Dipping—an extra patent process—is another reason why Firestone Tires give most miles per dollar. Drive around and let us put your car on a "safe footing" today.

Trade Briefs

Two dozen oranges for 27c brought an unusual number of customers to the J. T. Parma store on last Saturday for these Sunkist specials. Mr. Parma reports the biggest day in years, having sold 16 boxes of oranges and 400 loaves of bread. He had a special price on bread. Mr. Parma has demonstrated the value of advertising and is a consistent user of the printed price for his store.

Judd G. Davis of the Milam County Hardware Company is in Dallas this week to attend the state convention of hardware dealers of Texas. Mr. Davis never fails to attend the convention and keeps abreast of the times in his business. The hardware store at this time is pushing the new Perfection refrigerator that operates for 2c per day, burning kerosene oil.

R. G. Grabein, sales manager for the Hubert Hefley Motor Company returned from Houston where he brought back with other drivers five new Ford automobiles. The Ford assembly plant at Houston is working capacity time and turning out the new cars at a rapid rate. The local dealers are making immediate deliveries of the new cars.

Joe Casey has accepted a position with the Hubert Hefley Motor Company as a salesman. Mr. Casey was formerly with the Hubert Hefley Company but for the past two years has been with the Coleman Chevrolet Company. Mr. Casey is an efficient salesman and has many friends who will be interested in this announcement.

Horstmann Brothers have only one of the new Essex cars left out of the car shipment. "The new Essex has made a profound impression here as well as over the nation," said Bismark Horstmann. While at this time it is difficult to get cars in sufficient numbers to supply the demand the factory will soon be able to put out cars in the required ration.

The Ham House is advertising in The Herald this week some very attractive prices on groceries. Bob McLane as an ad writer has for a number of years attracted wide attention. The big store believes in advertising and always has something interesting to offer the people.

"All Gone" Feeling
Left After Taking
Black-Draught.

Mrs. I. Brakefield, of Calhoun, S. C., says:
"I would feel tired and have a bad taste in my mouth. I would be dizzy, and every little while I felt like I must sit down."

"Someone recommended Black-Draught to me and said it might help me. I took a few doses and it did help me wonderfully."

"I now use it when I have that tired 'all gone' feeling, and it is simply fine. I can recommend Black-Draught, and do so all the time."

Get a package of Black-Draught, today, and try it.

BLACK-DRAUGHT
For Constipation, Indigestion,
Biliousness

The new Chevrolet Six has found universal approval here among car owners. The Coleman Chevrolet Company has received their first car load shipment and these cars have all been sold. Mike Coleman, manager of the company, has a large number of orders booked for the new six. Dero Jenkins, sales manager for the company is a busy man these days demonstrating the new car and filling orders for them.

Chas. Zidell of the New St. Louis Store reports a good business. He has placed on sale his entire stock for January and is offering some exceptional bargains. He is a firm believer in advertising and is making the store popular with the buying public.

R. H. McIntosh who has been ill is back at his post of duty with the Cheeves Brothers Store. His many friends will be pleased to note that he has recovered. Mr. McIntosh has figured prominently in the promotion of the milk plant for Cameron. The section dedicated to the opening of the plant on February 1 carries a sketch of Mr. McIntosh whose influence will be a big factor in the success of the plant.

J. R. Hays now with the Max Collins store has made a good record in the dry goods business. Mr. Hays spent a number of years as an advertising man on many Texas newspapers including The Herald. In this issue will be found an interesting advertisement of the closing out of the dry goods and clothing department of the Max Collins business, offering some exceptional bargains.

The Cone Implement Company has the largest display of farm implements ever assembled here for the International Harvester Company. Included in this display are a number of tractors and special machinery for the farm. Mr. Cone is a hard worker and his store presents an attractive appearance.

The New Cameron Drug Company is concluding an invoice this week of the big stock. Manager Joe Denson, has been ill as has been a large number of the employees of the store but are all back at their posts of duty now and the business is going forward with the accustomed personnel.

A. E. Schiller of the Schiller Motor Company expects the arrival here within a few days of the New Pontiac Six cars. This car placed on display at the New York automobile show on January 5 made a profound impression in the world of motors. The new car is much improved and the price is very low considering the value of the car. An interesting announcement ad will be found in this issue of The Herald.

Albert Triggs, Jr., has sold his filling station interests to Carl Fikes, who has assumed control of the business. Mr. Triggs will leave Cameron in a few days for Mineola where he will engage in business. Mr. Fikes is a young man and son of Mr. and Mrs. D. Fikes of the Bluebonnet Cafe. The station sells Texaco products.

Louis F. Gohmert is ill at his home

this week. He had just returned home from the markets when he was taken ill with flu. He expects to be up and at his place of business in a few days.

The Postal Telegraph Company has been moved from Johnnie's place to the building occupied by the Keith Electric Company. Mr. Williams from Temple will be the local manager for the company. He is expected to arrive here this week.

CARD OF THANKS

We wish to thank our friends for the many acts of kindness and floral gifts during the recent illness and death of our beloved husband and father, Mr. Sam Nicholson, Sr.

Especially do we wish to thank Rev. Potts of Austin and the quartette of Cameron for their services.
Mrs. Sam Nicholson
and family.

THE STATE OF TEXAS

To the Sheriff or any Constable of Milam County, Greeting—

You are hereby commanded to summon Osie Phoenix by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Milam County, to be holden at the court house thereof in Cameron, on the 4th day of March 1929, the same being the 1st Monday in March 1929, then and there to answer a petition filed in said court on the 13th day of November 1928, in a suit, numbered on the docket of said court No. 10104, wherein Leon Phoenix is plaintiff and Osie Phoenix, is defendant said petition alleging:

Statutory ground three years abandonment.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this the 17th day of January A. D. 1929.

Penn Wolf, Clerk,
40-4 Dist. Court, Milam Co., Texas

Would You Attend a Business College

Realizing that a great number of young people are deprived of an opportunity of attending a business college because of the lack of money, our STUDENT LOAN FUND ASSOCIATION was created for the express purpose of furnishing the necessary help to worthy boys and girls.

We have selected the Tyler Commercial College of Tyler, Texas as the college we can most consistently recommend. This is one of the oldest business schools as well as one of the most widely known for its thorough work and its successful graduates out in the world of business.

We have made arrangements with the Tyler Commercial College by means of which we can take care of a limited number of young people thru our loan fund.

If you are in good standing in your community and can furnish the best of references, we shall be glad to help you. We have helped a number of deserving young people in the past who are now independent wage earners and enthusiastic boosters for our Association.

We are especially interested in helping young men and young women who have been forced on account of financial reasons to drop out of high school or college.

In order to receive help from this Association it is only necessary to clip the coupon attached and mail it to us or to the Tyler Commercial College. We can then work out a plan whereby you will be enabled to enter the College even though your funds are limited.

Clip out the coupon and mail it to—

SHERIFF'S SALE

The State of Texas,
County of Milam,

Whereas, on the 16th day of November A. D., 1928, in a certain cause numbered 1001 on the docket of the District Court of said county, wherein the State of Texas is plaintiff and Henry F. Lippman, Bertha Lynch and Eunice Dill are defendants, the said plaintiff recovered judgment in the amount of Two Hundred thirty-five and 88-100 dollars for taxes, and legal amount penalties, costs and interests computed thereon, together with the foreclosure of plaintiff's delinquent tax liens upon the property herein-after described as the property of the defendants, because of non-payment of the taxes due thereon;

And whereas, on the 4th day of January, A. D. 1929, by virtue of the said judgment and the mandates thereof, the Clerk of the District Court of said county did cause to be issued

an Order of Sale, commanding me as Sheriff of said County to seize, levy upon and sell in the manner and form as required by law the hereinafter described property as the property of the above defendants, to satisfy the said judgment.

Wherefore, by virtue of the said Order of Sale and the mandate thereof, I did on the 5th day of January A. D. 1929, seize and levy upon as the property of the above defendant, the following property, to-wit:

98 1-2 acres of land on the David Gallagher League in Milam County Texas, and beginning at the N. W. corner of the Common 50 acre tract, same being the N. E. corner of the Vernon Russell 150 acre tract for the N. E. corner, of this; thence with the N. line of the 150 acre tract S 60 W. 781 vrs; to a rock for N. W. corner from which a P O brs S. 45 E. 18 vrs; thence S. 45 E. 738 vrs to P O for cor; thence S. 80 E. 124 vrs to stk in edge of gully for cor; thence N. 77 E. 300 vrs to a large post for cor; thence N. 45 E. 125 vrs to cor in the west line of the William Weiseland. thence N. 30 W. 130 vrs to N. W. cor of said Weise tract; thence N. 60 E. 68 vrs to a stake for cor; thence N. 30 W. 781 vrs to the place of beginning.

And I will on the first Tuesday in the month of February A. D., 1929, the same being the 5th day of said month, proceed to sell said property

IT'S DANGEROUS GROUND

you stand on—with a cough, a cold or gripe, and your blood impoverished. You must do something! Dr. Pierce's Golden Medical Discovery enriches the blood—builds health and strength.

Mrs. Beatrice Morrison of 4318 Terry St., Dallas, Texas, remarked: "Dr. Pierce's Golden Medical Discovery is a splendid family medicine and one that I generally keep in the house. I always give it to my children for coughs and colds. My little girl has been especially benefited by taking this medicine. Diphtheria left her with bronchial weakness and she got run down, thin and puny. I gave her the 'Golden Medical Discovery' and it built her up in health."

All druggists. Tablets or fluid.
Send Dr. Pierce, Buffalo, N. Y., 10c if you desire a trial pkg. of tablets. Write for free medical advice.

Lesson for January 27

THE HOLY SPIRIT

LESSON TEXT—John 16:7-11; Romans 8:12-17, 26, 27.
GOLDEN TEXT—For as many as are led by the Spirit of God, these are sons of God.PRIMARY TOPIC—Our Unseen Helper.
JUNIOR TOPIC—Our Unseen Helper.
INTERMEDIATE AND SENIOR TOPIC—How the Holy Spirit Helps Us.
YOUNG PEOPLE AND ADULT TOPIC—The Work of the Holy Spirit.

I. The Personality of the Spirit (John 16:7, 8).

Personality is here implied by the use of the personal pronoun. In the original Scriptures personal pronouns are used uniformly in speaking of the Spirit. Then, too, He is called the Comforter. The word "comforter" literally means one called to stand by the side of another as a helper, counselor and guide. While Jesus sojourning in the world He was such to His disciples. He assured them that upon His withdrawal the Holy Spirit would take His place as friend, helper and counselor. The personality of the Spirit is also proved by the fact that He performs acts only possible to persons. In John 14:26 He performs the function of a teacher. He not only teaches, but He speaks as a person, giving direction to the disciples as in Acts 8:29 and 13:2. His personality is again proved by the fact that men act toward Him as they could act only toward a person. In Isaiah 63:10 the prophet declared that men vexed the Holy Spirit. It would be manifestly improper to speak of vexing an influence; only a person can be vexed. In Matthew 12:31 Jesus speaks of men blaspheming against the Holy Spirit. It would be impossible to blaspheme against an influence. In Ephesians 4:30 Paul speaks of grieving the Spirit. Again, it would be manifestly improper to speak of grieving an influence. Further, in 1 Corinthians 12:11 Paul speaks of the Holy Spirit exercising the function of will. One of the essential characteristics of personality is that of volition. The Holy Spirit is represented as divine. He has the attributes of deity. In Psalm 139:7-9 He is declared to be omnipresent; in 1 Corinthians 2:9-11 omniscient. He also performs the works of God. He is the creator and renewer (1's. 104:30). He is called God in Acts 5:3-4, and II Corinthians 3:18.

II. How Believers are Related to the Holy Spirit. They are regenerated by Him (John 3:5-8); they are indwelt by Him (I Cor. 6:19 Gal. 4:6) He also fills (Eph. 5:18 and Acts 4:31). To be filled with the Holy Spirit is the duty of every believer. No one has the right to perform any work for Christ without this filling (Luke 24:48,49; Acts 1:8). Even the temporalities of the church should be in the hands of Spirit-filled men (Acts 6:1-3).

III. What the Holy Spirit Does (John 16:8-11).

1. Convicts the world of sin (v. 8). The one awful sin of the world is unbelief. The Holy Spirit convicts the people of the world of their error concerning sin and shows their guilt before God.
2. He convicts the world of righteousness (v. 10).
3. The resurrection and ascension of Christ prove that He is the Righteous One, and that righteousness is only possible as He is accepted as Savior.
4. He convinces the world of judgment.

To be convinced of the reality of judgment is the crying need of the world today. Sin unatoned for shall be punished. The sinner who refuses the righteousness which God provided in Jesus Christ also shall be judged.

4. The Spirit mortifies the deeds of the flesh (Rom. 8:12, 13).
- The only way to get the victory over our carnal natures is to give the place of rulership to the Holy Spirit.
5. He leads the believer (v. 14).
- The Spirit-filled believer lives the life of the Son of God.
6. He gives assurance to the believer (Rom. 8:15-17).
- The Holy Spirit witnesses together with the human spirit to the reality of the new birth.
7. He enables the believer to pray according to the will of God (Rom. 8:26, 27).

While the believer does not know how to pray as he ought, the Holy Spirit helpeth his infirmity. All prayer which the Holy Spirit indites the Heavenly Father answers.

Partner of the Lord
Every young man and woman should be a junior partner with the Lord Jesus for the salvation of the world.—Jacob Chamberlain.

A Ruined Day
The whole day may be ruined by an impatient word, a prejudiced judgment, a hasty decision, a fit of ungoverned temper.—J. C. Massee.

All Prayers Not Answered
I have lived long enough to thank God that all my prayers were not answered.—Jean Ingelow.

Battle Won by Prayer
Why talk so much? The battle is won by prayer.—J. W. Lee.

TRAVELING MAN TAKES
OWN LIFE AT HOTELVERDICT OF SUICIDE IN DEATH
OF C. S. TITSWORTH AT LOCAL
HOTEL TUESDAY

O. S. Titsworth was found dead in his room at a local hotel early Tuesday morning, and an inquest held by Justice of the Peace L. H. Hillyer developed the verdict of suicide by poisoning. An empty bottle which had contained carbolic acid was found on the floor by the dead man's body.

The death evidently occurred shortly prior to 6:00 a. m. Other occupants of the hotel reported having heard the man coughing violently between 5:00 and 6:00 o'clock, and moving about in his room as if getting a drink of water. When the room was entered later he was found dead on the floor, his lips apparently burned by the acid.

An unsealed letter was left on the table with written instructions to notify his sister, Mrs. J. J. Carter, of Franklin, Texas. His home address, found in his pocketbook, was 4400 1-2 Worth street, Dallas, Texas.

Titsworth had registered at the hotel the night previous, and had spent the day Monday on the street with his line of samples. He was selling a line of calendars. From the tone of the letter left his rash act was evidently due to despondency.

The body was prepared for burial by the Henne & Meyer undertaking department and was shipped to Marlin for interment. It is understood that decedent was prominently connected in Franklin and Marlin.—Rockdale Reporter.

JONES PRAIRIE 4-H CLUB

The Jones Prairie 4-H Club met January 14 from one o'clock until 2:30. Miss Bartholomew awarded certificates and club pins. Those that received club pins and certificates were as follows: Mary Tom Stidham, Dorothy Mae Black, Ella Louise Black, Hallie Jamison, Ruby White, Lorene Brown, Maudie Canady, Jessie Mae Bell and Gilette McKinney.

We elected new officers for the year and are as follows: President, Mary Tom Stidham; Vice-President, Ruby White; Secretary, Dorothy Mae Black; Song Leaders, Jewel Hickman and Hallie Jamison. Reporter, Pearl Koehler.

The club girls will have their first sewing lesson for this year next club day which will be January 28. We had one new member. We are going to see who can work the hardest in the coming year.

EPISCOPAL CHURCH

Sunday, January 28th
Morning Prayer and Sermon at 11 o'clock.
Sunday School at 9:45 a. m.

CLARKSON

The new house on Joe Schealer's place has been occupied by Mr. Schealer's father and mother.

Mrs. Herman Schwarting and daughter, Katherine and Mrs. A. L. Harris were shoppers in Temple Friday afternoon.

Mrs. W. T. Johnson and daughter, Lucille, Mrs. R. K. Fontaine and little son, Billy, of Jones Prairie were visitors at the Schwarting home Monday afternoon.

The community enjoyed two basketball games Thursday afternoon between Clarkson and Jones Prairie. Jones Prairie was victorious in both of them.

Howard Schwarting and wife attended the basketball games at Jones Prairie Friday afternoon between Ad Hall and Jones Prairie. Jones Prairie was victorious in both games.

Ganell and Lorene Cox were at home from their schools this week end with their parents, Mr. and Mrs. W. W. Cox.

Howard Schwarting and wife and Katherine Schwarting were visitors of Perry Strickler and wife Thursday night.

There is a new house being built for the Schwoboda's where they intend making their home.

A group of the young people enjoyed a basketball game between Clarkson and Rosebud Wednesday night at Rosebud. Rosebud was the winner.

Oliver Rine, whose home was here many years ago is now back in our community.

Theiston Anderson who has been in China several years in now back home and was a visitor at the R. K. Anderson store Saturday.

Among those who were shoppers in Cameron this week were: Tim Mitchell, Buck Bell, E. Campbell, Jim Hank, Mrs. Herman Schwarting and daughter, Katherine, Mrs. A. L. Harris, Mrs. Howard Schwarting, Mrs. J. Freimel and son, Charlie Jr., Joe Schealer, Howard and rank Douglas, Mrs. Walker Cox and daughters.

Barrett Johnson of Jones Prairie was a caller at the Schwarting home Sunday afternoon.

Howard Echwarting and wife and Katherine Schwarting were visitors at the W. T. Johnson home Sunday night.

Ed Kinsey and wife of Maysfield were visitors at the Schwarting home Tuesday.

Perry Strickler and wife were callers at the Starnes home Wednesday night.

lers at the Starnes home Wednesday night.

Mrs. Henry Linsey has been quite ill the past few weeks but is some better at this writing.

THE STATE OF TEXAS

To the Sheriff or any Constable of Milam County, Greeting—

You are hereby commanded to summon Osie Phoenix by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Milam County, to be holden at the court house thereof in Cameron, on the 4th day of March 1929, the same being the 1st Monday in March 1929, then and there to answer a petition filed in said court on the 13th day of November 1928, in a suit, numbered on the docket of said court No. 10104, wherein Leon Phoenix is plaintiff and Osie Phoenix, is defendant said petition alleging:

Statutory ground three years abandonment.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this 17th day of January A. D. 1929.

Penn Wolf, Clerk,
40-4 Dist. Court, Milam Co., Texas

CHAS. MCGEEHEE HEADS KNIGHTS OF PYTHIAS

ACTIVE FRATERNALIST IS HONORED BY LODGE AT ELECTION HELD MONDAY NIGHT

Chas. McGehee, active fraternal worker and one of Cameron's best known and esteemed young men, has been installed as Chancellor Commander of the Knights of Pythias Lodge.

The installation ceremony was observed in the Castle Hall of Milam Lodge No. 125 on Monday night with a large number of members present to witness the taking of office by the newly elected officers.

Mr. McGehee has been a Pythian for only about eighteen months, but his zeal for the work and his fine personality has so impressed the members of the lodge that he has been called to a place of leadership. Members of the lodge are looking forward to a most successful administration for Mr. McGehee and they see in his election a potential outlook for Pythian growth in Cameron.

Mr. McGehee succeeds Robert McCown in the office of Chancellor Commander who has had a most excellent administration, being one of the young and influential members of the lodge.

W. L. Wilson, one of the young members of the lodge has been installed as Vice Chancellor. Mr. Wilson has been a member of the Lodge only a short time but he has given to the work his loyal attention and his service has impressed the members.

Other officers elected were: Chas. Nabours, Master of Work; W. G. Gillis, Prelate; E. W. Hood, Keeper of Records and Seal and Master of Finance. Alvin Dusek, Master of Exchange; Cecil Wilson, Master at Arms; Oscar Schiller, Inner Guard; R. W. Henderson, Outer Guard.

Practically all the newly installed officers are young members. Elbert W. Hood, is a veteran member and as Keeper of Records and Seal for the Lodge has succeeded to the place held by the late Fred Henry, esteemed as Cameron's best loved Pythian Knight. Mr. Hood is sincerely and efficiently discharging his duties of this office and he is responsible in a large measure for the success of the lodge.

W. G. Gillis has been serving as Prelate of the lodge for a number of years and is one of the local and influential members of the lodge.

Speeches pledging support to Mr. McGehee, the new Chancellor Commander, were made. Mr. McGehee in his impressive way made response to the pledges of support.

The rank of Knight was conferred on Earl Moseley.

Maytag Shop

(continued from page 1)
ever equalled this record.

Radio nights for the Maytag washing machines are held with a nationwide hookup of 52 stations and the people of Cameron are invited to watch for the announcements and read the programs in the radio columns of the daily newspapers.

The Maytag Shop here is a chain store, the next one to be opened in Brenham. Mr. Schmidt, the district manager is with the Maytag Shop in Waco.

Three types of machines are on display here. The A. C. current; D. C. current machine for private hookup and the gas engine machine. The gas engine is a marvelous mechanical invention and the Maytag people are one of the largest manufacturers of gas engines.

Cameron is growing and attracting the business of many distributing concerns and sales programs and the Maytag Shop will be widely patronized here.

Mrs. Watson

(continued from page 1)

tainly have a responsible woman engineer in it. You see, I am so interested in women, being one myself and therefore understand their household problems better than any man could, that I return again to that question. Man and woman were made to work in conjunction with one another and there is no field of business from the home on through big business where the assistance of women can be dispensed with. In this field I believe more and more women will come into it as man realizes, and woman too that the personal contact with housewives must be made by women who are especially trained and who can understand the housewife's problems. One of the most vexing problems that the housewife has to meet is the plumbing of her new home. If properly handled there will be no trouble but if carelessly and cheaply put in unsanitary conditions and disease will follow. The plumbing features of a house is one that cannot be neglected because of cost."

A woman in the field of engineering, mentioned at one time purely a field, stirred the reporter's mind and it was with much joy found in Mrs. Watson a most woman with personality of

a buoyant, enveloping kind that carries all before it and creates unto itself an aura of charm made from an intense interest in humanity. "For humanity is woman's greatest interest," she said as she left the reporter to meet with the classes she had come to attend.

Hatchery Will Open Here February 1st

The Cameron Hatchery will open for business on February 1. An announcement in this issue tells of the opening on that date. The hatchery will be in charge of O. J. Hanszen again this year. He is a graduate of A. & M. College and an expert in the business. Mr. Hanszen says:

We expect a very successful season this year. An indication of the demand for chicks can be seen in the fact that Mr. Kazmeier, now has over six times as many checks sold for future delivery than he had at this time last year.

The good price that the farmers have received for their produce and the shortage of pullets, are the two things that are causing this increase demand. Last year the U. S. as a whole did not raise enough pullets to replace the old stock that was killed or sold. We have not only received a good price for eggs through the past fall and winter, but the price is still holding up about three weeks after it usually falls.

Rockdale Man Kills Wife With a Razor And Ends Own Life

Rockdale, Tex., Jan. 20—After killing his wife with a razor, Aaron Cotton, 47, late today took his own life with poison.

Cotton, estranged from his wife had gone to visit her at the home of her parents near here.

When Mrs. Cotton informed her husband that she would not return with him, he cut her throat. Several members of the family sprang after him as he made a dash through a pasture. After running a short distance, Cotton poisoned himself and then tried to cut his throat while in a dying condition.

A verdict of murder and suicide was returned.

Cotton had been acquitted of insanity in a trial at Cameron recently.

SHERIFF'S SALE

The State of Texas,
County of Milam,

Whereas, on the 16th day of November A. D., 1928, in a certain cause numbered 1001 on the docket of the District Court of said county, wherein the State of Texas is plaintiff and Henry F. Lippman, Bertha Lynch and Eunice Dill are defendants, the said plaintiff recovered judgment in the amount of Two Hundred thirty-five and 88-100 dollars for taxes, and legal amount penalties, costs and interests computed thereon, together with the foreclosure of plaintiff's delinquent tax liens upon the property herein-after described as the property of the defendants, because of non-payment of the taxes due thereon;

And whereas, on the 4th day of January, A. D. 1929, by virtue of the said judgment and the mandates thereof, the Clerk of the District court of said county did cause to be issued an Order of Sale, commanding me as Sheriff of said County to seize, levy upon and sell in the manner and form as required by law the hereinafter described property as the property of the above defendants, to satisfy the said judgment.

Wherefore, by virtue of the said Order of Sale and the mandate thereof, I did on the 5th day of January A. D. 1929, seize and levy upon as the property of the above defendant, the following property, to-wit:

98 1-2 acres of land on the David Gallagher League in Milam County Texas, and beginning at the N. W. corner of the Common 50 acre tract, same being the N. E. corner of the Vernon Russell 150 acre tract for the N. E. corner, of this; thence with the N. line of the 150 acre tract S 60 W. 781 vrs; to a rock for N. W. corner from which a P O b rs. S. 45 E. 18 vrs; thence S. 45 E. 738 vrs to P O for cor; thence S. 80 E. 124 vrs to stk in edge of gully for cor; thence N. 77 E. 300 vrs to a large post for cor; thence N. 45 E. 125 vrs to cor in the west line of the William Weiseland. thence N. 30 W. 130 vrs to N. W. cor of said Weiseland tract; thence N. 60 E. 68 vrs to a stake for cor; thence N. 30 W. 781 vrs to the place of beginning.

And I will on the first Tuesday in the month of February A. D., 1929, the same being the 5th day of said month, proceed to sell said property at the Court House door of said county, in the city of Cameron, between the hours of 2 o'clock p. m. and 4 o'clock p. m., to the highest bidder for cash all the right, title and interest of the above defendants, in and to the above described property; subject, however, to the rights of the defendants, to redeem same in the time and to the further rights of the defendants to have said property divided and sold in less divisions than the whole. And in event there are no bidders, said property will at said sale be bid off to the State.

L. L. Blaylock, Sheriff,
Milam County, Texas.
38-3tc
Will Vaughan, Deputy.

Lesson for January 27

THE HOLY SPIRIT

LESSON TEXT—John 16:7-11; Romans 8:12-17, 26, 27.

GOLDEN TEXT—For as many as are led by the Spirit of God, these are sons of God.

PRIMARY TOPIC—Our Unseen Helper.

JUNIOR TOPIC—Our Unseen Helper. INTERMEDIATE AND SENIOR TOPIC—How the Holy Spirit Helps Us. YOUNG PEOPLE AND ADULT TOPIC—The Work of the Holy Spirit.

I. The Personality of the Spirit (John 16:7, 8).

Personality is here implied by the use of the personal pronoun. In the original Scriptures personal pronouns are used uniformly in speaking of the Spirit. Then, too, He is called the Comforter. The word "comforter" literally means one called to stand by the side of another as a helper, counselor and guide. While Jesus sojournd in the world He was such to His disciples. He assured them that upon His withdrawal the Holy Spirit would take His place as friend, helper and counselor. The personality of the Spirit is also proved by the fact that He performs acts only possible to persons. In John 14:26 He performs the function of a teacher. He not only teaches, but He speaks as a person, giving direction to the disciples as in Acts 8:29 and 13:2. His personality is again proved by the fact that men act toward Him as they could act only toward a person. In Isaiah 63:10 the prophet declared that men vexed the Holy Spirit. It would be manifestly improper to speak of vexing an influence; only a person can be vexed. In Matthew 12:31 Jesus speaks of men blaspheming against the Holy Spirit. It would be impossible to blaspheme against an influence. In Ephesians 4:30 Paul speaks of grieving the Spirit. Again, it would be manifestly improper to speak of grieving an influence. Further, in 1 Corinthians 12:11 Paul speaks of the Holy Spirit exercising the function of will. One of the essential characteristics of personality is that of volition. The Holy Spirit is represented as divine. He has the attributes of deity. In Psalm 139:7-9 He is declared to be omnipresent; in 1 Corinthians 2:9-11 omniscient. He also performs the works of God. He is the creator and renewer (Ps. 104:30). He is called God in Acts 5:3-4, and 11 Corinthians 3:18.

II. How Believers are Related to the Holy Spirit. They are regenerated by Him (John 3:5-8); they are indwelt by Him (1 Cor. 6:19 Gal. 4:6) He also fills (Eph. 5:18 and Acts 4:31). To be filled with the Holy Spirit is the duty of every believer. No one has the right to perform any work for Christ without this filling (Luke 24:48, 49; Acts 1:8). Even the temporalities of the church should be in the hands of Spirit-filled men (Acts 6:1-3).

III. What the Holy Spirit Does (John 16:8-11).

1. Convicts the world of sin (v. 8). The one awful sin of the world is unbelief. The Holy Spirit convicts the people of the world of their error concerning sin and shows their guilt before God.

2. He convicts the world of righteousness (v. 10).

The resurrection and ascension of Christ prove that He is the Righteous One, and that righteousness is only possible as He is accepted as Savior.

3. He convinces the world of judgment.

To be convinced of the reality of judgment is the crying need of the world today. Sin unatoned for shall be punished. The sinner who refuses the righteousness which God provided in Jesus Christ also shall be judged.

4. The Spirit mortifies the deeds of the flesh (Rom. 8:12, 13).

The only way to get the victory over our carnal natures is to give the place of rulership to the Holy Spirit.

5. He leads the believer (v. 14).

The Spirit-filled believer lives the life of the Son of God.

6. He gives assurance to the believer (Rom. 8:15-17).

The Holy Spirit witnesses together with the human spirit to the reality of the new birth.

7. He enables the believer to pray according to the will of God (Rom. 8:26, 27).

While the believer does not know how to pray as he ought, the Holy Spirit helpeth his infirmity. All prayer which the Holy Spirit indites the Heavenly Father answers.

Partner of the Lord

Every young man and woman should be a junior partner with the Lord Jesus for the salvation of the world.—Jacob Chamberlain.

A Ruined Day

The whole day may be ruined by an impatient word, a prejudiced judgment, a hasty decision, a fit of ungoverned temper.—J. C. Massee.

All Prayers Not Answered

I have lived long enough to thank God that all my prayers were not answered.—Jean Ingelow.

Battle Won by Prayer

Why talk so much? The battle is won by prayer.—J. W. Lee.

We Buy Eggs and Butter

Here is a splendid view of the plant of the American Milk Products Company made especially for The Herald by the B. & B. Studio of Cameron.

MILK PLANT OPENING FEBRUARY 1 PRESAGES INDUSTRIAL DEVELOPMENT AND FARM PROSPERITY

22,000 POUND CAPACITY MILK PLANT WILL OPEN FEBRUARY 1; DAIRYMEN SHOW ENTHUSIASM FOR FARM INCOME

Presaging an appealing industrial development for Cameron and prosperity for the farms, the opening of the 22,000 pound capacity milk plant of the American Milk Products Company here on February 1 is the beginning of a new day in Milam county.

Final details in installing the machinery for this big plant are now engaging the attention of the mechanics and with zone meetings being held each night among the farmers who are learning of the advantages offered them in a year round cash market for butter fat, indications are that the opening day Friday, February 1 will see the largest volume of milk ever brought in on opening day for any plant established in this section of Texas.

The problem of supplying cows for farmers who wish to engage in milk production is now receiving the serious attention of a number of Cameron men versed in livestock.

The big plant has been made possible by a co-operative movement begun some months ago in the Cameron Commercial Club and having received the active financial backing of a number of Cameron business men is assured successful operation with profits to the owners as well as great benefits to the dairymen who will be able to sell their milk on a butter fat basis at 63c per pound for fat.

The management of the plant will give all possible attention to the receipt of milk for the first day of the operation. Within a few days open house is planned and the people of the city will be invited to inspect the plant and to learn of its benefits in

furnishing to the homes pasteurized milk.

The plant will specialize in cheese, Bulgarian butter milk and butter. The sale of pasteurized milk will be the largest output of the plant for the present as the homes of the city will be served this product at 13c per quart.

The big plant is modern in every detail and is housed in the east section of the building formerly occupied by the electric division of the Cameron Water, Power and Light Company. Machinery for this plant was purchased from the Chicago division of the Cherry-Burrell Corporation and includes not a pasteurizing plant but a cheese making plant together with machinery for the butter milk and the butter.

Milk from the Rockdale section, Rosebud and Davilla sections and in near portions of other counties as well as points within the immediate territory of the city will feed this big plant.

With the plant operating at capacity approximately a half million dollars

each year will be paid into the hands of farmers. When taken into consideration with other produce sold here this will make an enormous income to supplement cotton and other earnings from the soil.

Cows maintained and milk sold as an adjunct to the farm means that this enormous sum of money is velvet to the farmers as cows are kept and made to produce with little or no expense if the feed crops are raised substantially on the farms.

All Cameron and Milam county is talking milk. When the big plant opens on Friday, February 1 one of the most far reaching steps for balanced income for the farm in the history of the county will have been taken.

Farmers who are interested in selling milk and adding cows to their herds are requested to get in touch with the plant or the commercial club where assistance can be arranged.

There is just so much worry for everybody. If you dodge your share there is more for your creditors.

C. W. LAWRENCE HAS BEEN IDENTIFIED WITH GROWTH OF CITY FOR YEARS

C. W. Lawrence, president of the American Milk Products Company has been an outstanding figure in the industrial development of Cameron.

As part owner and manager of the Cameron Water, Power and Light Company he gave to the city its first greater utilities and in this way as well as other ways he has been active

As a member of the commercial club for many years in industrial circles, and for more than ten years a director, he has served in various ways to advance the city. As president of the club he was instrumental in giving the city the advantage of his experience as an industrial leader and this brought many advantages to the city.

Among the many things worth while that has challenged the attention of Mr. Lawrence is the grape industry, now progressing well in the sand districts east of Cameron.

When the matter of the Milk plant

was first brought to the attention of the club Mr. Lawrence was one of the first to lead out on the program, not only giving to the project his influence but was responsible in a large

(continued on page 4)

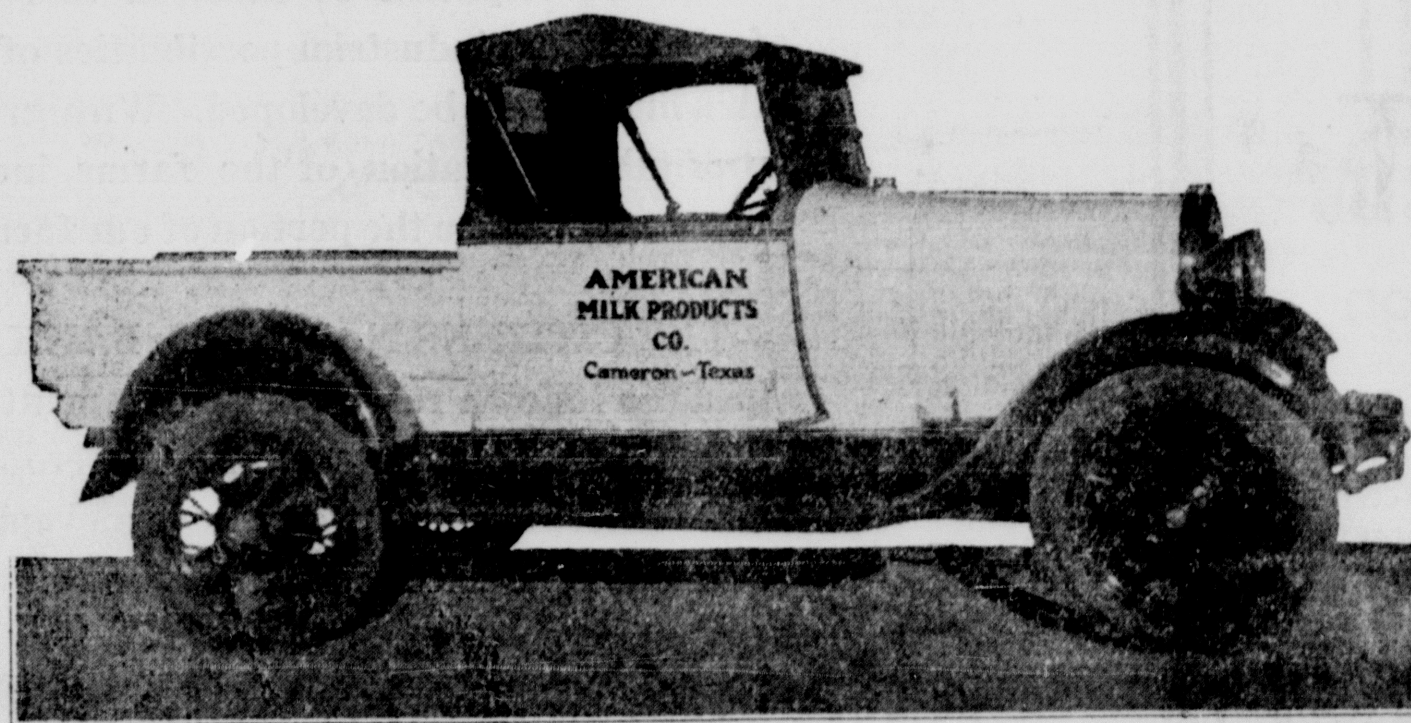

New Fords To Deliver Pasteurized Milk In Cameron for Company

In a half page advertisement in this issue the Hubert Hefley Motor Company presents a picture of a Ford truck that bears the name of the American Milk Products Company.

The New Ford with its white dress of duco paint and attractive sign lettering makes a fine impression. The company is finding the new truck is meeting all requirements and others will be added as the demand is made for city wide delivery of pasteurized milk.

Congratulations

To the American Milk Products Company upon their organization and entry into a new field of endeavor in this vicinity which we trust will be a means by which every farmer in Milam County will see the dawn of a new day. It is our aim and desire to play a small part in the promotion of the Dairy Industry in this section by providing adequate transportation for the handling the Milk and Cream from the Farmer to the Plant. Below is a picture of one of the New Fords which we have recently delivered to the American Milk Products Company for this purpose. It embodies the best efforts of the greatest automobile organization in the world. It will deliver many miles of dependable and economical transportation.

We will be glad to hear from any one interested in the purchase of a New Ford either for cash or on terms. A demonstration will convince you of its superiority. We can make immediate delivery on all models.

FIFTY THREE CENTS FOR BUTTER FAT ANNOUNCED

CLASS PLANTS CAPACITY PLANT WILL BE OPENED FOR BUSINESS BY FEBRUARY 1

The big 25,000 pound capacity plant of the American Milk Products Company at Cameron will be opened for business in February 1st, according to William Reese, manager, who is putting up with all possible haste the setting of machinery.

The opening of this plant is regarded as the greatest development in the history of the city for prosperity on the basis of milk.

At present, the city has no milk plant. The plant is being built at a cost of \$100,000. The plant will be able to handle 25,000 pounds of milk per day.

a matter every day for milk. According to Mr. Reese 100 cows will be required to feed the plant in season. Based on the average cow this will give the plant 25,000 pounds of milk per day.

The products of the plant will be cheese, butter, and milk.

L. F. GUGGOLZ SETS UP MACHINERY FOR PLANT

HE GENTLE ENGINE PRIMER OPERATOR OF THE MACHINERY INSTALLER

One of the big factors in setting things in order at the American Milk Products Company for the big opening on Friday, February 1 is the installation of machinery.

For this task the services of Mr. Guggolz, a well-known machinery installer, have been secured.

Mr. Guggolz is one of the most experienced installers of machinery in the city.

He has been working on the plant since it was first started.

a gross earning of \$225. Feed for the average cow when not bred in large part is home grown, will cost 15c per day, based on small home grown such as Jersey and Guernsey. Estimates and larger home animals can be fed for 15c per day when bred are bought and not raised. Better cows cost no more than lower grade cows and produce more profit. A better calf at 18 months is worth as much as the mother cow and the best calves are worth \$20 per head. Young bulls of from registered strain are worth \$10 at 3 months. The average good cow is to be bought from \$25 to \$35. Take your pencil and figure it out. You will find that operated as an adjunct to your farm and dairying with ready cash market for milk every day in the year will make as rich as a people.

Many Sources Seek Dairy Cows For Use In Milk Industry

An investigation by a representative of this paper Monday revealed that a number of men were seeking to buy dairy cows for shipment into the territory controlled by the establishment of the dairy plant in Cameron.

Raise More Cotton On Less Acreage

BIG BOLL RUSSELL BLOCKED SEED And QUALLA Cotton Seed

With diversification you will give more time to milk and to cows so you need cotton that will produce more on less acres.

Put up in three bushel sacks, they are the best seed to be obtained and insure you a superior yield.

TWELVE MONTHS OF ADDING TO THE TEXAS MILK STREAM

By BEEMAN FISHER
Editor Texas Opportunities

Governor Moody's Texas Industrial Committee is but one year old, yet within its brief lifetime the Lone Star State has experienced a period of unparalleled progress.

There can be no question that this Committee has had something to do with the focussing of Texas eyes on Texas opportunities and with the advertising of Texas resources to the Nation.

It has been host to a party of Eastern textile executives and financiers who came to inform themselves on Texas textile possibilities, and who, upon their return to their homes, reported as follows: "Our conclusion is that there is no section of the United States which at present has so many advantages favorable to cotton mill development as the State of Texas."

This Committee, made up of leaders in representative industries, has done much to stimulate Statewide concern in industrial and agricultural potentialities and to restrain the "boom" spirit of community development. It has constituted an effective clearing house of co-operative effort.

Many manufacturing concerns, branch factories, and new enterprises of wide assortment have located in Texas within these twelve months. But there is no field in which advancement has been more spectacular than in dairying. Bossy has planted all four feet solidly on Texas terra firma and vowed she'll stay and be a useful citizen.

John W. Carpenter, chairman of the Governor's Committee, has found himself happily situated in a position where he could be of strategic value to Texas dairying through his presidency of Texas Power and Light Company and of Texas Electric Service Company. Some way, somehow, he has conveyed his enthusiasm for, and faith in, dairying opportunities to the local managers. Through their efforts, in co-operation with the efforts of other leaders in the several communities, a creditable beginning has been made toward creating a new and impressive cash crop for Texas—milk—and in supplying a local market for that crop. Cheese factories have sprung up in widely separated localities, where not one was in operation before. Creameries have dotted the land, in contrast to the void existing

throughout so many years. Milk-products plants have been built and are now serving to stabilize the milk industry without regard to seasonal peculiarities.

Dr. C. D. Pearce, of the Borden bureau of dairy development, attributes much of the credit for the Borden selection of Waco as the site of its first Texas plant to T. H. Williams, Waco manager of the Texas Power and Light Company.

The same brand of approval goes to Joe Durning, Sherman manager, for his part in the acquisition of the great Meadlake Milk Products Company.

Up at Wichita Falls came the giant Kraft cheese factory, to boost the milk money of the rich Kemp Lake region, partly as a result of co-operation by A. E. Kelly, the manager there. Over in East Texas J. H. Calhoun has helped effectively to obtain a Douthitt milk products plant for Tyler.

In no small measure rural electrification progress and dairying development are all bound up together. Dairy farms require running water, feed grinders, milking machines, refrigeration and other facilities most conveniently supplied by electric power. So there could have been no step more pregnant of rural advancement than the decision by Texas Power and Light Company to maintain a rural service agent.

In the last year more than 500 farmers have been added to the company's list of customers and a large proportion of these are dairymen.

Texas has long held the State championship in the production of "country" butter, but for long has lagged far behind in the making of creamery products. Texas has for years led in the growing of grain, sorghums and has been among the leaders in the raising of other feed-stuffs. The long summers, falls and springs and the short winters, are favorable to extensive dairying operations, and there is no reason why in due time Wisconsin and Iowa and other dairy States should not surrender supremacy to Texas. The economies of the situation makes the thing inevitable. Harrison county is calling itself, "The Land of Milk and Money." It's a slogan that should be equally applicable to many other counties of this State of even climate, rich soils, and progressive populace.

CREAM STATIONS PAY OVER \$1000 MONTH TO LOCAL FARMERS

MANY FARMERS MAKE THEIR
COWS PAY LIVING EXPENSE
DURING PAST YEAR

The three Rockdale firms operating cream stations paid to the farmers of the Rockdale country during 1928 the sum of \$12,726.95 for cream—more than \$1000 per month, according to figures compiled by the editor Monday. The sum total showed a substantial increase over 1927 and previous years, and the report indicates that farmers are becoming more and more interested in dairying and are finding their cows a profitable investment. Many of them have bought cream separators, and all of them are well pleased with the business, according to the buyers. It is indicated that more cows and better cows will gradually be added to the present number being milked for the coming year.

The Farmers Union Store handled the largest amount of cream, paying out \$5,142.79 during 1928. Backhaus Bros., report \$3,900.00 and Scarbrough & Hicks Company \$3,684.16. The latter firm only began buying cream in May, and its total is for eight months. The best month in the year, according to reports, was April, and all the Spring months showed better returns than the summer and fall months.

The establishment of the Milk Products Plant at Cameron is expected to stimulate dairying all over the county, and arrangements are being made for a milk route to Rockdale. However, many farmers say they will continue to sell cream rather than the whole milk, for the reason that they are operating on a small scale and bring their sour cream to town only twice a week, whereas the whole milk would have to be delivered sweet each morning. These men say that unless the milk route passes their door they will be unable to patronize it. It is thought, however, that others will increase their dairy herds and make a regular business of dairying, selling their product in the form which proves most profitable.—Rockdale Reporter.

Or the Flatiron Building

Harry: "That fellow will fall far anything. Easiest mark in the world."

Somers: "Somebody told me that a baldheaded barber could sell him hair restorer."

Renovating

His wife: "We ought to have a new car. This one looks disreputable."

Hardy Upton: "Can't afford it. But I'll fix up this old bus—wash it up and put a fresh mortgage on it."

CONGRATULATIONS

To the American Milk Products Company on the Opening of the Milk Plant on February 1

The Cameron Herald, identified with the progress of Cameron and Milam County for the past 50 years extends sincere congratulations and good wishes to the plant and to the progressive men who are back of it.

The Herald has been a consistent booster for dairy products. Farms need more cows. The farmers can now sell their milk for cash and bring prosperity to the community.

Co-operation is needed. Farmers, bankers, business men and merchants must pull together for a greater Cameron.

The CAMERON COMMERCIAL CLUB

Is Doing Worth-While Things For CAMERON

The Cameron Commercial Club has done many worthwhile things for Cameron. The latest achievement along the line of industrial development for the "Friendly City" is the AMERICAN MILK PRODUCTS COMPANY.

The Commercial Club congratulates Messrs. C. W. Lawrence and R. H. McIntosh and others for their progressive outlook for the city and community.

The American Milk Products Company gives promise of prosperity on farms in Milam coun-

ty such as no other movement has brought in recent years.

Co-operation is needed. Farmers who wish to buy cows or sell milk should fill out the coupon in this space and mail to the Secretary of the Cameron Commercial Club. The club will assist you in every way possible to buy cows or to sell your milk.

The Commercial Club takes this occasion to congratulate the people on the opportunity presented for profitable dairying, and urges co-operation, more cows and more prosperity.

Do You Want to Sell Whole Milk?

If you do, fill in and mail the following blank to the Cameron Commercial Club. This information will be placed with the proper authorities on milk production and you will be given every aid possible in buying cows and in marketing your milk.

How many milk cows will you have February 1.....?

Estimated number of gallons milk they will produce.....?

If price is sufficient will you deliver to Cameron.....?

Do you want to buy more cows.....?

How many.....?

Do you wish to have the whole dairy business more fully explained.....?

MANAGER FOR MILK PLANT HAS MADE AN INTENSIVE STUDY OF INDUSTRY

Willard Reese, manager of the American Milk Products Company, to open for business here on Friday, February 1, 1929 has made an intensive study of the milk business both as to the product and to plant management and takes his place as manager of the new industry with a thorough knowledge of the enterprise.

Mr. Reese has spent the major part of the past four years in this industry. He first was attracted to the business in Baton Rouge, Louisiana, where he went in 1925 to attend the state university.

At that point is located the plant of the Delicia Ice Cream Company. Beginning with this concern in an humble capacity, he soon became superintendent of the plant and as he progressed in the business the owners of the plant took advantage of his knowledge.

He made trips to the north and east in the interest of the industry and as late as October 1928 when he was called here to take the management of the American Milk Products Company,

he made a trip to Mississippi where he again made an intensive study of the details of this business.

Preparatory to opening of the plant here on February 1 Mr. Reese has been holding a series of meetings over the territory to get farmers interested in the production of milk. He has found a general good interest in the business and fully expects to see the plant operating at capacity within a few months.

The capacity of the plant here is 22,000 pounds of milk per day. The management does not expect so large amount of milk on the date of opening but an intensive campaign is now under way to place before the farmers the advantages of dairying and the profits to be derived from the sale of milk.

Mr. Reese has made an intensive study of live stock and will be of great assistance to the farmers in selecting their herds. He is now working on plans to bring better milk cows to this territory and if given co-operation will bring about a solution of the problem.

shipments and the indebtedness on these will not exceed \$50.

Texas Power & Light Company Encourages Industries Here

John C. Young, local manager for the Texas Power and Light Company, has been active in promoting industrial development in line with the policy of his company in aiding the establishment of milk plants and doing work among the farmers to encourage them to engage in more profitable efforts.

Electricity will play a big part in the operation of the American Milk Products Company and Mr. Young as a director of the commercial club and a member of the industrial committee has been instrumental in putting over the program for a big milk plant for Cameron.

Gas For Heating Of Milk Products Plant Is a Big Factor

Gas as an industrial utility is to be proven in a large measure for Cameron when the American Milk Products Company opens for business here on February 1.

Plans are now under way for supplying the plant with heat. Machinery for pasteurizing milk and for making other products will be driven by gas and the large boiler in the plant will be supplied by gas as soon as the burners can be installed.

The Community Natural Gas Company is playing an important part in the industrial life of the community as well as supplying fuel for domestic purposes.

FRIENDLY BIBLE CLASS

Members of the Friendly Bible Class of the Methodist church had a business meeting and social at the home of Mrs. W. B. Levy Friday afternoon. Mrs. Bob Terry, who was recently elected president after the resignation of Mrs. Alex Triggs, presided at the meeting.

After all business had been disposed of, Mrs. Levy, assisted by Mrs. Arthur Baskin, Jr., and Mrs. Vernon Roberts, served sandwiches, cookies and hot tea. Enjoyable features of entertainment were readings by Nona Weems, Helen Swift, Lorraine Pope, Helen Harrell and Lella Batte, pupils of Mrs. Edwin York.

C. W. Lawrence

(continued from page 1)
measure for financing the plant, having subscribed for a majority of the stock.

The success of the plant is assured now that Mr. Lawrence is to give it his personal attention.

When the Cameron, Water, Power and Light Company sold its interests to the Texas Power and Light Company, Mr. Lawrence retained the Cameron Ice Company and the cold storage buildings, still retaining a place of leadership in the industrial life of the city.

The fact that the company has sufficient floor space in the plant, a view of which appears on the front cover of this section, to house the milk plant made its installation more economical and was a great saving in time and money.

Mr. Lawrence with his ripe experience as a business man looks upon the milk plant with a high degree of enthusiasm. He has gone into every detail of the business and is satisfied that the industry will pay and in addition will bring rich rewards to the farmers who produce and sell milk at the plant.

Cameron Banks Will Aid Farmers To Buy Cows For Milk Trade

Willard Reese, manager of the American Milk Products Company of Cameron, says that he has discussed matters of finance with Cameron Banks and they will co-operate in every way possible with the farmers to aid them in buying dairy cows.

Men who are in earnest and know something of the needs of the business to make it a success, can get accommodations, it was said by Mr. Reese here today.

Little time has been found by farmers to turn away from cotton sufficient to devote a little time to cows, and as a result only a limited number of cows of the better grade are available for the milk supply.

It is pointed out by Mr. Reese that in many instances the banks have bought cows and made arrangements to take care of the milk receipts on monthly installments sufficient to retire the debts.

At Roundrock cows were purchased and sold on this basis by private parties. Today, says Mr. Reese only 8 cows will remain unpaid out of the

Agriculture Sets Out On A Permanent Basis With the Coming of the AMERICAN MILK PRODUCTS COMPANY TO CAMERON

Farming in the Cameron territory takes on new life as the American Milk Products plant opens for business, February 1. The dairy cow ushers in a program of permanent agriculture in this section of Texas. The establishment of this plant forms a close link between the farming operations of Milam and adjoining counties and the industrial development of Cameron.

The Texas Power & Light Company extends its welcome to this new industry. This company recognizes that the American Milk Products Company comes to Cameron because of much constructive work which has been done by Cameron citizens, and it wishes to congratulate these people on their splendid work. It is this sort of practical dreaming and concerted action that builds communities. This company welcomes the milk plant because it brings with it continued prosperity to the people whom we serve.

Texas Power & Light Company

Providing for the Texas of Today—
Planning for the Texas of Tomorrow

R. H. McINTOSH WAS LEADING INFLUENCE IN OBTAINING MILK PLANT FOR CITY

An early leader in the movement to secure for Cameron the Milk Products Plant, R. H. McIntosh, business man, is the vice-president of the company and has brought to the program for the success of the American Milk Products Company, a ripe experience and enthusiasm for the benefits it will bring to the farmers of the territory.

As chairman of the Industrial Committee of the Commercial Club Mr. McIntosh made visits to Round Rock and other points where milk and cheese plants have been established, bringing back reports that encouraged the committee and the club to forge ahead with plans for the plant.

Having subscribed liberally to the stock of the corporation Mr. McIntosh was instrumental in a large way in completing the organization which makes possible the opening of the plant on Friday, February 1.

Long identified with the mercantile interests of the city Mr. McIntosh in recent months has been elected and has served as a director and vice-president of the First National Bank. He will bring to the organization of the milk plant his business experience and his influence which will be contrib-

uting factors to the success of the industry.

Mr. McIntosh has been active as a director in the commercial club and as such has been instrumental in bringing many worthwhile industries to Cameron. He served as chairman of the civic improvement committee when many far reaching changes were wrought in the city for betterment and when the milk plant program was up for consideration he gave to it his support and more than any other who worked for its completion deserves the thanks of the people of this section.

Mr. McIntosh as a business man, looks upon the milk plant as the greatest contribution in recent years to aid the farmers. He is a strict believer in diversification and believes that every farmer should have one or more cows to bring him an income each day from the milk plant where a ready cash market will be maintained the year round for milk.

Mr. McIntosh in no sense desires that farmers should abandon cotton or other major crops, but cows can be maintained as an adjunct to the cotton farm, where feed can be raised and will be a source of income to bring prosperity to the farmer.

insurance Association for insuring the cows bought on borrowed money so that they could protect themselves and their creditors. Prepare for home raised feed and have some on hand before starting to buy a herd.

No one should start with over ten cows, if a man does his own work, four would be sufficient. Then he could make a fair crop and attend to his cows too.

You may forget all else, but remember this: "It's care, kindness, plenty of water and home grown feeds, always pay in the dairy lot."

Mr. High's words might lead one to think that in dairying there is to be quick and easy money, but don't expect either. The advantages and disadvantages in dairying are both found in that to succeed well, a man will have to be on the job every day, always on the minute if he gets best results. Fifteen minutes late in milking, will tell in the milk pail. Often irregular watering will tell for days afterward to your hurt.

Rightly done, dairying, though a dirty work will build you a rich gold mine in your farm and a reasonable profit on your investment 365 days in each year, give you a herd of milkers that any man in any walk of life might well be proud to possess.

Foremost farmers the selling of whole milk at first will be most profitable but for the faithful, intelligent farmer, selling cream, keeping a flock of good laying hens, a few hogs and the saving of his best heifer calves, to use his skim milk, will in the long run, make more money.

In the one you have only two sources of income, fertilizer and milk checks. In the other you will have six sources, fertilizer, cream checks, eggs, fliers, pigs, high producing cows to add to your herd, cheaper than you can buy them, for dairymen do not sell their best cows at any price.

The prices put out by the Cameron Milk Products Company for whole milk is higher in proportion to the price of cream than prevails in Mississippi. Don't think that from Mr. High's description of Tupelo that the town and county has eliminated all poverty. "These will be with us always," but Lee county has had a wonderful wave of prosperity from an intelligent use of the dairy cow.

Milam county, with Cameron in the lead can do likewise if we will co-operate as we can and should. My experience teaches me that the men put in the front of such a co-operative work, must be afraid of criticism, good bad or indifferent, it all will have the effect of getting the people interested so you can get the facts over and

that is what you want, after all.

Secret suspicion has been the deadly foe of co-operative plans more than all else combined. A good starter of this suspicion is for the leaders to begin to whine or squeal under criticism, even of the most unjust kind, coolness and openness of the leaders is the main cure for secret suspicion.

TICK FREE COUNTY IS AIM COMMERCIAL CLUB

TO ASK COMMISSIONER'S COURT TO RID STOCK OF FEVER TICK IN COUNTY

A committee from the Commercial Club will confer with the Commissioners court regarding the cattle fever tick in Milam county and will urge eradication work so as to free the county of this menace to live stock.

Tick eradication is looked upon now as necessary because of the interest being taken in dairy cattle. If shipped into this territory cows are subject to fever and in many cases die from the disease.

The following directors were present: C. S. Peyton, W. M. Cobb, F. S. Lesovsky, J. C. Young, F. J. Beckerman, Dr. James Watson, Rev. E. S. Hutcherson, W. H. Shipp, George Banzhaf, C. W. Lawrence and J. W. Watson.

The minutes of last meeting were read, corrected and approved.

On motion W. H. Shipp was added to the committee to interview Commissioners' Court on the necessity for freeing the county of the fever tick.

C. W. Lawrence warned the members against giving all their time to the dairy interests and recalled the fact that grape culture should not be neglected as the necessary acreage to make it a commercial success had not yet been secured. Mr. Lesovsky reported that F. E. Jackson has 25 acres in grapes and several others have five acres each. Mr. Jackson having bought cuttings from several who did not have enough for 5 acres.

On motion of Mr. Lawrence a committee was authorized to look into the grape situation. President Peyton appointed J. C. Young, E. S. Hutcherson and George Banzhaf on this committee.

Mr. Young of the committee on Home Industries and Factories reported that he had been working for two months on locating a feed mill in Cameron and was expecting to be able

to get one and possibly two such enterprises for Cameron.

Reference was made to a newspaper article calling attention to the need of a brick plant for Cameron.

Mr. Lesovsky referred to the high school athletic field that was recently filled in as a former location of a successful brick kiln, also one on the R. E. Sharpe homestead.

On motion of Mr. Young the suggested brick plant project was referred to the committee on Home Industries and Factories.

Mr. Beckerman, on suggestion of President Peyton, introduced his visi-

tor, Mr. Jensen of Houston, who expressed his pleasure at being present.

Dr. Watson stated that all the members ought to do more, ask people to attend the Chamber of Commerce meetings and back up the directors in their work.

Mr. Hutcherson endorsed this talk and said we should take more seriously the talk of Moulton Cobb in which he suggested that the club should meet in the daytime instead of night; that the larger firms should contribute more generously and that every member should vote in the election of directors, by mail ballot.

Do You Want to Sell Whole Milk ?

If you do, fill in and mail the following blank to the Cameron Commercial Club. This information will be placed with the proper authorities on milk production and you will be given every aid possible in buying cows and in marketing your milk.

How many milk cows will you have February 1.....?

Estimated number of gallons milk they will produce.....?

If price is sufficient will you deliver to Cameron.....?

Do you want to buy more cows.....?

How many.....?

Do you wish to have the whole dairy business more fully explained.....?

PIONEERS IN EXTENSION WORK

College tation, Texas, Jan. 23.—When Extension Service workers from all over the country meet in Houston February for the Twenty-fifth Anniversary Celebration of the service in the United States, Texas is expected to carry off the laurels for representatives with the longest periods of unbroken effort in the work to their credit. George Banzhaf, Milam County, Texas, agent, is accredited with longest period of unbroken service of any county agent in the United States. He began his work in 1908 in Milam County and is still serving that county as farm agent.

A Suggestion On Dairying

By MRS. R. L. NICHOLSON
Maysfield

In reading an article the other day, I was very much impressed by what Mr. High, the Tupelo banker, had to say about dairying. He told us the condition in which the boll weevil left them on his first visit. Then he tells us that they turned to the patriotic cow—the dairy cow.

After a few years of her service the banks have lots of money and the farmers all modern conveniences on their farms and in their homes.

His picture has all the ear marks of an enthusiast, but what we would like to know is how did they do it?

In changing from one to another kind of farming is expensive at best, but when a fellow is 'broke,' it is almost a tragedy to start with.

In going from a cotton farm into the dairying business you have almost an entirely new outfit of implements and they are more expensive than those for making cotton.

Having lived in the edge of the dairying belt in Mississippi of which Tupelo forms the northern part, I may be able to give you a partial history of how it was done.

The bankers were the key men in the situation. The farmers, in their financial plight were ready to take a chance at anything that held out any hope for bettering their condition.

The real leader in dairy thought in Mississippi is J. S. Moore of the dairy department of the A. & M. College at Starkville and a specialist and prac-

tical dairyman, too.

The plan followed in most communities were this: The bankers furnished the money and saw that the farmer got money's value in good cows and better bulls. The best bulls are none too good to start with if a good herd is to be had.

Practical experts were brought in and real practical advice was given the farmers from the start. Remember this, with all manner of good advice you have to pay extra for experience.

The farmers started with a few good cows, raised all their hay and as much as they could of their concentrates to feed their herds. They literally grew into the business, with care, kindness, water in the feed lot, home raised feed and a good prepared pasture, not depending on native grasses alone, a man need have no doubt of success.

Yes, there is work in it, 365 days in the year, physical, yes, but also there is more room for mental gymnastics if a fellow tests his cows and seeks to give them a real balanced ration, which is the main road to success.

Here is a workable financial plan. The bankers furnish the money and superintend, with a specialist, the buying of good cows and pick their farmers for the experiment. Money should be had at six per cent.

The farmer should form a mutual

Buda's Dairy Development Sets An Active Pace

Symbolizing the spirit of Texas pioneers, Buda a south central Texas community, has stepped forth and made a place for herself in the sun.

Scarcely more than a year ago a small group of business men, headed by Dr. Clay Lauderdale and W. M. Woods, met to discuss the proposition of building Buda into a better place in which to live.

Buda is in Hays county on highway No. 68, and the Katy and I. & G. N. railroads. It has between four and five hundred population. It is the trading place for a once prosperous cotton growing agricultural section. Other than that it had little to commend itself to the world at large.

This background is given in order that you may appreciate the courage and hardihood evidenced by these men when they came together for the purpose of building up out of God-given resources a city that would attract and increase in population.

At this significant meeting held in the fall of 1927 Dr. Lauderdale suggested that they start a cheese factory. His suggestion was met with some ridicule and passed to a committee for investigation. W. C. Merritt, manager of the Texas Power and Light Company at San Marcos made an extensive research into methods employed by cheese makers in Wisconsin, and prepared a report on what some other communities had done in Texas up to that time.

When Mr. Merritt placed his findings before another meeting of Buda business men a far different attitude was taken by that body. A committee was immediately appointed to find out how much it would cost to put a plant in operation in Buda and to recommend a method of raising the necessary money.

Three months after the appointment of this committee, action had been taken on their report and the Buda Cheese Company was incorporated for \$2500 more than had been originally intended. The money was raised by popular subscription, 117 citizens evidenced their faith in the judgment of their community leaders by taking stock in the Buda Cheese Company and paying cash for it, even before a spadeful of dirt was turned toward erecting the plant.

Dr. Clay Lauderdale is president of the Buda Cheese Company, Dave Garrison, Vice-president, W. M. Woods,

Secretary and Treasurer, while J. L. Heller, G. A. Moore, John R. Howe and S. B. Barber together with the officers compose the board of directors. All these are business men and land owners of Buda.

The Buda Cheese Company opened for business with a capacity of 10,000 pounds of whole milk per day. Their first day brought to them from farmers within a radius of ten miles of Buda a total of 2500 pounds of milk from 61 patrons. Subsequently their patrons grew to 145 farmers who delivered 9500 pounds of milk per day. At the present time their patrons number 100 and their daily average of milk is 5000.

This considerable drop in production ability calls for explanation. And in the reasons for this condition exist some most significant facts for the consideration of every alert minded Texan.

First, understand that the Buda Cheese Company has its entire output sold in advance. Buda farmers, then, have a daily market for all the milk they can produce and the Buda Cheese Company is paying a fair price for this milk.

Reason one for the drop in production is poor roads which make it impractical for farmers to bring their milk during bad weather.

Reason two is that bad weather causes a natural lessening of production of milk from cows not properly housed.

Reason three is that competitors which had secured a large volume of milk from this territory at their own arbitrarily set prices are now raising their prices beyond that set by the Buda Cheese Company. The price which the Buda Cheese company has paid from the outset for milk was from fifteen to forty per cent higher than was then being paid by any other volume buyers of milk. The cheese company set their price because they could manufacture their product and sell it at a profit on that basis.

From this it is readily seen that development must be balanced. Good roads must go hand in hand with other improvements if the commonwealth is to profit, as a whole. It also is evident that educational work must be carried on among our farmers as to the proper feeding and housing of their stock.

Buda has taken her place in the

sun. This fact can not escape recognition. This little Texas community, unknown to hundreds of thousands of Texas people, has tapped a Texas opportunity, put it through the laboratory test, found it more profitable than even they imagined, and are now planning wider activities upon which to turn their pioneering energies.

This linking of the farmer and the business man in a program of common development is to be the working out of the vexing problems which beset our rural communities in Texas. It is inspiring to have one of these centers faced with all the dire conditions against which so much ranting is thrown, step right out in the open and point the way to their own salvation. Buda has truly taken her place in the sun.

Buda has produced results, tangible, definite and understandable by all. Within recent months there has been an increase of 25 per cent in local business. More than 75 per cent of this increase has been in cash transactions. Inquiries come daily for home sites. A better class of tenant farmers have been attracted to till the soil of Buda landowners. At the opening of the school season there was an increase of 68 pupils in local schools where the average increase for a number of years had been 6.

The Buda Cheese Company pays the farmers in its territory an average of \$5000 cash per month. The activity which they have thrown into the market for dairy products has kept the price of butter and cream up to practically double what it was before. They have given their farmers a year round market for their products. And whereas dairy cows were formerly selling for an average of \$65 per head they are now selling for an average of \$125 per head.

While the story of this young enterprise reads like romance it must be understood that these men have had their dark hours. They have run into some knotty problems. The fact that they have solved them satisfactorily is a tribute to their courage and faith rather than an indication that the problems were easy ones to deal with.

They have found that while operating under contract has given them and their farmer customers an assured market for all obtainable milk, they have at the same time found that it places them under the severe handicap of having to operate for periods on very narrow margins, and occasionally at actual loss. Therefore they recommend sufficient capitaliza-

tion to enable financing of independent marketing of products.

Dr. Clay Lauderdale, one of the prime movers in Buda's activity recently made this significant statement which is indicative of the humanitarian motives which must actuate any program which seeks successful fruition; "In the outset we felt that our proposition, whether it be a cheese factory or some other project, must be based upon the idea that it would be helpful to all the people whose lives hinge around Buda as a hub."

That is just what the Buda Cheese Company has done. It has been helpful to the banker, the business man and the farmer, as well as to those who have invested their money in the factory itself.

Texas bankers, Texas industrialists, Texas business men, economists and agriculturists may study the motives, methods and results of Buda's business men and farmers, and no one can do so without much profit to himself.

PASTEURIZED MILK FOR HOMES OF CAMERON

MILK PLANT INSURES CITY SANITARY SUPPLY OR MILK FOR HOMES AND BABIES

A little discussion but never the less an important feature of the milk plant to be opened here on February 1st will be the sale of pasteurized milk for the homes and babies of Cameron. Frankly the management of the plant is stressing this important contribution to the food supply of the city.

C. W. Lawrence, president of the company, believes this will be one of the outstanding benefits of the plant.

A special installment of machinery will handle the milk supply for Cameron homes. Pasteurized milk will be delivered to your home at 13 cents per quart, a price cheaper than some milk dairies now sell raw milk and as cheap as any of them sell milk.

Trucks to deliver the milk to the homes of Cameron will be in operation. The milk will be sold on a cash basis at 13c per quart. For the convenience of the public milk tickets can be purchased.

Already some of the dairymen have signified their intention to set aside

some of their cows for milk for the plant. In time it is believed that all dairies will sell direct to the plant.

Dairymen now have to deliver their milk and run their business on a credit basis and thereby take losses in accounts. If they sell direct to the milk plant they will get cash and will be able to eliminate a large part of their present expense and make more money from their cows.

Inviting Trouble

Texas auto owners who defer the payment of their automobile tax until after February 1 in the hope that the legislature will reduce the tax and make it retroactive are probably inviting trouble. A Dallas legislator has announced that he has not paid and will not pay the tax and advises others to follow his example. Perhaps the auto tax will be reduced, but there is hardly a chance that any reduction will apply to the tax collectible the first of January, for such

things are not done by legislative bodies. A ten per cent penalty and a fine for driving a car without paying the year's license fee will likely be the cost of delay beyond February 1.

Real Tragedy

Poor lass, she sobbed and sobbed and sobbed, it almost broke my heart to hear'er. And when I cried, "Why weepest thou?" She moaned, "I've lost my pocket mirror."

No Words To Waste

Two farmers met on the road and pulled up. "Si, I've got a mule with distemper. What'd ye give that one of yours when he had it?" "Turpentine. Giddap." A week later they met again. "Say, Si, I gave my mule turpentine and it killed him." "Killed mine, too. Giddap."

Congratulations

To the American Milk Products Company on the opening of the Milk Plant, February 1st.

Cameron will profit by this industry and the farmers will be a step further toward independence thru the sale of Milk and other produce of the farm.

Peter Produce Co.
Cameron, Texas

Congratulations

To the American Milk Products Company on
the Opening of the Milk Plant on February 1.

The prosperity of the community depends upon the progress of the farms in finding an outlet and a cash market for their products.

The Milk Plant will open up to the farmers a profitable business and enable them to get better returns from their work.

The Cameron Furniture Company offers its co-operation in every way.

An Agency That Service Built

Borden Comes To Texas

Huge Plant at Waco

From Texas Opportunities

Climaxing a period of organized dairying development in McLennan County, Texas, comes the announcement that Waco has been selected as the site of a \$500,000 plant to be built by the Borden Milk Company. With 15,000 cows pledged by more than 2000 farmers, it is expected that within two years the new institution will see delivery at its platform more than 300,000 pounds of milk daily.

At a mass meeting of farmers and business men of central Texas held recently at the Waco Chamber of Commerce, Walter Page, general manager of the Borden Company, outlined plans of his company and took as the theme of his remarks the turning point toward assured prosperity for Texas agriculture represented by the entrance of milk manufacturing capital into the state.

Mr. Page said no project of this kind ever before had been undertaken, but that it was his firm conviction Texas and his company, working together, could make the undertaking a success. As proof of this statement he outlined results already obtained at such points in Dixie as Starkville, Miss., Lewisburg, Columbia, Shelbyville, Pulaski and Fayetteville, Tenn., at all points of which milk manufacturing establishments have proven the success he prophesies for central Texas and most of them within a period of less than four years.

Proving the results obtained in Starkville, Mr. Page showed that in 1927 Octibbeha county had its largest cotton crop and still the value of its dairy products exceeded the return on the staple.

"Intensified and diversified farming wins prosperity and prosperity sells contentment and happiness," declared Mr. Page. "Dairying must be added to the present farm activity of the south. Farmers should produce just as much cotton, too, as they did before, but produce it on less land. Dairying will provide the monthly income ample to care for the farmer's daily requirements. That which he obtains at the same time from his one crop operation becomes his surplus or money crop return. That so far and with-

out exception has been the result obtained where our capital was invested in the south."

The Borden company's new Waco plant will be one of the outstanding plants of the south. Powdered milk will be manufactured in the first constructed unit and units for manufacture of other products will follow as fast as results in milk supply warrant.

"Never has there been undertaken such a project, converting a one-crop county to diversified farming on such a large scale," concluded Mr. Page. "This is made possible because of Waco's Chamber of Commerce, theceptive attitude of farmers in McLennan, Navarro, Milam, Robertson, Falls, Basque, Coryell, Hill, Limestone and Bell counties and because my company is willing to join in this great work. The project properly put thru will stand out as an example to all Texas that it can diversify; that it can produce and consume more of its agricultural products."

This project, too, is simplified due to the fact that Borden's manufacture and distribute all kinds of dairy products throughout Texas.

"You will have to hustle to put this thing over, and I do not believe you of central Texas will have anything to boast of unless you put it over in a big way," he said.

The speaker stressed the importance of good highways, declaring that good roads and dairying go hand in hand. He also emphasized the fact that although Waco had the main plant unit, other communities would have the regular monthly paycheck from delivery of milk. He urged the audience to go out and preach the gospel to the farmers of raising just as much cotton, with dairying, as before, but on one-half the acreage, and as he said this, he was applauded vigorously.

"It might be interesting to you to know of the value of condensed milk. I can best explain it in a comparative way. If all the canned milk supply in the United States was put into cars forming an endless train, it would take more than seven hours for the

fastest train to pass one years production.

Variety of Locations

"The Borden company operates plants in Nova Scotia, Ontario, British Columbia, Washington, California, Oregon, Utah, Wisconsin, Kansas, Illinois, Michigan, Pennsylvania, New York and now we're going to open one in Texas.

"As I through the courtesy of your citizens rode over the country in this district, I could not but realize that the full opportunities afforded by the land in central Texas had not been made use of. Nature gave to this section as good land as I've seen anywhere, but you have not taken advantage of all that you have.

Helping Man to Help Himself

"It is better to help a man help himself than to give him something. Helping him help himself teaches him something. I recall one visit to a one-crop territory which almost brought tears to my eyes. Children were without shoes, some without hose and some had clothed their nakedness with only a flour sack. They needed help, and I convinced my company that we should put in a plant there. The people are now paying off at the banks and the cows are lifting the mortgages.

"When one of our plants go into a community, we become a part of that community, because the community's interests are our interests and when I say 'we' and 'us' I mean exactly that.

"Permit me to call attention to your highways, they are absolutely necessary for the success of the dairy business. Good roads from the farms to the plants are necessary in order that milk may be delivered each day, and the delivery of the farmer's products must be done economically.

Dairying and good roads go hand in hand and so I say to you, work for good roads. Let it not be said that some farmer could not deliver milk because of poor highways.

"Although Waco has the central plant, this in no way detracts from the value of the firm to other communities. After all it is the monthly pay check that counts.

"Some of you may say that this fellow is trying to stop you from raising cotton. I don't say that, but I do say to you to go out and preach the gospel of raising the same amount of cotton on half the land. It can be done and the people of McLennan county have as much determination and persistency as any other class of farmers.

"It would be foolish for me to try

to tell you the price we will pay for milk. But wherever we locate we desire that the farmers prosper, for upon the agricultural prosperity depends our success. And wherever a milk plant of ours has been located, there has been agricultural prosperity and I say that without fear of criticism from man or God. Dairy products maintain a better price relation to general commodity prices than anything a farmer does.

"The only way to go after this proposition is with enthusiasm, or courage on fire. Success follows a dairy cow. Let's see how many pledge their support to this project?" and the speaker had scarcely finished his sentence before the assembly of farmers and business men arose en masse simultaneously with prolonged applause.

Dr. C. D. Pearce, of the Borden bureau of dairy development, followed Mr. Page on the program, being introduced as the "strong arm and scout" of Borden's.

Dr. Pearce followed Mr. Page to outline the practical angles of the dairy industry in this section. He was introduced as the "strong arm of and scout for Borden's." Dr. Pearce said he had "scouted" east, south, west and north Texas and believed the Central Texas area was the best of all for the dairy project. Pointing out that Gail Borden, the company's founder, was a Texas pioneer, he added that here in this day the Borden company thus was still pioneering in Texas.

"A good dairy cow will average 4500 pounds of milk per year," he declared, "and weighs around 1000. Thus she gives four times her weight and you still have the cow. To regain your investment in hogs you must kill them. And Central Texas is favored by nature for the dairy business. I would divide your lands into three classes: (1) alluvial soils along the creek valleys suitable to the raising of legumes, alfalfa, soy beans, etc.; (2) prairie soil, threatened with root rot, but yet available for raising legumes; (3) mixed lands which are very productive for all dairy feed crops. In fact, all of your lands are adaptable to raising requisite feed stuffs. Consult your county agents in the matter. Corn, sorghum, maize and grain all will grow here, and your best bet is sudan, sorghum and maize.

"Most of your pastures must be created but that is in your favor, for created pasture supports a cow to the acre, while usually a natural pasture requires 10 acres to support one cow. Your sunshine is fortunate and

its continuity will put the much needed vitamins into your feed. Nature has endowed you of Central Texas with all potentialities for dairying and the only thing you have lacked has been a market."

Location of this new plant in Texas is in the nature of a home-coming. Gail Borden came to the State in 1829 and engaged in stockraising. Texas was then a colony of Mexico. He was a representative at the convention at San Felipe in 1833, which petitioned the government for separate statehood. He was a friend and counselor of Stephen Austin, and is credited with having made the first topographical map of Texas.

In 1835 he and his brother with Joseph Baker, gave Texas its first newspaper. Gail Borden held several political offices, including that of public printer, and later, collector of customs at Galveston, which he himself laid out and surveyed. Leaving Texas he went to New England, and, after several years of experimentation he perfected the process of condensing milk. His invention attained a certain degree of success in connection

with the conduct of the Civil War. The popularity of condensed milk steadily grew from then on.

Following the war Borden returned to Texas and died on his ranch at Borden in South Texas. Borden County was named for him, as was Gail, the county seat. To his South Texas ranch he imported Brahma cattle from India, an adventurous undertaking of high subsequent importance, owing to the fact that these cattle proved tick fever resistant and have been valuable in crossing with American beef breeds.

**BIG SPRINGS FARMER
CLEARS \$10 DAILY
FROM SALE OF CREAM**

Big Springs, Texas, Jan. 12.—Sam H. Stamps, a farmer living 18 miles west of Big Springs, sold to the Snowwhite Creameries here during 15 days, in December 1050 gallons of milk, netting him \$336.33. Mr. Stamps is milking 29 cows and feeding forty, paying two men and clearing \$10 a day from his herd. He feeds one-half balance ration. The balance he grinds and mixes.

CONGRATULATIONS

To The American Milk Products Company

When the plant of the American Milk Products Company opens here on February 1 a progressive movement will have been inaugurated for the benefit of the dairy farmer as well as the community at large.

We congratulate the men whose spirit of progress and help is making this industry possible.

FIRST NATIONAL BANK gives its encouragement to every progressive move for the betterment of Cameron and believes that the engagement by farmers in dairying along profitable and conservative lines will do more than any other thing to insure proper financial income for the farm and bring prosperity.

We invite your attention to the strength and helpfulness of this bank assuring you of our appreciation of good will and confidence that has enabled us to grow and give unexcelled banking facilities for over thirty-eight years.

Bring Us Your Milk --- 53c Per Pound For Butter Fat

Attention Mr. Dairy Farmer:

The American Milk Products Company will maintain a cash market every day in the year for your milk. This plant, equipped with the best and most modern machinery that money can buy, is built on the basis of confidence and co-operation. To make it succeed you must be a part of it. The plant is established because need exists for dairying and also because the dairy farmer needs a cash market for his products.

The American Milk Products Company will meet the needs along this line. We will pay top market prices at all times for your milk and we are interested in helping you invest in good milk cows. If you have not made your plans to bring your milk to our plant, do so at once for it means money to you.

WILLARD REESE
Manager

What This Plant Means

This milk plant means prosperity for our community. Wherever these plants have been established and farmers have engaged in selling milk, prosperity has come to the farms, good roads have followed and better conditions have been noted in every instance.

Cameron and trade territory is better situated than most communities. We have the roads and now that we have the milk plant, paying 53 cents per pound for butter fat and able to handle 22,000 pounds of milk a day. Co-operation is all that is needed to bring prosperity and make of this plant a success.

The income of the farm can be increased to an unbelievable extent if the farmers will engage in selling milk. This can be done as an adjunct to the farm and the few minutes spent each day in taking care of your cows will return great profits to you.
